Dear Shareholders,

At the close of 2025, I paused to reflect on the exceptional journey we have taken together. This year was not just another milestone for Bank al Etihad, but a true turning point as we took confident steps towards shaping the future of banking with a clear vision.

Since our establishment, our ambitions have gone beyond traditional growth. We have always believed our role is not limited to offering banking services, but extends to redefining them and shaping a banking experience that is closer to people and more in tune with the changes of our time. Today, I can say with pride that this belief has become a reality.

The announcement of the merger between Bank al Etihad and INVESTBANK marked a defining moment in our history. It is the largest merger in Jordan's banking sector and the first of its kind in structure as a share-for-share acquisition. More importantly, it reflects a deep conviction that true success begins with shared values before numbers.

From day one, we saw strong alignment between both institutions, with shared ambition, a similar culture, and a long-term view of the future of banking. That is why this merger was not only about combining assets and balance sheets, but about bringing together ideas, cultures, and a unified purpose to deliver the best for our customers.

Following the approval of both Extraordinary General Assemblies on 25 June 2025, and the completion of the transaction within the approved regulatory framework, Bank al Etihad now owns 100% of INVESTBANK's shares. Our capital has increased to JOD 325.2 million. As we move forward, we are steadily working to unify our institutional and operational structures, systems, and teams under the supervision of regulatory authorities, ensuring continuity and quality of service for customers of both banks without disruption.

Today, as we take this historic step, our total equity exceeds JOD 1 billion. This scale is not a goal in itself, but a means to invest further in innovation, digital transformation, and human capital, and to deliver comprehensive banking solutions to a wider base of individuals and businesses.

This direction was clearly reflected in our performance over the past year. The bank recorded strong growth in net profits of 57%, driven by our regional expansion in Iraq and our solid performance in the Jordanian market. Our customer base also grew by 21%, reflecting growing trust that we consider a responsibility, not just an achievement.

On the operational front, we continued aligning the vision and institutional structure between Bank al Etihad and INVESTBANK, focusing on enhancing operational efficiency, unifying systems and processes, and maintaining the highest levels of service quality throughout all stages of integration.

Digital transformation and innovation remained central to our performance. In line with this direction, we continued executing our digital strategy to deliver advanced banking services that meet our customers' evolving needs.

We developed more flexible digital products and banking solutions, including simplified investment offerings, innovative financing solutions, and digital experiences designed to integrate seamlessly into our customers' daily lives, empowering them to make informed financial decisions.

This approach led to strong digital adoption and improved customer experience, alongside continued investment in technology infrastructure, cybersecurity, and automation solutions to ensure efficiency, reliability, and responsiveness.

In terms of organisational excellence, the bank received several regional and international awards across digital products, information security, SME banking, sustainability, and non-financial services. We see these achievements as proof that investing in quality and innovation creates real and lasting impact.

In terms of sustainability, we continued to lead by issuing Jordan's first climate report aligned with IFRS S1/S2 standards, reflecting our commitment to transparency and to managing climate-related risks within our overall strategy. Bank al Etihad also participated in the "Ring the Bell for Climate" initiative, organised by the Amman Stock Exchange, in recognition of its role in advancing climate disclosures and launching a comprehensive transition plan that links governance, business strategy, risk management, and finance. This journey was further recognised with our Abdoun branch receiving LEED Platinum certification, making it the first banking building in Jordan to achieve this global standard.

Building on our belief that our impact is not complete without a clear social role, we launched a new identity for our corporate social responsibility program, "Bassmet al Etihad," as a unified platform that brings together all our social, volunteering, and environmental initiatives. Through this program, we aim to maximise our impact in the communities we serve and strengthen our partnership with customers and employees to drive positive and sustainable change.

Looking to the year ahead, our focus is on completing the integration journey smoothly and efficiently, accelerating digital transformation, strengthening sustainable growth, and building a banking experience that sets a benchmark in the Jordanian market. Customer experience remains at the heart of everything we do, as we continue to innovate, lead digitally, and always put our customers first.

At the core of this direction is our belief that our true strength lies in our people. That is why we are committed to creating an environment that attracts and empowers talent, develops capabilities, and fosters a strong and flexible culture built on collaboration and achievement. We focus on attracting top talent, supporting their growth, and enabling them to lead, strengthening our ability to navigate challenges and shape the future with confidence.

We aspire to be the leading digital bank in the Kingdom and continue to invest in our people, partnerships, and innovations. Our goal is to simplify banking and make it the easiest part of people's lives, deliver an exceptional experience, and create long-term value for our shareholders and the wider community.

In closing, I extend my sincere appreciation to my fellow Board members and to the executive management, led by the CEO, for their leadership during this pivotal year. I also thank the employees of Bank al Etihad and INVESTBANK for their dedication, professionalism, and belief in this new phase.

My thanks also go to our customers for their trust, and to our shareholders and investors for their continued support.

Together, we move forward with confidence towards a banking future that is more innovative, more accessible to people, and more capable of making a real difference.

Basem Isam Salfiti
Chairman

Dear Shareholders,

It is my honour to address you for the first time as Chief Executive Officer of Bank al Etihad, at a pivotal stage in the bank's journey, where the achievements of previous years meet the ambitions of a new phase defined by integration, growth, and shaping a different future for banking.

Taking on this role at this time, alongside the merger between Bank al Etihad and INVESTBANK, carries a greater responsibility, not only to lead this phase but to transform it into a stronger and more sustainable platform, while delivering exceptional value to the shareholders of both banks.

We entered this phase with a clear vision: to build a stronger and more influential bank, driven by performance, strengthened by innovation, supported by a deeply rooted institutional culture, and centered around the customer in every decision we make. Our strategy is built on this foundation: disciplined growth, operational excellence, and digital transformation as a key driver of greater value.

2025 was an exceptional year for our financial and operational performance. The bank's net profit reached JOD 85.3 million, compared to JOD 54.4 million in 2024, recording growth of 57%. This confirms the strength of our financial position, the efficiency of our strategy, and our ability to achieve sustainable growth.

As of 31 December 2025, the bank's total assets reached JOD 12.5 billion, compared to JOD 8.4 billion at the end of 2024, an increase of JOD 4.1 billion. At the group level, excluding the impact of the acquisition, growth reached approximately JOD 2 billion, representing 19%.

Net direct credit facilities increased to JOD 6.4 billion by the end of 2025, compared to JOD 4.6 billion in 2024, an increase of JOD 1.8 billion. Excluding the impact of the acquisition, growth reached JOD 582 million, representing 10%.

Customer deposits reached JOD 9.4 billion as of 31 December 2025, compared to JOD 6.4 billion at the end of 2024, an increase of JOD 3 billion. Excluding the impact of the acquisition, growth reached JOD 1.6 billion, representing 21%, reflecting growing customer confidence and the strength of our deposit base.

Total equity increased to JOD 1 billion by the end of 2025, compared to JOD 693 million at the end of 2024, an increase of JOD 307 million. This strengthens the bank's capital base and supports its future expansion plans.

It is impossible to speak about this year without recognising our people. The enthusiasm, commitment, and positive spirit shown by the teams at Bank al Etihad and INVESTBANK throughout the integration journey were essential to our success. We recorded high satisfaction levels, exceptional service indicators, and active participation in training and development programs, which we consider a direct investment in the bank's future. We firmly believe that a strong bank can only be built by a strong team, and this is something we prioritise at every step.

Our customers remain the compass guiding every decision we make. Bank al Etihad ranked first in customer experience in Jordan according to independent reports, and we introduced a new approach to banking services that reflects customers' real needs, from flexible financing and investment solutions to digital experiences designed to be simpler, clearer, and more valuable.

Looking ahead, our vision for the coming year is focused on completing the integration journey with high efficiency, accelerating sustainable growth, advancing digital innovation, and building a more agile and responsive operating model. We aspire to further strengthen Bank al Etihad's position as a leading digital bank in the Jordanian market, capable of creating long-term value for its shareholders, customers, employees, and the wider community.

In closing, I extend my sincere thanks to the Board of Directors for their trust and support, to the teams at Bank al Etihad and INVESTBANK for their commitment and exceptional efforts, to our customers for their trust, and to our shareholders and investors for their continued support. Together, we move forward in building a new phase that is stronger, more ambitious, and more impactful.

Muntaser Dawwas
Chief Executive Officer

Our Business Model and Strategy

Our goal: To become the leading digital bank in Jordan

Our mission is clear: to become the leading digital bank in Jordan. How do we achieve this? By focusing on what matters to our customers and on the areas where we can make the greatest impact. Our strategy centers on empowering individuals through digital transformation and making financial services accessible to everyone.

We are committed to delivering efficient and dynamic services, while maintaining our leadership in introducing new products and services. Sustainability is at the heart of everything we do, from supporting entrepreneurs and small and medium-sized enterprises to promoting diversity and inclusion and paving the way for sustainable finance.

We are agile and innovative

We are driven by our passion for growth and innovation. That is why we adopt an agile approach to find the ideal balance between our business and continuous innovation. We encourage our team to think outside the box and turn their ideas into a tangible reality. We listen to our customers and harness technology to serve them better.

We stand by our customers every day

We strive to be part of our customers' daily lives. That is why we work to deliver the best possible banking experience through our employees, digital channels, and digital banking services. We are always available, anytime and anywhere.

Efficiency and productivity are fundamental

We are committed to keeping pace with the latest developments to better serve our customers. We optimize the use of our resources and increase the efficiency of our operations without compromising the customer experience.

Continuous growth is our priority

We achieve growth that strengthens our market presence and enhances the quality of our business by expanding our portfolio in a disciplined manner, entering high-potential areas, and strengthening our customer base. Our goal is not only to grow in size, but also in value and long-term sustainability.

Our decisions are data-driven

We analyze data to design products and services that meet our customers' needs, and we continuously evolve to meet market requirements. Our goal is to provide distinctive services and earn our customers' trust.

Building a positive corporate culture

We value diversity and strive to create a safe and motivating workplace. We are always looking for new talent to join our team and help us innovate, and we believe in giving our people the freedom to reach their goals and achieve their ambitions.

Committed to sustainability

We hold ourselves accountable to the highest standards of sustainability, prioritizing access to finance, supporting small and medium-sized enterprises, and taking sustainability standards into consideration across every aspect of our business.

Key Events at the Bank in 2025

The Largest Strategic Merger Transaction in Jordan: Bank al Etihad and INVESTBANK

The past year marked a pivotal milestone in Bank al Etihad's journey, with Bank al Etihad and INVESTBANK announcing that their Boards of Directors had approved moving forward with a strategic transaction under which Bank al Etihad would acquire 100% of INVESTBANK's share capital.

The transaction was executed through a private issuance to increase Bank al Etihad's capital, allocated in full to INVESTBANK's shareholders in exchange for transferring their entire ownership to Bank al Etihad, forming the second-largest bank in the Kingdom by assets. Upon completion of the merger, the unified bank will operate under the name Bank al Etihad, with capital of JOD 325.2 million, equity exceeding JOD 1 billion, and total assets of approximately JOD 11 billion.

This transaction is the first of its kind in the Kingdom in terms of structure — an acquisition in exchange for shares — and one of the largest integration and capacity-building transactions in the Jordanian banking sector. It is also aligned with the Central Bank of Jordan's direction to support strong and resilient banking entities capable of addressing economic challenges, enhancing financial inclusion, and driving national growth.

Implementation of the Comprehensive Integration Plan

During 2025, we worked intensively to develop and implement a comprehensive integration plan to ensure a smooth transition toward the unified bank, under the supervision of the Integration Management Office. The plan covered several key areas:

- **Retail Banking:** Our products were fully unified, and plans were developed to migrate INVESTBANK's existing customers to Bank al Etihad's systems in a smooth and organized manner.
- **Corporate Banking:** Our corporate banking products were unified, while ensuring consistent pricing across all services and planning the smooth migration of existing corporate customers to Bank al Etihad's systems.
- **Treasury and Financial Institutions:** Work was carried out to unify operating frameworks and review relationships with correspondent banks to ensure unified limits, consistent pricing, and standardized documentation.
- **Credit and Risk:** Risk policies, models, and provisions for the unified bank were aligned, while frameworks for operational, fraud, market, cybersecurity, sustainability, and security risks were unified.
- **Finance:** Accounting policies were unified and consolidated financial statements were prepared regularly, with a unified budget approved for the 2026 financial year.
- **Compliance:** Policies and processes were unified, a standardized approach to know-your-customer models was adopted, and the integration of compliance systems continued.
- **Operations and Administration:** Operational gaps across various functions were identified, procurement and contract management policies were unified, and preparations began to rebrand INVESTBANK's channels and review locations to facilitate the early integration of teams.
- **Branding and Marketing:** A plan to rebrand INVESTBANK's channels was approved, and work began on the customer communication plan across all channels to ensure a smooth and transparent integration experience.
- **Human Resources:** Unified policies and benefits were approved, and the target organizational structure was finalized, while training programs continued to be implemented according to identified needs.
- **Legal, Collections, and Remedial Actions:** Legal frameworks and collection processes were unified.
- **Credit Administration and Internal Audit:** Credit documentation, internal audit plans, and working methods were unified.

Positive Indicators and Integration Opportunities

Early indicators point to significant integration opportunities, whether in unifying products and services, enhancing operational efficiency, or building a shared culture rooted in values, innovation, and customer focus. The benefits have already begun to emerge through an improved customer experience, simplified processes, and stronger collaboration between the teams of both banks.

This merger represents a strategic step that strengthens Bank al Etihad's position as a leading financial institution and lays the foundation for a new phase of sustainable growth, innovation, and expanded service to the national economy, while maximizing value for shareholders, customers, and employees alike.

Achievements of 2025

Achievements of 2025

At Bank al Etihad, we have made significant progress over the past years toward achieving our goal of becoming the leading bank in digital banking services in Jordan. Despite the rapid development of the banking sector, we continue to follow a customer-centric approach.

Our strategy focuses on digital excellence, technological advancement, launching customer-centric initiatives, and strengthening sustainability efforts. Our efforts reflect our adaptability and our commitment to improving the banking experience for our customers. Over the past year, we achieved notable milestones that reaffirm our dedication to growth, our ability to keep pace with change, and our commitment to strategic expansion.

Committed to Becoming the Leading Digital Bank in Jordan

At Bank al Etihad, our focus on innovation and enhancing digital banking services is at the forefront of our efforts to strengthen our position as Jordan's leading digital bank.

In 2025, we launched a number of new and enhanced features, expanding the range of services and products we offer and positively impacting our customers' banking experience.

Thanks to these efforts, the number of new bank accounts opened digitally through our banking app in 2025 reached 80% of total new accounts, compared with 70% in 2024. Today, 94% of our customers use the app to meet their daily banking needs, compared with 93% in 2024.

Bank al Etihad's banking app also topped the Apple App Store with a rating of 4.8, and the Google Play Store with a rating of 4.5, making it one of the highest-rated banking apps in Jordan across both stores.

The new features in Bank al Etihad's app include, but are not limited to:

Same-Day International Transfers

We added a same-day international transfer feature, allowing customers to send and receive funds faster and giving them greater flexibility in managing their financial transactions through the app.

Transaction Dispute Feature

Customers can now submit a dispute directly through the app for any transaction they believe is suspicious or unauthorized, enhancing security and transparency in managing cards and transactions.

Enhanced Access to Credit Products

We enhanced the account opening process through the app to serve as a starting point for enabling customers to benefit from tailored credit offers. Through direct integration with Social Security and instant credit data inquiries via CRIF, after obtaining the necessary approvals, we are now able to conduct faster and more accurate credit assessments, enabling customers to obtain the products they need more efficiently.

Subscription Management

We launched a new tool that allows customers to view all subscriptions charged to their cards, with the ability to stop future payments easily, helping reduce unwanted payments.

Google Pay

We launched Google Pay for contactless mobile payments, enabling customers to link their virtual, prepaid, or credit cards and use their phones to make payments easily and securely.

More Flexible Credit Cards

We added a feature that allows customers to transfer part of their unused credit card limit to their account, giving them greater flexibility in meeting their daily financial needs.

Customized Credit Products

We launched the credit score feature through our app, enabling customers to proactively monitor and improve their credit profile. This feature enhances credit awareness and helps customers manage their financial obligations responsibly, while supporting the development of credit scoring models and enabling the Bank to offer instant digital financing solutions based on customer needs.

Investments and Precious Metals

We enhanced the trading platform within our banking app by adding new order types that allow customers to set a target price for buying or selling. Once the share reaches the specified price, the buy or sell order is executed automatically. We also added a real-time profit and loss display feature for precious metals accounts, giving customers clearer visibility and greater control over their investments.

Insurance Products

Customers can now obtain comprehensive home insurance through the app to protect their homes and contents against damage or theft. They can also request motor insurance through simple and quick steps, with the customer service team following up to complete the process.

Carbon Footprint Calculator

We launched a carbon footprint calculator that enables customers to estimate the carbon emissions resulting from purchases made using their cards, enhancing environmental awareness and encouraging responsible and sustainable financial behaviour.

Launching Our App in Iraq

We launched a new version of the app dedicated to our customers in Iraq, with a simplified registration and account opening experience. This version enables customers to manage credit and debit cards, view accounts, deposits, and loans, make local and international transfers, transfer funds between their accounts, manage beneficiaries, and obtain digital account statements directly through the app.

This version was designed to meet the needs of customers in Iraq, with the same level of security and efficiency offered by the app in Jordan.

Customer Experience

Customer experience remained strong throughout the year, clearly reflecting Bank al Etihad's ongoing commitment to delivering exceptional banking experiences across all touchpoints. This commitment was reflected in the continued increase in the Net Promoter Score (NPS), which reached 57 points in 2025, compared with 55 points in 2024.

This score reflects a high level of satisfaction among our customers, particularly when compared with global benchmarks, where any score above 50 is considered excellent. This confirms the success of the Bank's efforts to simplify core banking processes, enhance its digital capabilities, and reinforce service excellence across all channels.

Independent research reports also reinforced the Bank's leading position in customer experience. The Jordan Financial Monitor report issued by Ipsos showed that Bank al Etihad topped the list of Jordanian banks in customer experience, leading its closest competitor by 13 percentage points. This reflects the Bank's leadership and continued excellence in delivering banking services centered on customers' needs and expectations.

The Bank's focus on customer experience is anchored in clear institutional service standards that ensure consistency, quality, and professionalism across all interactions. These standards contribute to embedding a unified service culture that ensures an integrated and consistent experience across all touchpoints.

To sustain excellence, the Bank periodically evaluates the performance of branches and service points through mystery shopper programs and comprehensive assessment visits across all customer service points. These evaluations aim to measure adherence to service standards, identify improvement opportunities, and promote a culture of continuous improvement.

The overall service standards compliance score reached 94.2%, clearly reflecting the Bank's commitment to delivering a reliable and exceptional banking experience.

The Bank is also keen to test all new or enhanced processes in collaboration with real users, with the aim of identifying and addressing any gaps and ensuring smooth banking operations.

One notable example is the enhancements made to the home loan application process, which contributed to raising the customer experience score by 34 points. This was achieved by strengthening support channels, simplifying application procedures, and enabling customers to manage their requests seamlessly through the app.

Development of Lending Products

Over the past year, the Bank continued to develop its retail lending products by launching innovative financing campaigns and solutions that meet the needs of diverse customer segments, while providing them with greater flexibility and added value.

In the area of home loans, a dedicated campaign was launched for expatriates, offering competitive interest rates, additional benefits, and simplified procedures, alongside distinctive loan features that enhanced its appeal and helped facilitate the homeownership journey.

Home loans were also offered with financing ratios of up to 100% and competitive interest rates, along with exemptions from certain commissions and fees, in support of efforts to encourage apartment purchases and expand homeownership opportunities.

In the area of auto loans, the Bank launched financing campaigns in partnership with leading dealerships representing major brands, offering competitive interest rates and simplified procedures. These campaigns covered both electric and conventional vehicles.

The Bank also launched an innovative product that gives customers the flexibility to choose how many requirements they meet. The more requirements the customer meets, the lower the interest rate, giving customers greater control over the cost of their loan.

As part of strengthening the concept of rewarding commitment, the Bank launched the “Personal Loan with Rewards,” which eases customers’ financial burden and rewards their commitment to repayment. Customers receive monthly cashback as a percentage of their remaining loan balance when they make their payments on time, making it easier and more affordable for customers to achieve their personal goals.

We Continue to Support Small, Medium, and Large Enterprises

In 2025, we achieved several important milestones that contributed to strengthening the role of small and medium-sized enterprises. We remained committed to supporting local economic growth by providing innovative financing solutions and advanced banking services that meet the needs of companies across various sectors.

New Financial Products for Small and Medium-Sized Enterprises

As part of our strategy to expand our support for small and medium-sized enterprises, we launched a new range of financial solutions tailored to different sectors. These solutions aim to meet the specific working capital needs of each sector, facilitate access to financing, and enable businesses to expand efficiently and flexibly.

- **SME Auto Loans:** Financing solutions designed to enable businesses to purchase operational, logistics, or employee transport vehicles, with flexible repayment terms and competitive rates to meet their transportation needs.
- **SME Truck Loans:** Specialized financing to help businesses renew or expand their delivery and service truck fleets, suitable for companies operating in distribution, retail, and field services.
- **Medical Sector Loans:** Tailored financing solutions that enable healthcare providers, clinics, pharmacies, and medical centers to purchase modern medical equipment, furnish clinic interiors, and cover operating expenses, supporting business continuity and the development of service quality.
- **Machinery and Equipment Financing:** A financing solution that supports businesses in acquiring the equipment and machinery needed to enhance productivity and operational efficiency, particularly in manufacturing, construction, and other sectors.
- These products aim to provide specialized financing solutions that meet the needs of each sector, enabling businesses to develop, expand, and strengthen their competitiveness in local and regional markets.

Launching the Balance Transfer Service for Businesses

The credit card balance transfer feature was launched to provide a flexible tool for managing cash flows and optimizing working capital. This enabled businesses to consolidate outstanding balances, reduce interest costs, and improve overall financial management.

Supporting Startups in Partnership with the Jordan Loan Guarantee Corporation

We strengthened our partnership with the Jordan Loan Guarantee Corporation to provide financing support to high-potential startups through guarantee and risk-sharing programs. This helped these companies overcome financing barriers, expand their operations, and contribute to the growth of the local economy.

Expanding Targeted Lending to Specific Sectors in Partnership with the Central Bank of Jordan

In partnership with the Central Bank of Jordan, we enhanced the targeted lending program for a number of vital sectors, including tourism, manufacturing, agriculture, information technology, renewable energy, healthcare, transportation, exporting companies, engineering consultancy, and vocational and technical education.

This initiative offers preferential interest rates and flexible financing terms, with the aim of stimulating growth and enhancing sustainability in these strategic sectors, contributing to comprehensive economic development and job creation.

Expanding Financing through European Investment Bank Agreements

We continued to provide financing facilities under the existing agreements with the European Investment Bank to enhance SMEs' access to funding. We offered reduced interest rates and guarantee programs that helped businesses obtain financing more easily and lower their financing costs, contributing to their growth, innovation, and long-term financial sustainability through tailored financing solutions.

Growth in Green Financing for SMEs

We enhanced and expanded our green financing programs in partnership with the European Bank for Reconstruction and Development and the Central Bank of Jordan, supporting businesses in implementing sustainable and energy-efficient projects. This promotes responsible investment, reduces long-term operating costs, and embeds environmental sustainability principles within business strategies.

Launching the Digital Onboarding Process for Sole Proprietorships

We launched a fully digital onboarding process for sole proprietors, enabling them to open accounts quickly and easily, while improving the user experience by reducing paperwork and processing time. This makes financial services more accessible to small business owners.

Banking as a Service (BaaS)

We provided our partners with access to a licensed and secure banking infrastructure through application programming interfaces (APIs), enabling them to integrate comprehensive financial solutions into their platforms without the need to obtain a banking license or build a complex operating ecosystem from scratch.

We provided the full banking foundation, from embedded accounts and the issuance of virtual or physical cards under their own brand, to local and international payments and transfers, while our partners retain full control over the user experience and strengthen their relationships with their customers.

The value we provided also included compliance management, customer identity verification, and anti-money laundering procedures, in addition to an integrated lending infrastructure that enables the provision of services such as installment plans, loans, and credit lines directly through the platform.

In doing so, we enabled fintech startups, e-commerce platforms, and companies seeking to add financial features to their applications to launch innovative products quickly, access new revenue streams, and expand confidently both locally and regionally, while we handle the regulatory and operational complexities.

Etihad for Business Platform

In 2025, we enhanced corporate e-banking services on the Etihad for Business platform, introducing significant improvements and new features to support more efficient operations. These features included the following:

- **Supply Chain Finance:** A strategic initiative that enables businesses to optimize working capital by allowing suppliers to receive payments early, while buyers benefit from extended payment terms.
- **Direct Payment Invoicing:** Launched to facilitate business payments, this feature enables companies to create and send invoices directly through the Etihad for Business platform, with customizable templates and detailed dashboards to enhance efficiency.
- **Non-Financial Services on the Platform:** A new section was added to provide access to our non-financial services tailored for businesses, such as advisory, training, and events, making them easier to access and benefit from.
- **Stop Cheque Feature:** A new digital feature that allows customers to securely submit stop cheque requests through the platform, reducing the need to visit branches.

Enhancing SME Capabilities through Non-Financial Services

In 2025, Bank al Etihad's non-financial services continued to support small and medium-sized enterprises beyond financing through the following:

Training Programs and Events

We delivered a diverse range of training courses and workshops designed to enhance the capabilities of small and medium-sized enterprises and independent professionals in Jordan. These programs welcomed more than 500 participants over 2,000 training hours, covering key topics such as digital marketing, export readiness, taxation, human resources, intellectual property, innovation, and growth and expansion strategies.

These initiatives helped companies improve their operations, adopt new tools and technologies, develop their teams' skills, and enhance their ability to compete and grow sustainably in local and international markets. By focusing on applied and practical learning, the workshops contributed to enabling participants to make better decisions, improve business management, and explore new opportunities for growth and innovation.

Advisory Services

A total of 68 small and medium-sized enterprises benefited from our advisory services, which cover key business areas in collaboration with specialized experts. Through these services, we provided them with the guidance and support needed to enhance their operational efficiency, improve their business strategies, and make better decisions that contribute to their growth and sustainability in local and international markets.

Exclusive Offers on Digital Business Tools

We enhanced the digital transformation of small and medium-sized enterprises by offering exclusive deals and discounts on the digital tools they need to improve their business efficiency and expand their reach. A total of 681 users benefited from this initiative.

Bank al Etihad SME Award

In 2025, we marked a new milestone with the 10th edition of the Bank al Etihad SME Award. In celebration of 10 years of supporting entrepreneurship, we launched an expanded edition covering all small, medium-sized, and startup companies, in recognition of their unique journeys and different stages of growth.

The prizes were as follows: JOD 35,000 for the winning company in the small and medium-sized enterprises category, and JOD 15,000 for the winning company in the startup category.

In this edition, our aim was to recognize companies that are not only building successful businesses but also making a real difference. Out of more than 180 applications from across Jordan, six companies qualified for the final round.

Participants were evaluated based on four main criteria: financial performance, continuity and business growth, innovation, and social and environmental impact.

After careful review, Virtual Creative Technologies won in the small and medium-sized enterprises category, while Jawlah for Recycling won in the startup category.

Our Services Are Recognized

In 2025, we continued to strengthen our leading position by receiving a number of regional and international awards that reflect our commitment to excellence and innovation across retail and corporate banking and reinforce our role in sustainability and non-financial services.

In terms of retail banking services, we received several awards from Global Finance magazine, namely: Best Open Banking APIs, Best Online Product Offerings, and Best Information Security and Fraud Management. These awards reaffirm our leadership in developing advanced and secure digital solutions that meet our customers' expectations.

In the corporate banking sector, Global Finance magazine awarded us Best Integrated Corporate Banking Program, Best SME Banking/SME Platform, and Best Information Security and Fraud Management for Corporates, reflecting the strength of our institutional infrastructure and the efficiency of our integrated banking solutions.

In sustainability and environmental, social, and governance (ESG) practices, we were recognized with Euromoney's Best Bank for ESG award, in addition to two awards from International Finance magazine: Most Innovative ESG Initiatives and Best ESG Risk Management Framework. We also received the Excellence in Sustainable Banking and Best Non-Financial Service Provider for SMEs in Jordan awards from The Global Economics Awards.

These awards reflect our clear vision of delivering an integrated banking experience built on innovation, security, and sustainability, and reaffirm our continued efforts to build a responsible banking model that keeps pace with our customers' aspirations.

Building a Strong Work Culture for Our Employees

Bank al Etihad's corporate culture is a key driver of success, and we believe in the importance of empowering our team members, recognizing their significant role in our success.

Our employee Net Promoter Score (eNPS) reached 62, reflecting a high level of belonging and satisfaction within the Bank, especially when compared with global indicators, where any score above 50 is considered excellent. This reflects a strong work culture and an excellent work environment.

Bank al Etihad has 1,362 employees, of whom 622 are female and 740 are male, representing 46% female and 54% male.

Young employees make up a significant share of the workforce, with the 20–29 age group representing 22.1% and the 30–39 age group representing 49.8%. The Bank's presence also extends to its branch in Iraq, which has 54 employees.

Enhancing Our Employees' Skills and Developing Their Capabilities

In 2025, we continued to invest in developing the skills of our employees through a range of training and learning initiatives designed to enhance efficiency, innovation, and professional excellence.

Last year, we provided 6,358 diverse learning opportunities, issued 216 training certificates, and hosted 291 trainees across our various programs. Key initiatives included:

Spark Talks: A new initiative launched to promote continuous learning and inspire employees through eight dialogue sessions attended by 207 employees and an external guest.

Elevate Academy: Trained 20 Relationship Managers to provide superior services to elite customers, in line with the Bank's strategy.

Credit Academy: Aimed to enhance employees' knowledge of bank credit and best practices, with the participation of 59 employees.

Fundamentals and Strategies of Wealth Management Program: Enabled 29 employees to provide wealth management solutions with confidence, supporting their personal development and the Bank's growth.

Digital Academy: Enhanced digital culture at the Bank through 222 learning opportunities covering 12 different topics.

Foundations of Dialogue in Education Program: Trained 20 trainers to enhance communication, critical thinking, and collaboration skills in learning environments.

Essential Skills for Business Success Program: Equipped 60 Contact Center employees with the skills needed to improve service levels and customer experience.

Leadership Programs: Developed the capabilities of 39 middle-management employees in leadership, decision-making, and improving team performance.

Ambassadors Academy: Supported 51 Bank al Etihad ambassadors in enhancing their impact and skills during the Bank's merger process, helping embed the Bank's shared culture.

Pay Equity

At Bank al Etihad, we are committed to providing a fair and inclusive work environment, with a focus on equal pay between genders. Salaries and rewards are determined based on competence, responsibility, and experience, not gender or age, promoting equality and encouraging outstanding performance.

At the Bank-wide level, the female-to-male pay ratio is 1:1, reflecting the absence of a gender pay gap. The Bank is also committed to ensuring the principle of equal pay for equal work, whereby salaries and rewards are determined fairly and equally for all employees within each job level, regardless of gender.

"Etihad Day" Event

Etihad Day is an annual event we organize for our employees. In 2025, we hosted the first joint cultural event bringing together all teams under the Bank al Etihad Group, including employees of Bank al Etihad, INVESTBANK, and all subsidiaries. The event celebrated our achievements while highlighting the next phases of the journey.

The event provided a unique opportunity for colleagues from different functions to connect, exchange experiences, and embrace the shared vision and values of the unified Group. Through interactive activities, presentations, and team-building exercises, employees experienced the power of collaboration and the potential of working together as one cohesive entity.

The event was a celebration of what had been achieved, as well as a clear message of the Bank's commitment to fostering a collaborative, inclusive, and future-focused culture, ensuring that every team member feels part of the next chapter in the Bank's journey of growth and excellence.

We Continue Our Commitment to Improving Women's Economic Participation

Last year, we celebrated the 10th anniversary of the launch of Shorouq, reaffirming our continued commitment to supporting women's economic participation and strengthening their role in driving economic growth.

Since the program was launched in 2014, the number of our female customers has increased thirteenfold.

The program provides a wide range of financial and non-financial services that give women access to knowledge, resources, events, and markets, including legal consultations, workshops, networking events, and the Shorouq Career Comeback Program. These initiatives aim to create opportunities for learning, empowerment, and relationship-building among ambitious women.

In 2025, we organized more than 20 events, including workshops and virtual and in-person mentoring and guidance sessions, with the participation of more than 500 women.

We also launched the seventh edition of the Shorouq Career Comeback Program to support women looking to resume their careers after a career break, equipping them with the skills, tools, and guidance needed to return with confidence and contribute effectively across various sectors. A total of 37 women were selected from nearly 1,300 applicants.

We also strengthened our partnerships with nine leading organizations that share our vision of supporting women and advancing their professional growth, including the Crown Prince Foundation, the Jordan River Foundation, Al Hussein Technical University, Umniah, Talabat, Better Business, Ipsos Jordan, Flat6Labs, and ITG Solutions. This reflects a collective commitment within the program to empowering women and strengthening their economic role in Jordan.

Our efforts to empower women in 2025 received several prominent awards. Bank al Etihad was named a Diversity, Equity, and Inclusion Lighthouse by the World Economic Forum. The Bank also won second place in the Diversity Trailblazers Awards, launched by the International Finance Corporation (IFC) in partnership with the Amman Stock Exchange, placing it among the leading institutions in promoting diversity and gender equality in the workplace.

The Bank was also awarded the "Women's Employment" award by the United Nations, reflecting our continued commitment to supporting women and strengthening their economic role.

Financial Education to Bridge the Knowledge Gap

Bank al Etihad continued its commitment to promoting financial literacy, recognizing the importance of financial knowledge in empowering individuals and building a more financially aware society. Building on the success of Rise Academy since its launch in 2023, the program continued to offer free two-day training courses targeting two main groups: young people aged 18 to 25 and working professionals aged 25 and above.

In 2025, the Academy held four training courses, benefiting 182 participants, reaffirming its continued impact in helping individuals make informed financial decisions and build a more stable financial future.

We also continued to attract listeners through the "Mali wa Maluk" podcast, launched in 2022 as the first Arabic financial literacy podcast in Jordan. The podcast explains banking and financial concepts to listeners and introduces responsible practices for money management, saving, debt repayment, and investment.

In 2025, we launched the third season of "Mali wa Maluk," with total listens and views exceeding 1.5 million across audio platforms and YouTube. These figures reflect strong engagement with the new third season, as well as continued interest in previous seasons, underscoring our commitment to making financial knowledge accessible to everyone.

Risk Management

In light of economic and political changes and market volatility, we are committed to adopting an integrated approach to risk management, supported by a strong governance structure and international standards. We work to promote risk awareness across all levels, as a shared responsibility, while focusing on developing effective strategies to mitigate risks.

We have also developed plans to continuously improve our systems, ensuring that our operations are carried out with the highest levels of security and responsibility, and reinforcing the confidence of our customers, partners, and investors in our ability to manage risks effectively.

Credit Risk

Credit Score Feature

As part of enhancing credit risk management and complying with the requirements and instructions of the Central Bank of Jordan relating to transparency and over-indebtedness risk, the Bank launched the credit score feature through its banking app, enabling customers to proactively monitor and improve their credit profile.

This feature aims to enhance customers' credit awareness and support them in managing their financial obligations responsibly, helping reduce the likelihood of default and improve the quality of the credit portfolio. It also provides additional behavioral data that supports the development of internal credit scoring models and enhances the accuracy of risk measurement and classification.

The feature also enables the Bank to offer instant, needs-based digital financing solutions within an integrated governance and risk control framework.

Implementing an AI Tool to Support Credit Decisions

During the year, the Bank adopted a platform to enhance the credit decision-making process using artificial intelligence. The platform helps analyze data more accurately and quickly, supporting improved creditworthiness assessment and reducing the likelihood of default. It also provides tools to continuously monitor decision performance, strengthening oversight and the quality of credit risk management.

Pricing Strategies

As part of strengthening risk management and maintaining the Bank's competitiveness in the market, the Bank implemented carefully studied pricing strategies aimed at directing growth toward lower-risk customers. This approach is based on balancing the achievement of targeted returns with maintaining a controlled level of risk, while continuing to offer attractive financing solutions to customers.

Credit Risk

Enhancing the Operational Resilience Framework

The Bank conducted a comprehensive assessment of its operational resilience framework, providing independent insights, benchmark analyses, and detailed recommendations to strengthen resilience across critical services and business activities. Based on the findings, the Bank launched a structured plan to address the identified gaps and enhance governance, impact tolerance limits, scenario testing, and response mechanisms.

This initiative reaffirms the Bank's continued commitment to maintaining a robust and adaptable resilience framework that ensures the continuity of critical operations during disruptive events.

Financial Fraud Detection and Prevention

The Bank enhanced its payment fraud prevention systems, enabling the system to detect and block suspicious transactions in real time before they are approved or processed. This helped reduce potential financial risks for both the Bank and its customers and contributed to protecting the Bank against key payment-related fraud scenarios, including account takeover, social engineering fraud, and other emerging threats.

Real-Time Fraud Decisioning – Visa Risk Manager

To strengthen the Bank's ability to detect fraud and protect customers from card-related fraudulent transactions, the Bank implemented control rules through the Visa Risk Manager platform. These rules detect and stop suspicious transactions in real time, enabling instant, automated assessment of transaction behavior using advanced risk indicators and global data provided by the Visa network.

The system proactively identifies and blocks high-risk or suspicious transactions before they are approved or processed, helping reduce exposure to fraud scenarios such as card-not-present transactions, account takeover attempts, and unusual spending patterns.

As a result, the Bank's ability to respond to emerging threats and reduce financial losses was strengthened, while improving operational efficiency and providing customers with a safer and smoother experience.

Information Security and Cybersecurity

National and Sector-Level Strategic Contribution to Cybersecurity

The Bank strengthened its national participation in cybersecurity through the appointment of the Chief Information Security Officer as a member of the National Cyber Advisory Committee. This appointment reflects the Bank's active contribution to shaping cybersecurity practices at the national and sector levels and enhances the Bank's alignment with national cyber priorities and emerging regulatory requirements.

Cyber Maturity Level

Based on an independent audit, the Bank achieved an overall cybersecurity maturity level of 4 out of 5, reflecting the strength of its governance and controls, and its adoption of leading global standards. This level supports the Bank's ability to proactively manage cyber risks and protect its critical information assets.

PCI Certification for the Iraq Branch

The Bank's branch in Iraq obtained PCI-DSS certification, reaffirming the Bank's commitment to protecting cardholder data and complying with the highest global payment security standards. This enhances customer confidence and ensures consistent security practices across regional operations.

Compliance

Last year, the Compliance Department took important steps to develop the compliance system and build a strong control framework across the Bank's various departments. We achieved key milestones that reflect our commitment to meeting the highest compliance standards.

Anti-Money Laundering and Counter-Terrorism Financing

To strengthen the compliance framework, the policies and procedures for anti-money laundering, the Exchange Unit, and cash services were updated, ensuring the Bank's compliance with regulatory requirements and best practices. The efficiency and effectiveness of customer transaction monitoring were also enhanced through continuous system improvements, including the addition of new scenarios to the financial transaction monitoring system to detect emerging money laundering and terrorism financing patterns.

The improvements included introducing a suppression feature to reduce repeated alerts for the same customer under the same scenario and parameters within a specified period, as well as updating the risk-based due diligence (RBDD) rules to calculate the risk of customers residing in border areas, enhancing the accuracy and efficiency of monitoring and review processes.

In terms of developing monitoring mechanisms, work began on integrating artificial intelligence to support financial transaction monitoring, helping improve response speed and monitoring quality.

The workflow in the Exchange Unit was also enhanced, allowing more than one supporting document or source of funds to be added within a single transaction, unifying the invoice verification and approval mechanism across all branches, preventing invoice reuse, and improving the accuracy of recording transaction executor data.

At Bank al Etihad's Iraq Branch, the financial transaction monitoring system and FISERV operational support system were implemented as part of the anti-money laundering and financial crime framework. Comprehensive and practical training programs were also delivered to the relevant team, ensuring enhanced efficiency and the effective application of best practices.

International Sanctions Compliance

In 2025, the Economic Sanctions Compliance Department achieved significant milestones, most notably completing the implementation of the new FircoSoft name-screening system, one of the leading global systems for screening and detection. The system uses advanced technologies and smart algorithms that helped improve matching accuracy and significantly reduce false positive alerts.

The system was also calibrated and its screening rules enhanced, positively impacting the quality of operational performance and the Bank's compliance with international standards.

During the year, sanctions compliance controls were enhanced to include real-time screening of outgoing Western Union transfers through the banking app, screening occasional customers who deposit funds into Bank customers' accounts, and screening of relevant counter cheque parties, helping mitigate risks before transactions are executed.

As part of strengthening the risk-based approach, country risks were reassessed and the assessment results were linked to real-time transfer monitoring systems, ensuring that the level of due diligence aligns with the degree of risk and is consistent with regulatory requirements and global best practices.

The scope of due diligence for high-risk transactions was also expanded to include advanced control models, such as vessel and maritime voyage tracking, stronger trade transaction controls, and monitoring of money laundering patterns linked to foreign trade. This contributed to improving proactive detection of complex and evolving risks.

In terms of building a compliance culture, during 2025 the department implemented training programs for Bank employees through the "Salalem" platform on international sanctions requirements. These covered control systems, risk indicators, employee responsibilities, and reporting mechanisms, strengthening institutional awareness and readiness to handle high-risk transactions.

At Bank al Etihad's Iraq Branch, achievements included conducting due diligence on outgoing transfers within currency sale auction operations (K2), updating the name-screening system, and training the relevant teams to use it efficiently.

Periodic visits were also conducted to ensure the soundness of workflows and compliance with the implementation of economic sanctions in line with approved policies. In addition, a daily comprehensive screening of branch customers' names was carried out against global sanctions lists, helping protect the Bank from highly sensitive compliance risks.

Regulatory Compliance

Enhancements were made to the regulatory compliance system by developing the reporting and testing framework, strengthening quality assessment and control within the system, and improving the efficiency of operational oversight and the accuracy of extracted information.

Customer Complaints Management

In 2025, the Bank maintained strong performance in handling customer complaints, with the majority of complaints addressed within the set timelines, while taking steps to address root causes and prevent recurrence. These measures included:

- A smart and innovative approach to problem-solving.
- An educational approach to help our customers understand our products and procedures.
- A developmental approach related to procedures and policies to prevent complaints from recurring.
- A developmental approach related to banking applications.

At Bank al Etihad's Iraq Branch, channels and systems were established to handle complaints and retain documentation in accordance with regulatory instructions, with periodic follow-up to ensure compliance and responses within the specified timelines.

New Customer Onboarding Procedures

The Bank strengthened compliance and best practices in the customer acceptance process by updating account opening policies and procedures, accelerating the process and improving the customer experience without compromising regulatory compliance.

In terms of improving operational workflows, authorized signatories can now be added to corporate accounts without requiring a full account update, with the process automated to ensure it passes through all required review and approval procedures in line with the risk-based approach. This enhances workflow efficiency and service quality.

Authorized branch employees were also enabled to approve data updates for a specific category of high-risk customers under defined conditions, without referring them to the Compliance Department, strengthening the role of the Bank's first line of defense.

As part of strengthening the culture of compliance and reducing money laundering and terrorism financing risks, comprehensive training programs were held for employees in the Jordan and Iraq branches, contributing to improving the quality of accepted accounts and speeding up customer handling.

At Bank al Etihad's Iraq Branch, the account opening and data update workflow was automated in line with regulatory standards, enhancing the efficiency of approval procedures by the Compliance Department.

Building a Compliance Culture

In 2025, the Bank worked to strengthen training and professional development programs to enhance employees' knowledge and ability to manage operational risks and regulatory compliance. Employees underwent intensive training on anti-money laundering and counter-terrorism financing, international sanctions, regulatory compliance, and FATCA requirements through the "Salalem" platform, with end-of-course exams completed to ensure practical application of the content.

Specialized courses were also created for Bank employees on whistleblowing, the Code of Conduct and business ethics, and financial consumer protection instructions, to strengthen the culture of compliance and apply best practices in daily work.

In parallel, a number of Compliance Department employees obtained specialized international certifications in anti-money laundering, counter-terrorism financing, and international sanctions. Employees from various departments also earned globally recognized certifications, such as CAMS and CCM, to enhance practical expertise and the ability to manage risks more efficiently.

At Bank al Etihad's Iraq Branch, employees were trained on using the regulatory compliance system to support the application of best practices in developing the reporting, testing, and quality control framework, contributing to improved operational efficiency.

Bank al Etihad Employee Survey

In 2025, the Compliance Department focused on strengthening the culture of compliance through periodic awareness messages sent to all employees. At year-end, a survey was conducted to confirm the spread of this culture and measure employees' awareness of correct and incorrect procedures and practices. The results showed commitment to a culture of compliance at a rate exceeding 96.27%.

The key results were as follows:

- 97.94% of employees agree or strongly agree that Bank al Etihad is committed to applying regulatory authorities' instructions.
- 97.12% believe that the Compliance Department protects the Bank from regulatory violations.
- 93.97% confirm that Bank al Etihad's values reflect a culture of compliance among employees.
- 95.20% agree that periodic awareness messages strengthen their culture of compliance.
- 97.12% feel they have sufficient awareness to report any misconduct through the official reporting line.

ISO 37301 Compliance Management System Certification

Bank al Etihad obtained the ISO 37301 certification for its Compliance Management System, becoming the first bank in Jordan to receive this international accreditation. This step reflects its commitment to strengthening a culture of compliance and embedding the highest standards of integrity and governance.

The certification, issued by the TQCSI expert team accredited by JAS-ANZ and ANAB, confirms the Bank's ability to develop an integrated compliance management framework based on effective governance, risk assessment, documented policies and procedures, continuous employee training and awareness, and enhanced monitoring and continuous improvement mechanisms to ensure sustainable compliance with global standards.

Sustainability and Climate

Our commitment to sustainability is clear in our transition plan, which ensures the alignment of our financial flows with the goals of the Paris Agreement and supports the transition to a low-carbon economy. We integrate sustainability across all our activities, from financing and risk management to innovation and engagement with our partners. Through strong governance, transparency, and capacity building, we are shaping a financially sustainable future.

Climate Data, Emissions, and Methodology

Bank al Etihad conducted a full assessment of Scope 1 and Scope 2 emissions, covering all of the Bank's vehicles, generators, and facilities. Fuel and energy consumption data were collected and verified at the asset level across all branches, in line with the Greenhouse Gas Protocol standards and the requirements of IFRS S2.

For operational Scope 3 emissions, the Bank developed a data inventory structure covering all fourteen categories, with full measurement completed for some categories, including but not limited to business travel inside and outside the Kingdom, purchased goods and services, and employee commuting. An internal calculator was created to standardize the calculation methodology and ensure consistent measurement across all Bank al Etihad companies and subsidiaries. This forms the basis for full coverage of operational Scope 3 emissions during 2025–2026 and enables the results to be linked to more efficient and accurate financial decision-making.

With regard to financed emissions (Category 15), the Bank developed and improved its measurement methodology beyond sector and country estimates, while enhancing data quality for commercial real estate, mortgage finance, and vehicle finance portfolios, achieving a 4/3A rating according to the data quality score issued by the Partnership for Carbon Accounting Financials (PCAF).

An advanced calculator was also developed for this category in line with PCAF methodologies and the Greenhouse Gas Protocol (GHG Protocol), enabling more accurate measurement of emissions intensity at the loan portfolio level. The measurement covered the full commercial loan portfolio, as well as the Bank's investment portfolio, including government debt instruments, with the results to be disclosed in detail in the upcoming 2025 climate report.

At the Bank al Etihad Group level, an integrated approach was designed to unify emissions data across Bank al Etihad in Jordan and Iraq, INVESTBANK, and Safwa Islamic Bank, in addition to subsidiaries including the Etihad Brokerage Company and the Etihad Leasing Company, to ensure consistent data collection in preparation for the Group's 2026 reporting.

Climate Risks, Scenario Analysis, and Stress Testing

The Bank conducted a climate risk materiality assessment during the year, using updated data and models. Short-term physical risks and three transition pathways through 2030 were assessed: delayed transition, nationally determined contributions, and net zero emissions by 2050.

Four stress tests aligned with the Network for Greening the Financial System (NGFS) standards were also conducted on the portfolio for the second half of 2025. These covered physical and transition risks and formed part of the roadmap for integrating climate risks into the Group's future Internal Capital Adequacy Assessment Process (ICAAP).

Reporting and Disclosure

In the first half of 2025, Bank al Etihad issued two key sustainability reports for 2024: its fourth Sustainability Report and its first IFRS S2-aligned Climate Report, the first of its kind in Jordan and one of the first in the region.

These reports enhanced transparency around climate governance, risk management, strategy, and metrics, and enabled the Bank to strengthen its leading position in climate disclosure.

Governance, Policies, and Group Integration

The Bank obtained Board approval for its Sustainability Policy, formally integrating sustainability into the governance framework. Sustainability and climate risk considerations were incorporated into the Bank's key policies.

Sustainability was further integrated into the Group's strategies, including operations in Iraq, Safwa Islamic Bank, INVESTBANK, and subsidiaries, in preparation for IFRS alignment at the Group level in 2026.

Internal guidance documents were also prepared to support implementation, covering materiality assessment, climate stress testing, financed emissions, supplier conduct, and sustainable finance.

Internal Capacity Building

The Bank expanded its capacity-building programs in sustainability through internal training, expert-led programs, and ongoing advisory support. The training covered sustainable finance, ESG fundamentals, climate data, scenario analysis, and product development, with continued advisory support across all operational, administrative, and financial functions.

External Partnerships and Market Position

The Bank strengthened its partnerships with national, regional, and international institutions, contributing to policy dialogues and market development with regulators, industry associations, and development partners. In 2025, the Bank received four international sustainability awards, including Euromoney's Best Bank for ESG in Jordan award, strengthening its leading position. The Bank also participated in several public and private dialogues, increasing its influence and visibility in sustainability and green finance.

Growth in Sustainable Finance and Product Development

The Bank exceeded its 2025 sustainable finance growth target, recording more than JOD 0.291 billion by year-end. Sustainable finance measurement was enhanced using both outstanding balances and amounts granted. The Bank also developed and activated several sustainable finance products, such as sustainable trade finance, sustainable transport finance, sustainable leasing, sustainable wealth management products, advisory tools for SMEs, and Jordan's first digital carbon calculator, supporting increased demand and growth in green finance.

Sustainable Procurement and Operations

Sustainability was integrated into operational and procurement decisions across all functions, including facilities, engineering, administration, and procurement. Key initiatives included green building certifications, energy monitoring systems, water audits, and improving the quality of operational Scope 3 data. Supplier practices were also improved through the transition to more sustainable materials, in line with operational emissions reduction pathways.

This summary was prepared for the purposes of the Annual Report, with full details and methodologies available in the Bank's latest sustainability and climate reports. All 2025 disclosures will be included in the upcoming sustainability and climate reports in June 2026.

Social Responsibility

Bassmet al Etihad – Bank al Etihad's Corporate Social Responsibility Program

At Bank al Etihad, we work for our customers and our community, and continuously strive to help those around us thrive, whether by supporting the next generation of leaders and entrepreneurs, supporting Jordan's distinctive arts and culture scene, or investing in skills and education to help individuals achieve their goals.

Over the past year, we explored local and international best practices in sustainable development, identified opportunities, challenges, and key achievements, and listened to our employees, customers, and partners. We then launched a new identity for our corporate social responsibility program under the name "Bassmet al Etihad," and defined our new CSR pillars, aligned with the needs of our community: empowering individuals, enriching communities, and protecting the planet.

1. We Empower Individuals

Our passion for continuous learning and financial inclusion always drives us to provide all the knowledge and education needed to empower future generations and enable them to shape a better future for themselves and those around them. As part of our ongoing efforts to empower individuals, we launched several initiatives, including but not limited to the following:

Education to Empower the Next Generation

At Bank al Etihad, we are strongly committed to building a brighter future for the next generation, particularly in education and access to knowledge. In 2025, our efforts focused on promoting equality in education through initiatives including, but not limited to, the following:

- **Scholarship Programs in Jordan and Palestine:** We provided 31 scholarships to outstanding students from Jordan and Palestine, facilitating their access to higher education and enabling them to pursue their career goals.
- **Supporting Audio Learning:** We continued to support "Raneen for Audio Stories," an innovative project that aims to encourage reading and raise awareness of the importance of audiobooks through non-traditional learning methods. Through this project, we trained 23 teachers and held 10 sessions with the participation of 220 students in the areas of Ira, Yarqa, and Sahab.
- **Supporting Jubilee School:** In 2025, we sponsored the girls' dormitory at Jubilee School, which was opened after the completion of comprehensive renovation work that began at the end of the previous year. This sponsorship contributed to providing a safe and motivating living environment for resident students, supporting their academic performance and well-being. The renovation work included major infrastructure improvements to the dormitory, including upgrading the electrical systems and carrying out structural repairs to ensure the long-term sustainability of the building, in addition to modernizing the common facilities to meet the highest standards of comfort and safety for the students.
- **Strategic Collaboration with the Queen Rania Foundation for Education and Development:** Our partnership with the Foundation achieved significant impact through two educational projects:
- **"Madrasati" Initiative:** We continued our support for the "Masahati" student clubs program. The program focuses on several areas, including creating safe and creative spaces, building teachers' capacities, and establishing student clubs to help integrate life skills and extracurricular activities into school curricula, thereby enriching the learning experience for public school students. The Madrasati Initiative operates in public schools across the Kingdom, targeting all elements of the educational process, including students, teachers, and schools. A total of 69 teachers benefited from the "Proud to Be a Teacher" program at two schools: Al Mastaba Secondary School for Boys and Al Abdaliyeh Basic Co-ed School. In addition, 100 students benefited from the student clubs at the same two schools.
- **Al Aman Fund for the Future of Orphans:** We supported 11 orphaned young men and women, covering the monthly allowance for four beneficiaries, housing for two of them, and training and capacity-building programs for other beneficiaries. This support contributed to strengthening their independence and equipping them with the skills needed to build their future and move confidently toward success, with four beneficiaries graduating in 2025.

Promoting Financial Literacy for a More Stable Future

- **Rise Academy:** Our flagship financial literacy program, "Rise Academy," achieved significant success, benefiting 120 people during the year through four training courses and comprehensive workshops designed to equip them with essential financial skills.
- **Money Talks Financial Literacy Tours:** Our annual participation in Global Money Week achieved great success, as we conducted financial literacy tours targeting seven private schools, benefiting 654 high school students. These tours covered key financial concepts aimed at preparing students for a bright financial future.
- **Partnership with Wasel for Awareness and Education:** Through our collaboration with the "Connect and Innovate" program organized by Wasel, we were able to support 20 unemployed young men and women between the ages of 20 and 28. This initiative helped promote creativity and innovation among these young people, resulting in seven entrepreneurial project ideas being adopted by local business incubators.
- **Preparing Women for the Labor Market:** In collaboration with the Jordan River Foundation, we continued our commitment to supporting 18 craftswomen who joined the Jordan River Foundation's Women's Empowerment Program in partnership with IKEA. The program aims to provide participants with various training opportunities to develop their handicraft skills, in addition to job opportunities within the project. This initiative equipped the women with the practical skills and training needed for the labor market, contributing to strengthening their independence and economic empowerment.
- **Digital Financial Literacy Tools:** In 2025, we expanded financial awareness through our digital channels, including our financial blog and the Arabic financial literacy podcast "Mali wa Maluk." The blog recorded more than 202,000 reads during the year, while "Mali wa Maluk" received more than 1.5 million listens and views across audio platforms and YouTube. These figures reflect strong engagement with the new third season, as well as continued interest in previous seasons, underscoring our commitment to making financial knowledge accessible to everyone.

2. We Enrich Communities

We care about community and charitable initiatives that contribute to the prosperity and development of society. We also support arts and culture, preserve our heritage, and encourage creativity in all its forms. The key initiatives we sponsored include, but are not limited to, the following:

Our Community Initiatives

- **Happiness Bus Initiative:** During Ramadan, we continued our annual Happiness Bus initiative, which helped bring smiles to the faces of over 1,000 people across three governorates. On each trip, the bus carried Bank volunteers and various surprises, visiting underserved areas to bring joy to people during the holy month.
- **Ramadan Calendar in Braille:** Ramadan has long been associated with practices that rely on sight, such as observing the crescent moon and following prayer times through printed schedules, which can make it challenging for visually impaired individuals to perform religious rituals independently. In line with our continued commitment to social inclusion and promoting accessibility, and in partnership with VML Jordan, we launched a Ramadan calendar in Braille for visually impaired individuals. Last year, the initiative received the global D&AD Pencil Award, marking the first achievement of its kind in Jordan.

Our Community Partnerships

- **Supporting Sustainable Tourism and Community Development:** Our continued sponsorship of the rehabilitation initiative for the tourism trail from the King Talal Dam to Rmeimeen is a testament to our commitment to sustainable community development and to supporting local communities in these areas.
- **Our Strategic Partnership with the King Hussein Cancer Foundation and Center:** We continued our support for the Foundation and Center by sponsoring several strategic initiatives, such as the "Run for Life" initiative and the "Go Green" initiative, in addition to sponsoring a number of educational programs organized by the Center's Education and Training Academy. Around 40,000 people benefited from these activities.
- **Strategic Partnership with Tadamon:** We renewed our partnership with Tadamon, which works to organize humanitarian and community support cases by verifying their eligibility and making them available on a single digital platform through a mobile app, helping donors provide support easily.

- **Our Partnership with Medical Aid for Palestinians:** We renewed our partnership by supporting ear, nose, and throat clinics in refugee camps, enabling us to provide medical care to more than 5,000 patients, fit more than 200 hearing aids, and perform one cochlear implant surgery for a child. In addition, 62 cases requiring surgical intervention were identified, and their surgeries were covered with the participation of specialized surgeons. Our support contributed to enhancing access to essential healthcare services and restoring the ability to communicate and improving the quality of life for many families.
- **Our Strategic Partnership with Al Malath Foundation for Palliative Care:** For the third consecutive year, we renewed our partnership with Al Malath Foundation for Palliative Care, which provides medical and psychological palliative care to patients with cancer and other incurable diseases, and supports their families through the most difficult stages. The Bank's support for the Foundation included funding 101 free visits for six cancer patients from different areas of Amman, contributing to providing the care they need and improving their quality of life.
- **Our Health Support:** As part of our commitment to supporting the healthcare sector, we continued our humanitarian initiatives by supporting several organizations working to improve the lives of children with medical conditions. We supported Atfaluna Medical Coverage Company by covering the treatment costs of two children facing health challenges, in support of its mission to provide medical care to children in need. We also renewed our support for the Fatafeet Al Sukkar Charitable Association by providing insulin pumps for three children with type 1 diabetes, directly contributing to stabilizing their health and ensuring a safer and more stable life. In addition, we supported Al Hayat Charitable Society in performing open-heart surgeries for three children, helping save their lives and improve their chances of living a healthy life.
- **Our Support for Tkiyet Um Ali:** We renewed our support for Tkiyet Um Ali by sponsoring seven families with monthly food parcels, benefiting 46 individuals. A total of 84 food parcels were distributed over the 12-month annual sponsorship period.
- **Our Strategic Partnership with SOS Children's Villages Jordan:** As part of our continued strategic partnership with SOS Children's Villages Jordan, we provided support for a family of seven within a partnership that aims to provide a safe and stable family environment that ensures children have access to full education, healthcare, and psychosocial support, enhancing their well-being and contributing to their balanced development.
- **Our Strategic Partnership with Waqf Thareed:** We began our partnership with Waqf Thareed, the charitable organization that operates the largest permanent food program in the Kingdom, by sponsoring the weekly meals program. Through this partnership, 1,000 meals were provided each week, totaling 44,000 healthy and balanced meals over the year, served to beneficiaries in an open space accessible to all, while upholding the values of social solidarity and non-discrimination. A large number of our employees and customers also took part in preparing and distributing the meals, helping strengthen the spirit of community participation.
- **Arts and Culture:** We continued supporting the arts and culture sector by sponsoring a range of musical, artistic, and heritage initiatives, with the aim of strengthening community identity. This included sponsoring the Mosaica Choir's "TV Series Songs" concert, as well as supporting Palestinian comedian Alaa Abu Diab's show, contributing to the promotion of contemporary performing arts and alternative creative platforms.

We also expanded our cultural support by sponsoring the Palestinian Popular Art Centre through the "Ya Saheb Al Tair Wa Asheera" concert, which aims to revive Palestinian artistic performances and folk dances. In addition, we supported the "Cinema Days" project, organized by Filmlab Palestine, with the aim of supporting cinema as a tool for cultural expression and strengthening the presence of Palestinian professionals within the global film scene.

As part of our strategic partnership with Young Minds for Culture and Entertainment, we hosted the Alwan Children's Festival 2025 for the third consecutive year. The festival offers activities, events, and performances for children, with the participation of international groups and artists. We also sponsored a concert by Palestinian artist Nai Barghouti.

Our support for heritage also included sponsoring the Diamond Jubilee celebration of Al Jeel Al Jadeed Club, which featured artistic segments and folk dances reflecting Circassian heritage and highlighting its artistic richness.

3. We Protect Our Planet

We care about the environment, encourage sustainability, and work to find innovative solutions that contribute to protecting our planet. In 2025, we made significant progress in this area through initiatives including, but not limited to, the following:

- **Strategic Partnership with the United Nations Children's Fund (UNICEF):** We renewed our partnership with the United Nations Children's Fund (UNICEF) for the third consecutive year, supporting efforts to address climate change challenges and empower youth in Jordan. This partnership falls under UNICEF's "Sawn" program, which aims to support youth-led climate action. As part of this partnership, and in collaboration with UNICEF and the Business Development Center (BDC), we supported the Green Jobs Fair to connect youth with job opportunities in sectors related to the green economy and climate action. The fair was attended by 1,285 participants, with 40 companies taking part and 360 job and training opportunities provided. Four youth ambassadors were also selected to participate in the United Nations Climate Change Conference (COP30) as part of the Jordanian delegation, to highlight the concerns and aspirations of Jordanian youth.
- **"Plastiqua" Recycling Initiative:** In 2025, we expanded the "Plastiqua" project, transforming more than 20,000 expired cards into art pieces and jewelry, handcrafted by 25 women from underserved communities, contributing to their financial and economic empowerment. We also expanded the initiative to include recycling Flex outdoor advertising boards and transforming them into notebooks and bags with unique designs. We believe that every material has a second life if handled in the right way.
- **Sustainable Design:** We sponsored the 13th edition of the "iSustain Award," which saw the participation of 79 students from various universities in Jordan. The award highlighted the students' most innovative and sustainable solutions, which can help address the challenges facing Jordan's built environment.
- **Opening of Bank al Etihad Forest:** We opened the Bank al Etihad Forest in collaboration with the Ministry of Agriculture and the Mahis Forestry Directorate, as part of the National Afforestation Project. The opening was attended by a number of media representatives, local residents, and a group of our employees, and we planted 200 trees on this occasion.
- **Arab Group for the Protection of Nature:** As part of our continued partnership with the organization and our support for the Green Caravan Program for the eighth consecutive year, we planted 1,000 fruit trees in Al Jeeza, Bayader Wadi Al Seer, and the Central Jordan Valley. A total of 21 farmers supporting 126 individuals benefited from this project, across a total area of 18 dunums. The trees planted included olive, almond, and citrus trees, and contributed to producing around 118,000 kg of oxygen and absorbing 21,700 kg of carbon dioxide.
- **Green Links Project:** We supported the Green Links Program, which aims to promote sustainability and natural resource management in the Azraq and Zarqa areas. The program is funded by the European Union and implemented in partnership with the Business Development Center (BDC) and EDAMA Association. This support comes as part of our commitment to building a circular and sustainable economy by empowering youth and equipping them with skills in organic agriculture, renewable energy, water management, and green entrepreneurship, contributing to sustainable job opportunities and strengthening long-term resilience.

Volunteering: The Core of Our Community Commitment

To embed a culture of volunteering as an essential part of our commitment to creating a positive and sustainable community impact, we opened volunteering opportunities to our customers. This allowed them to take part in various volunteer activities alongside our employees, strengthening a sense of social responsibility and supporting community initiatives.

In 2025, under the Bassmet al Etihad Program, 375 customers and employees dedicated a total of 1,117 volunteer hours, directly impacting the lives of 10,684 people through 57 different volunteer activities organized across several Jordanian governorates. This reflects our continued commitment to serving the community and promoting community development.

Pillars of the Bassmet al Etihad Program	Price (Jordanian Dinar)
Empowering Individuals	227,374
Enriching Communities	2,571,743
Protecting the Planet	52,340
Total	2,851,457

Donations of 50,000 and above	
Institution Name	**Price (Jordanian Dinar)**
Queen Rania Foundation	80,000
King Hussein Cancer Center	165,500
Association of Banks in Jordan (Support for the Health and Education Sector Initiative)	1,896,106
Total	2,141,607

Bank al Etihad Foundation

In 2025, the Bank al Etihad Foundation continued its mission of supporting culture and performing arts locally and regionally through integrated educational and performance-based initiatives, led by the Amman Institute of Performing Arts (AIPA), along with its performing arms: the Amman Chamber Orchestra (ACO) and Sarab Dance Collective.

This work reflects the Foundation's commitment to developing young talent and strengthening the cultural scene in Jordan and the region.

Amman Institute of Performing Arts (AIPA)

In 2025, the Amman Institute of Performing Arts saw notable expansion in its educational programs, both in terms of the number of students and the diversity of curricula offered, while providing educational scholarships to a number of beneficiaries.

- **Music School**

The Music School continued its gradual growth, reaching 90 students, including six scholarship beneficiaries. The School delivered nine workshops and lectures, and expanded its academic programs by launching the Youth Orchestra, Suzuki Method lessons, chamber music courses, and singing lessons, in addition to its existing programs.

- **Dance School**

The Dance School had 19 students, including three scholarship beneficiaries. The curriculum was further developed through 13 workshops and three short courses, alongside the introduction of new classes across different programs. The semesters concluded with performances that gave students the opportunity to perform before an audience.

- **Drama School**

The Drama School welcomed 18 students, including four scholarship beneficiaries, and delivered five workshops and four short courses. The School continued developing its programs and opening new classes, while organizing final performances that helped refine students' acting skills.

Sarab Dance Collective

In 2025, Sarab Dance Collective presented four performances, featuring dancers from Syria, Palestine, and other countries around the world. These performances attracted 752 audience members, highlighting the importance of regional and international artistic collaboration and the role of the arts in building cultural bridges across borders.

Amman Chamber Orchestra

The Amman Chamber Orchestra performed 11 concerts in 2025, reaching an audience of 2,818. The Orchestra saw gradual growth in the number of its members, culminating in a pivotal milestone in December: a major concert featuring a full symphony orchestra of 70 musicians, an achievement that reflects the Orchestra's artistic maturity and development.

Board of Directors' Outlook for the Coming Year

The Board of Directors looks ahead to a coming year focused on maximizing the impact of the merger and strengthening the unified Bank's position as one of the strongest banking institutions in the Kingdom. In light of the completion of the strategic transaction with INVESTBANK, the Board expects the coming year to mark a significant transformation in financial and operational performance and in enhancing shareholder value.

The Board's direction is based on the following pillars:

First: Maximizing Merger Returns

Completing the integration phases to achieve economies of scale, enhance operational efficiency, and improve the cost structure, while unifying the corporate identity and customer experience under the Bank al Etihad umbrella.

Second: Balanced and Sustainable Growth

Targeting measured growth in the credit facilities and deposits portfolio, while maintaining asset quality and strengthening risk management, to ensure stable and sustainable returns amid local and regional economic developments.

Third: Strengthening Digital Transformation and Innovation

Continuing to invest in technology infrastructure and digital systems to deliver a banking experience that is easier, safer, and more flexible, and developing innovative products that meet the needs of different segments, from individuals to SMEs and large corporations.

Fourth: Supporting the National Economy and Financial Inclusion

Continuing to play an active role in financing vital sectors and supporting entrepreneurs and productive projects, in line with the Central Bank of Jordan's direction to strengthen the resilience of the banking sector and expand financial inclusion.

Fifth: Embedding Governance and Sustainability

Strengthening governance, risk management, and compliance practices, and expanding sustainability and social responsibility initiatives in a way that reflects the Bank's long-term commitment to society and the environment.

The Board of Directors affirms its confidence in the ability of the Executive Management and the Bank's teams to implement the approved strategy efficiently, supported by a strong capital base, an experienced team, and a corporate culture that places the customer at the heart of its priorities. This paves the way for a year of stronger growth and reinforces the Bank's position as a leading Jordanian banking success story.

Analysis of the Financial Position and Results of Operations for the Year 2025

First: Financial Position for 2025

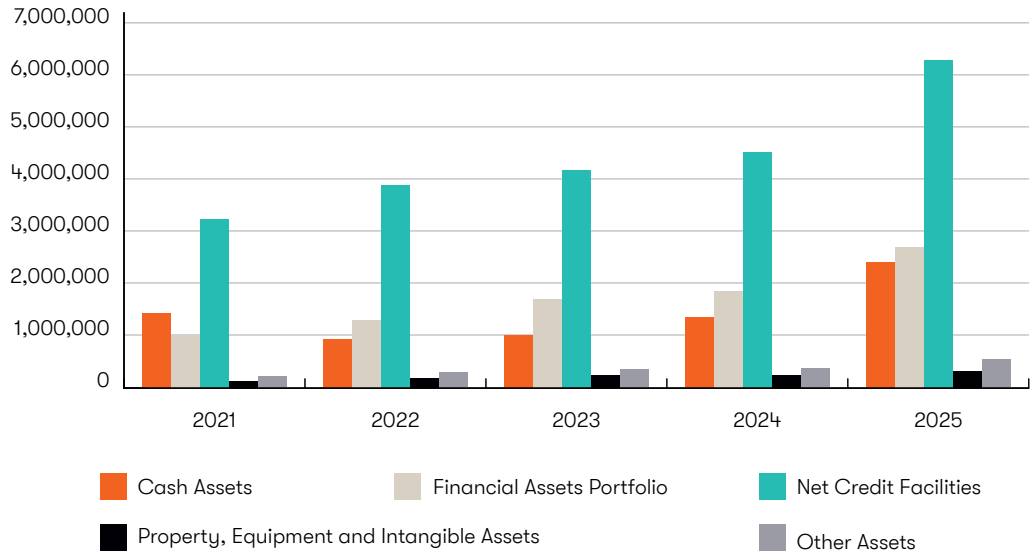

Total Assets

Total assets increased at the end of 2025 to JOD 12.46 billion, an increase of JOD 4.1 billion, or 49.2%, compared with 2024. The compound annual growth rate of total assets over the past five years reached 14.7%, while return on assets reached 0.8%, compared with 0.7% at the end of 2024.

The table and chart below show the development of the main asset items during the years 2021–2025:

Description	2021	2022	2023	2024	2025	Change Percentage 2025-2024
Cash Assets	1,484,678	983,163	1,122,232	1,418,196	2,613,192	84.3%
Financial Assets Portfolio	1,161,552	1,405,491	1,726,702	1,994,229	2,781,448	39.5%
Net Credit Facilities	3,351,124	3,991,119	4,244,911	4,553,853	6,400,855	40.6%
Property and Equipment and Intangible Assets	93,877	95,410	104,744	117,095	159,524	36.2%
Other Assets	171,290	215,708	221,430	267,634	504,047	88.3%
Total Assets	**6,262,521**	**6,690,891**	**7,420,019**	**8,351,007**	**12,459,066**	**49.2%**

(to the nearest thousand JOD)

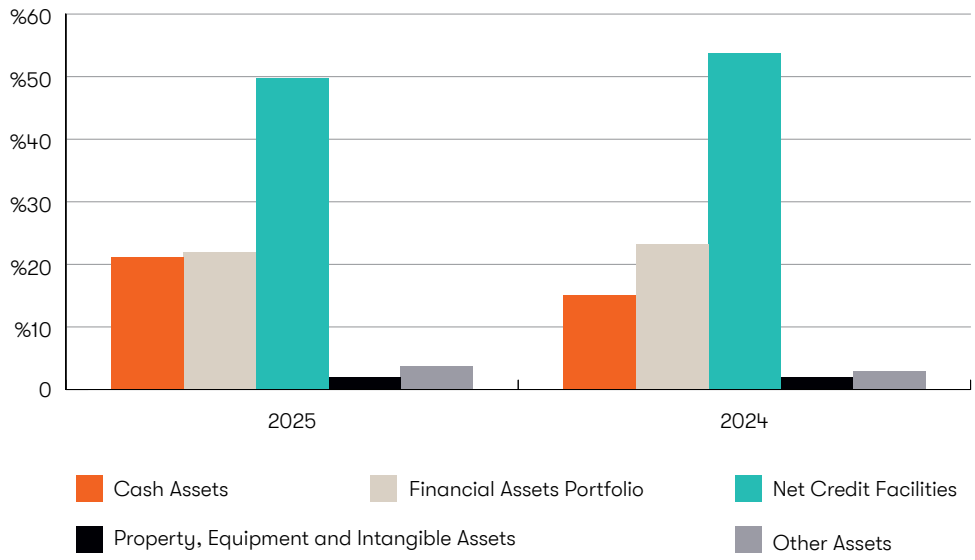

(to the nearest thousand JOD)

When looking at income-generating asset items, they indicate the Bank's ability to manage its assets efficiently and effectively, and to utilize its funding sources to maximize income, while taking into account the applicable policies and procedures and the risks associated with deploying funds in each asset item.

In terms of the relative importance of the Bank's asset items in 2025, net direct credit facilities continued to rank first, accounting for 51.4% of total assets compared with 54.6% in 2024. This was followed by the financial assets portfolio, which accounted for 22.3% compared with 23.9%, while cash assets accounted for 21.0% compared with 17.0% at the end of the previous year.

Equity - Bank Shareholders	428,012	453,047	478,812	495,785	780,199	57.4%

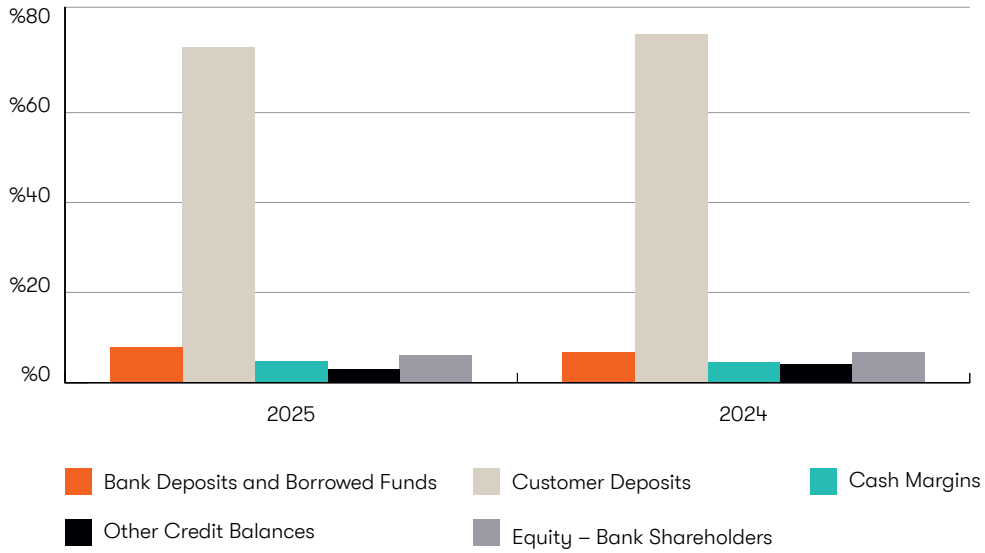

(to the nearest thousand JOD)

(to the nearest thousand JOD)

Regarding the relative importance of the Bank's liabilities and equity components, as shown in the chart below, customer deposits accounted for 75.6%, compared with 76.7% at the end of 2024. Equity attributable to the Bank's shareholders accounted for 6.3%, compared with 5.9%. Bank deposits and borrowed funds accounted for 8.5%, compared with 7.6% last year. Cash margins and other credit balances accounted for 4.8% and 3.1% of total liabilities and equity, respectively, compared with 4.5% and 2.9% at the end of 2024.

Materiality to Total Liabilities and Equity

Financial Assets Portfolio

- **Bonds:** The bond portfolio balance reached JOD 2.561 billion at the end of 2025, an increase of JOD 657 million, accounting for 92.1% of the total financial assets portfolio, which is characterized by low risk and fixed returns. Bonds and loan notes denominated in Jordanian dinars amounted to JOD 1.676 billion, while those denominated in foreign currencies amounted to JOD 885 million at the end of 2025.
- **Local and Foreign Equity Portfolio:** During 2025, the Bank invested in shares of local and foreign companies with strong financial positions and acceptable investment risks. As a result, the total equity portfolio increased by JOD 131 million, reaching JOD 220 million at year-end, compared with JOD 89 million at the end of 2024.

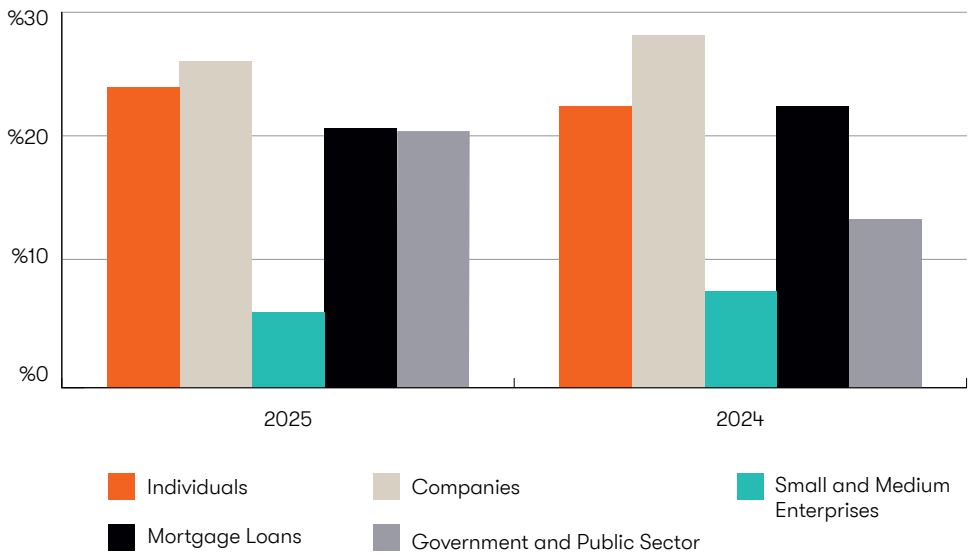

Gross Direct Credit Facilities

Gross direct credit facilities reached JOD 6.968 billion at the end of 2025, representing growth of 44.0% compared with the end of 2024, which had a positive impact on the return on assets. This increase resulted from a JOD 2.1 billion rise in facilities denominated in Jordanian dinars and a JOD 33 million rise in facilities denominated in foreign currencies. The compound annual growth rate of gross direct credit facilities over the past five years (2021–2025) reached 14.7%. The Bank's market share of total direct credit facilities also reached 13.82%, compared with 10.24% last year.

In terms of the structure of gross direct credit facilities by borrower type, the retail sector accounted for 25.5% of total direct credit facilities, compared with 24.7% at the end of last year. The SME sector accounted for 6.0%, while facilities granted to the corporate sector accounted for 27.0% of total facilities, compared with 29.6% at the end of last year.

As for the real estate sector, it accounted for 21.3% of total direct credit facilities at the end of 2025, compared with 24.7% at the end of the previous year. Facilities granted to the government and public sector accounted for 20.8%, compared with 14.4% at the end of 2024.

Materiality of Total Direct Credit Facilities by Borrowing Entity

Impairment Provision for Credit Facilities

The Bank continued to follow a highly prudent provisioning policy by taking impairment provisions against any facilities that may be below standard, with the aim of strengthening the Bank's financial position and in line with the Central Bank of Jordan's instructions and the requirements of IFRS 9. The balance of the impairment provision for direct credit facilities reached JOD 514.4 million, compared with JOD 261.7 million at the end of 2024. The coverage ratio of the impairment provision for direct credit facilities against total Stage 3 facilities reached 85.3%, compared with 69.5% in 2024. The ratio of Stage 3 facilities, after deducting suspended interest, to the balance of direct credit facilities, after deducting suspended interest, reached 5.56%, compared with 5.29% in 2024.

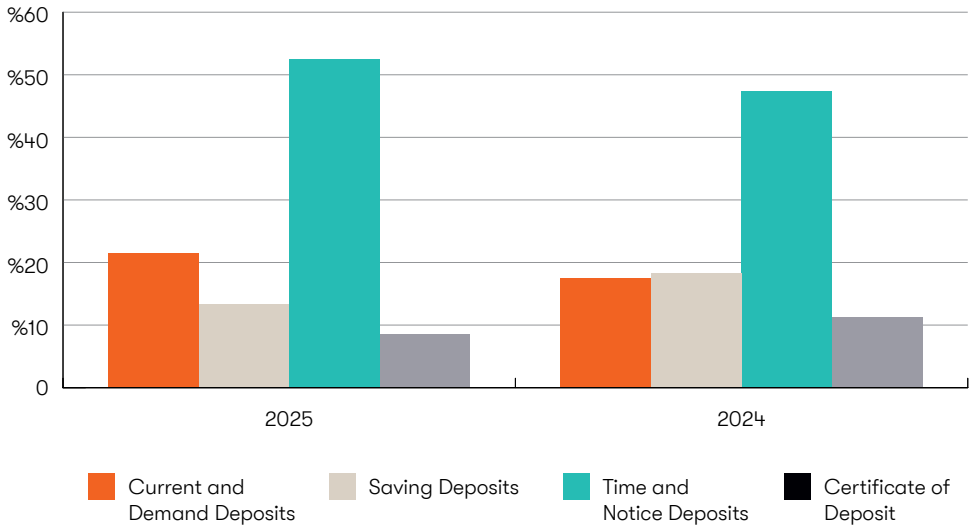

Customer Deposits

Through its distinctive and competitive programs, the Bank was able to attract customers across various target segments, achieving positive growth of 46.9% compared with the end of 2024, an increase of JOD 3 billion, bringing total customer deposits to JOD 9.413 billion. Accordingly, its market share of total customer deposits in the banking sector reached 13.77%, compared with 10.04% at the end of 2024.

Looking at total customer deposits by depositor type, retail deposits increased by 35.3%, SME deposits increased by 37.2%, while large corporate deposits rose by around 94.0%. Government and public sector deposits recorded an increase of 55.5%.

Analyzing the structure of customer deposits by deposit type, time deposits and deposits subject to notice accounted for 54.7% of total deposits, compared with 49.6% at the end of 2024. Current and demand accounts accounted for 21.2%, compared with 18.9% at the end of the previous year, while savings deposits accounted for 14.7%, compared with 19.3% in 2024. Certificates of deposit accounted for 9.4% of total deposits, compared with 12.2% in 2024, as shown in the chart below:

Materiality of Total Customer Deposits by Type of Deposit

Equity – Bank Shareholders

Net equity attributable to the Bank's shareholders increased by JOD 284 million, representing growth of 57.4%, to reach JOD 780.2 million at the end of 2025. The annual growth rate over the past five years reached 57.4%. It is also worth noting that return on equity reached 10.8%, reflecting the strong performance achieved in 2025.

Solvency and Capital Adequacy

The capital adequacy ratio reached 16.24%, compared with 14.62% at the end of 2024. This is above the minimum requirement under Basel III of 8%, and also above the Central Bank's minimum requirement of 14.5%. The Tier 1 capital ratio to risk-weighted assets reached 14.11%, compared with 12.64% in 2024, reflecting the Bank's ability to withstand potential banking risks, as well as its ability to expand and grow within capital adequacy limits.

The Bank's Competitive Position within its Sector and Market Share

According to the consolidated financial statements published by banks operating in the Hashemite Kingdom of Jordan for 2025, the growth rate of gross direct credit facilities in the banking sector reached 6.64%, compared with 9.38% in 2024, while the growth rate of total customer deposits reached 7.06%, compared with 10.94% at the end of the previous year.

As for Bank al Etihad, its growth rates were achieved through its activities in the local markets, represented by the government and public sector, retail sector, large corporate sector, and SME sector. Accordingly, gross direct credit facilities recorded growth of 43.97%, compared with 8.59% in 2024, while total customer deposits grew by 46.94%, compared with 13.37% at the end of the previous year.

	Growth Rate				Market Share	
	Banking Sector		Bank Etihad			
	2025	2024	2025	2024	2025	2024
Direct Credit Facilities	6.64%	9.38%	43.97%	8.59%	13.82%	10.24%
Customer Deposits:	7.06%	10.94%	46.94%	13.37%	13.77%	10.04%
Current and Demand Deposits	6.94%	7.32%	64.77%	8.43%	10.04%	6.49%
Savings	8.06%	5.12%	11.67%	25.20%	14.70%	14.22%
Time Deposits	6.94%	12.53%	62.13%	9.28%	14.16%	9.34%
Cash Margins	12.59%	13.00%	59.82%	13.74%	12.63%	8.90%

The Bank's competitive position cannot be determined in further detail beyond what is stated above.

With regard to the Bank's presence in foreign markets, the Bank's branch in the Republic of Iraq has recently commenced operations. Accordingly, the Bank's competitive position and market share in the Iraqi market relative to its comparable banking sector cannot be determined.

Financial Soundness Indicators

Description	2021	2022	2023	2024	2025
Return on Average Total Assets	0.7%	0.7%	0.8%	0.7%	0.8%

Coverage Ratio of Impairment Provision for Facilities to Total Stage Three Debts	77.4%	76.3%	69.3%	69.5%	85.3%
Total Statutory Liquidity	144.49%	119.88%	127.04%	135.72%	157.52%

Second: Results of the Bank's Operations

Interest, Returns, and Commissions Received

The Bank's income from interest, returns, and commissions received continued to increase over the past five years, rising from JOD 289 million in 2021 to JOD 695 million at the end of 2025, with an annual growth rate of 19.2%. It also increased by 30.1% compared with 2024.

Looking at interest and returns received, interest from direct credit facilities accounted for 71.0% of total interest at the end of 2025. Interest and returns received from retail facilities grew by 22.8% compared with the end of 2024, while SME facilities recorded growth of 13.3%. Real estate loan facilities grew by 1.6%, while government and public sector facilities achieved growth of 94.4%. Interest and returns received from corporate facilities grew by 22.3%.

Commissions received increased by 86.3% compared with 2024, reaching JOD 80.7 million.

Interest, Expenses, and Commissions Paid

This item increased by 27.3% compared with the previous year, while the annual growth rate over the past five years reached 25.3%. Interest, expenses, and commissions paid increased from JOD 105.6 million in 2021 to JOD 326.1 million at the end of 2025.

Interest paid on customer deposits accounted for the largest share, representing 80.5% of total interest and commissions paid. The remaining share came from bank deposits, cash margins, borrowed funds, and deposit guarantee fees.

Operating Expenses

Operating expenses, comprising administrative and general expenses, depreciation, and amortization, increased at an annual growth rate of 15.7% between 2021 and 2025, rising from JOD 100.3 million to JOD 207.8 million. Looking at the details of this item, staff expenses increased over the past five years from JOD 48.8 million to JOD 102.2 million, while other administrative and general expenses rose to JOD 83.3 million at year-end, compared with JOD 37 million at the end of 2021. Depreciation and amortization expenses also increased during the same period from JOD 14.6 million to JOD 22.3 million. It is worth noting that the increase in operating expenses resulted from the Bank's modern and distinctive upgrades to its existing branches, which reached 50 branches by the end of 2025. The Bank also strengthened its workforce with qualified expertise, trained and developed its employees' skills, invested in its advanced technology systems, and launched several advertising campaigns for its new services and products.

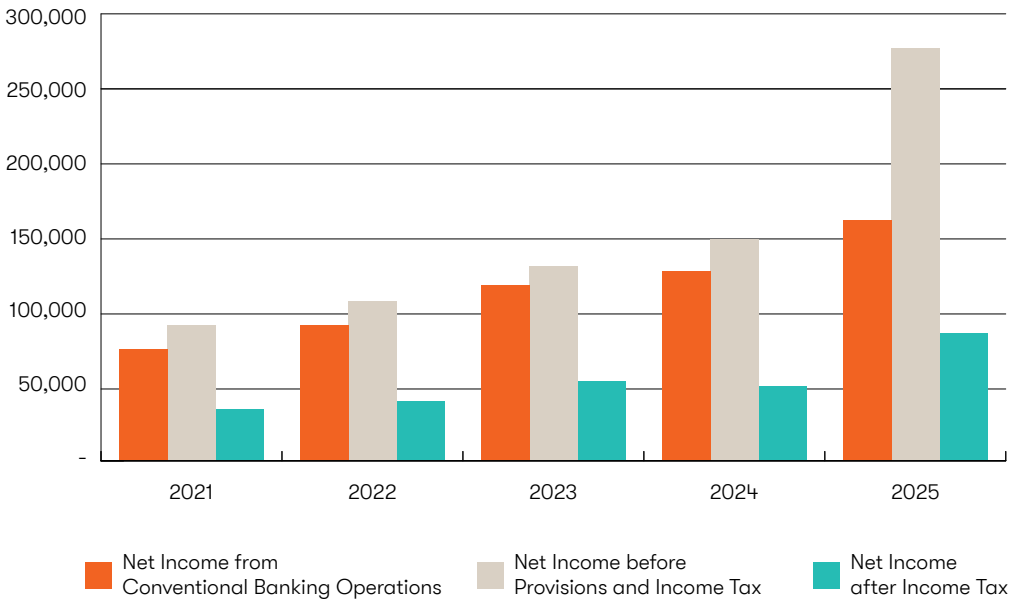

Net Income

Net income from traditional banking operations grew by 24.2% to reach JOD 161.1 million at the end of 2025. The annual growth rate for this item over the past five years was around 14.2%. Net income before provisions and income tax also increased to JOD 280.1 million at year-end, representing growth of 81.4%. Accordingly, net income after tax reached JOD 85.3 million at the end of 2025.

The following table and chart show the development of revenues and expenses over the past five years, from 2021 to 2025.

Description	2021	2022	2023	2024	2025
Interest and Commissions Received	288,776	351,615	465,706	534,253	694,999

Corporate Governance Report
for Listed Shareholding Companies

Based on Bank al Etihad's belief in the importance of corporate governance in reinforcing the principles of security and soundness in the banking sector, and in strengthening depositors' and investors' confidence in the Bank, given its positive impact on the Bank's soundness and on providing the proper foundations that support our strategic growth plans, the Board of Directors decided to adopt the Corporate Governance Manual. The Manual represents the foundations to be applied in managing our institution and the relationships among all parties concerned with the Bank, including shareholders, depositors, the Board of Directors, Executive Management, employees, and the various regulatory authorities.

This report has been prepared in line with the requirements of the Corporate Governance Instructions for Listed Shareholding Companies of 2017, issued by the Securities Commission, which require the preparation of a governance report, its inclusion in the Bank's Annual Report, and disclosure of the Bank's compliance with the provisions of these instructions.

First: Information and Details Related to the Implementation of the Corporate Governance Instructions for Listed Shareholding Companies

The Bank is committed to applying all provisions set out in the Corporate Governance Instructions for Listed Shareholding Companies.

Second: Information Related to the Board of Directors, Its Members, and Its Committees

Profiles of the Members of the Board of Directors

Qualification and Training Programs:

Believing in the importance of developing and refining its employees' skills, Bank al Etihad continued to achieve its planned training milestones for 2025 by enhancing employees' capabilities in the banking and financial sector, both academically and professionally, through the advancement and diversity of academic, educational, and training programs inside and outside the Kingdom.

The following table provides details of the number and type of training programs provided by the Bank in 2025:

Description	No. of Participants		Branches		Head Office	
	Number	%	Number	%	Number	%
Local Courses	1,262	19.85%	741	18.46%	521	22.22%
External Courses	4	0.06%	3	0.08%	1	0.04%
In-House Training Center	826	12.99%	526	13.10%	300	12.80%
E-Learning	4,043	63.60%	2,579	64.25%	1,464	62.46%
Professional Certifications	223	3.50%	165	4.11%	58	2.48%
Total	**6,358**	**100%**	**4,014**	**100%**	**2,344**	**100%**

The courses referred to above include the following key programs: professional certifications related to bank credit, the specialized professional diploma in compliance and anti-money laundering, sustainability and green finance, risk management and cybersecurity, compliance, banking fundamentals, and other courses.

As part of the Bank's commitment to keeping pace with the latest academic developments in specialized professional programs and certifications, 233 employees from various departments obtained professional certifications.

A total of 291 training opportunities were provided to school and university students and recent graduates, in line with the Bank's policy to serve the local community and benefit from these talents to fill various vacancies at the Bank, if needed.

Universities and Institutions	Number of Student Trainees
Universities	131
Dual Studies Program	2
Shorouq Program	39
Schools	119
Total	**291**

Risks the Bank is exposed to:

Credit Risk

Credit risk is the risk arising from the borrower's inability or unwillingness to repay the amounts due from the principal amount and/or the related interest and commissions.

To limit and control the impact of credit risk, Bank al Etihad uses a range of techniques to ensure its stability and soundness, such as the strategy of diversifying the components of the credit portfolio. To ensure this, concentration risk management is carried out by setting credit limits for economic sectors, geographic areas, credit ratings, and products.

The Bank also uses credit risk measurement tools to ensure that it is not exposed to uncalculated risks, and uses these tools for the early identification of any deterioration in portfolio risk.

To identify the level of future risks, the Bank conducts stress testing periodically, based on assumed stress scenarios and negative economic and business forecasts, with the aim of identifying mechanisms to avoid these risks or mitigate their impact.

Market Risk

Market risk is the risk related to changes in the value of profits and losses, changes in the economic value of equity, or changes in liquidity levels as a result of changes in interest rates, exchange rates, or financial asset prices, or as a result of adverse economic conditions. To manage these risks, the Bank follows a conservative policy, carrying out its activities through a middle office and an independent Market Risk Management function, in accordance with limits and policies developed based on international best practices and approved by the Board of Directors of Bank al Etihad. The most important of these risks are:

1. Interest Rate Risk

This represents the expected losses resulting from fluctuations in interest rates in financial markets, as such changes lead to changes in the pricing and valuation of financial products and assets, which may negatively affect the Bank's income or the economic value of equity. In addition, these risks arise from mismatches in the repricing dates of assets and liabilities, which are managed periodically by the Asset and Liability Management Committee through repricing gap reports and related limits.

2. Liquidity Risk

This represents the risks arising from the Bank's inability to meet its short-term financial obligations, particularly toward depositors, at an acceptable time and cost, as a result of concentrations or long-term investments. To avoid these risks, the Bank plans liquidity by managing statutory and internal reserves to ensure compliance with regulatory requirements and internal policies, and then through the strategic management of the Bank's funding needs over the coming periods. In addition, the liquidity management strategy takes into account the diversification of funding sources and the adoption of a liquidity contingency plan that is updated and reviewed periodically.

Operational Risk

Operational risk is defined as the risk of loss resulting from the failure or inadequacy of internal processes, people, or systems, or from an external source or event. This definition includes legal risks and risks related to regulatory authorities.

Operational risk management forms part of the Bank's overall risk management framework, which aims to strengthen and develop internal control systems. Operational risks are identified, measured, monitored, and response methods are defined across all processes and products, enabling the Bank to manage them effectively and achieve its objectives while maintaining an acceptable level of operational risk. Exposure levels are monitored against acceptable limits based on the Bank's risk appetite statement.

Risk Management has adopted more than one mechanism to manage these risks, the first of which is the Control Risk Self-Assessment (CRSA), by identifying the risks related to each department and/or unit and assessing the control procedures to verify their effectiveness and efficiency in managing the associated risks.

Operational Risk Management also develops key risk indicators that enhance the risk monitoring mechanism, as they serve as early warning tools enabling decision-makers to identify undesirable events and potential losses before they occur.

In addition, a database of monetary losses resulting from operational risks is developed to assess the Bank's level of exposure to operational risks and the effectiveness of the control procedures applied. The Bank's operational risk management process is not intended to design systems that eliminate all potential operational risks, but rather to understand the financial impacts — and any other potential impacts — of these risks, and to develop control systems and procedures that, if they continue to operate, keep the potential losses or impacts of these risks within acceptable levels.

Compliance Risk

Compliance risk, also referred to as integrity and reputation risk, is the risk of legal penalties, fines, regulatory sanctions, material losses, or reputational damage to which the Bank may be exposed as a result of non-compliance with laws, regulations, instructions, orders, codes of conduct, and sound banking practices.

Executive Management bears ultimate responsibility for developing and implementing the compliance policy, having it approved by the Board of Directors, and circulating it to all departments and employees of the Bank. Management at all levels is also responsible for ensuring that proper procedures and measures are applied if violations resulting from non-compliance are identified, in addition to providing sufficient and qualified staff and the necessary resources to establish an independent Compliance Monitoring Unit to implement compliance policies.

In addition, and to ensure the highest level of integrity and transparency, the Bank relies on internal policies and procedures within a sound and robust framework of internal controls, which are reviewed periodically.

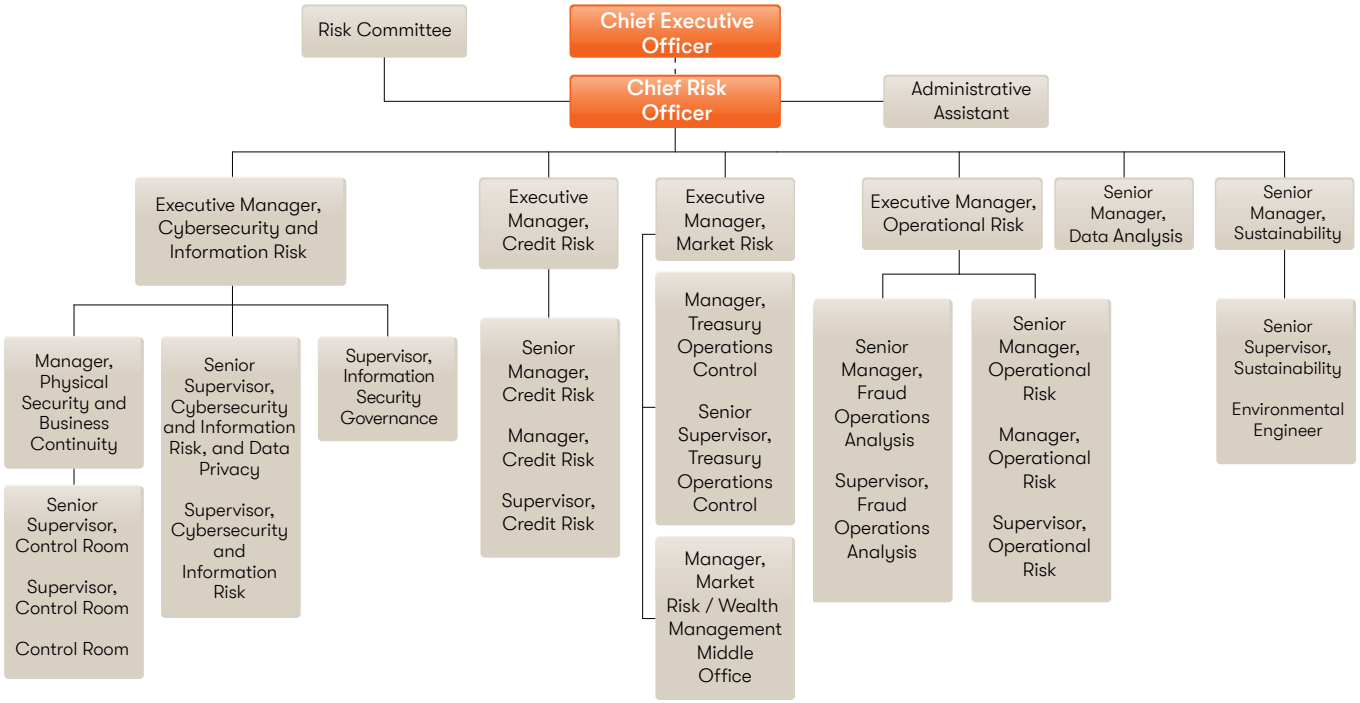

Information Security and Cybersecurity Risk

Information security and cybersecurity risk management is based on using all internationally available means, tools, and procedures, and following international standards to ensure the protection of the Bank's information, networks, and devices from internal and external risks and threats. It also aims to prevent information from being accessed by unauthorized or unintended persons, maintain the confidentiality and integrity of information, and ensure its availability and the continuity of the systems that support it.

The department develops information security and cybersecurity policies, standards, and procedures in line with best practices and international standards to protect the Bank's assets. It also updates and develops the best plans to ensure business continuity during disasters and crises, guaranteeing the continuity of the Bank's operations and the availability of all services provided to its customers, in addition to monitoring compliance with information security standards using the latest technologies and systems.

Remuneration Policy

The Annual Increases and Bonuses Policy outlines the Bank's practice in this regard, ensuring internal fairness, retaining and rewarding high-performing employees and Executive Management members, and attracting the best expertise and skills available in the banking market.

Annual bonuses and increases apply to employees appointed on or before 30 June of the year on which the evaluation is based. For employees who have not completed a full year at the Bank, the bonus and increase are calculated on a pro-rata basis from the date of appointment. Employees appointed after 30 June are excluded from the increase and bonus.

The annual increase percentage for employees, if any, is linked to the Bank's annual profits, the Bank's performance compared with the estimated budget, the inflation rate, employee performance evaluations, salary surveys, and the results of the annual survey comparing the percentages of increases granted to employees in the banking sector. These are approved by the Nomination and Remuneration Committee.

The annual bonus for each employee is linked to productivity, good performance, achievement of objectives, and dealings with colleagues and the Bank's customers, in light of the general principles determined by the Nomination and Remuneration Committee for all employees, based on the performance of the Bank, the market, and employees. Annual bonuses may be in the form of a percentage or multiples of gross monthly salaries, or lump-sum amounts.

Annual increases and bonuses are granted after the completion of the annual performance evaluation process. Employees' performance is reviewed and evaluated at the end of each year, and increases or adjustments are made as approved by Senior Management.

Performance-related bonuses for members of Executive Management, including the Chief Executive Officer, are also paid in the form of deferred bonuses, in line with the Corporate Governance Instructions related to financial rewards for executives.

Appointment Policy

- No employee is appointed outside the Bank's approved organizational structure, plans, and estimated budget after they are approved by the Board of Directors, under which the number of employees in each department is determined, including vacancies and the qualifications required to fill them. If there are any exceptions, the necessary approvals must be obtained.
- The Jordanian Labour Law, the Banking Law, and the provisions of Bank al Etihad's Employee Regulations, and any amendments thereto, must be complied with in relation to appointment procedures and any related laws.
- The Corporate Governance Instructions for Banks, and any amendments thereto, must be complied with in relation to appointments, resignations, and succession.
- When appointing any employee at the Bank, the Human Resources Department – Recruitment and Talent Acquisition Section must comply with the following:
  - The employee must be Jordanian.
  - If the employee is not Jordanian, the Bank must need the employee in line with the applicable Labour Law and Central Bank requirements, and the employee must have obtained the approval of the Ministry of Labour.
  - The employee must have completed 18 years of age.
  - It must be verified that the employee is of good conduct and has not been convicted of a felony or misdemeanor involving dishonor.
  - It must be verified that the employee is medically fit based on a medical examination approved by the Bank.
  - The employee must hold a university degree from a university recognized by the Ministry of Higher Education and Scientific Research, except for certain unclassified positions where Tawjihi and diploma holders may be appointed.
  - The candidate must pass the various stages of appointment, including the required admission exams and personal interviews, according to the position and its level.
  - The new employee is subject to the probation period prescribed under the Jordanian Labour Law. During this period, the employee's performance is monitored and evaluated by their supervisors according to the approved standards, in order to take the appropriate decision regarding confirmation in permanent service with the Bank.
  - The Bank ensures the activation of the policy on hiring relatives.
  - The Bank adopts the best modern methods for attracting and appointing qualified and experienced talent.

Unit for Managing and Handling Customer Complaints

Customer complaints provide us with an opportunity to improve service performance. While we are pleased to resolve customers' complaints effectively, the matter does not stop there; we view these complaints as a valuable source of information that enables us to improve the level of our services. We affirm that excellence in managing and handling customer complaints is one of the main objectives that Bank al Etihad seeks to achieve, in order to embed and develop the general concepts of serving complainants by educating them on banking policies and laws, so that the complainant is aware of their rights if they wish to submit a complaint, and by helping them understand the required procedures for submitting complaints, which are simple and responsive.

Based on the Central Bank of Jordan's Instructions on Fair and Transparent Treatment of Customers No. 56/2012, issued on 31 October 2012, a unit was established to manage and handle customer complaints. The unit was provided with qualified human resources and automated systems, and administratively reports to the Compliance Department.

The responsibility for following up on customer complaints lies with the unit's employees. The employee responsible for receiving the complaint provides the time needed, listens carefully to the customer, and contributes effectively and accurately to helping resolve the complaint, while explaining the Bank's point of view to reach a satisfactory and objective understanding between both parties. The main duties of the Customer Complaints Unit are:

1. Receiving and analyzing customer complaints, recording them on the complaints system/electronic register, and following up on them.
2. Responding to customer complaints within the specified timeframe.
3. Preparing reports on customer complaints, including aggregated statistics on the number of complaints submitted, the actions taken regarding them, qualitative analysis of the nature of complaints, and an action plan to prevent or reduce the recurrence of submitted complaints, and sending them to the relevant parties.
4. Submitting monthly reports to the Bank's Senior Management and the managers of the relevant departments with details of submitted complaints.
5. Submitting quarterly reports to the Central Bank of Jordan, including, at minimum, aggregated statistics on the number of complaints submitted, the actions taken regarding them, and qualitative analysis of the nature of the complaints submitted.
6. Preparing, approving, and circulating a mechanism for managing and handling customer complaints to all Bank employees.
7. Providing customers with multiple channels to submit their complaints, such as:
   - Phone: +(962) 6 5600444
   - Email: customerscomplaint@bankaletihad.com
   - Fax: +962 6 5624231
   - Regular mail: Customer Complaints Management Unit - Head Office, P.O. Box 35104, Postal Code 11180, Amman - Jordan
   - In person
   - Complaint boxes at branches.

Attached below is a statistic of the complaints received from customers during 2025 through the various channels, as follows:

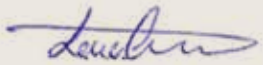

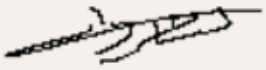

Classification	Total Number of Complaints
Contracts and Terms of Dealing	105
Professional Conduct	301
Work Environment	19
Electronic Services	140
Transfers	17
Payment Cards	47
Commissions and Fees	32
Credit Inquiry	5
Interest / Return Rates	5
Accounts	42
Forgery / Fraud Transactions	2
Marketing of Services and Products	1
Total	**716**

These complaints were handled within the following framework:

- Assigning reference numbers to complaints and providing them to customers for follow-up.
- Studying and analyzing complaints and responding to them within the specified timeframe, according to the classification and nature of the complaints.
- Recommending proposed measures to reduce the recurrence of these complaints in the future, including the following:
  - Amending work procedures, if required.
  - Taking corrective actions.
  - Modifying the infrastructure of electronic services.
  - Training employees.
  - Sending circulars to the Bank's service departments.

Declaration by the Board of Directors

1. The Bank's Board of Directors declares that there are no material matters that may affect the Bank's continuity during the following financial year, 2026.
2. The Board of Directors declares its responsibility for preparing the financial statements and providing an effective control system at the Bank.
3. The Board of Directors declares its responsibility for the accuracy and adequacy of the Bank's financial statements and the information contained in the report, and for the adequacy of internal control and monitoring systems.
4. The Board of Directors declares that no Board member received any benefits through their work at the Bank that were not disclosed, whether such benefits were material or in-kind, and whether for the member personally or for any related party, during the past year.

Corporate Governance
Manual

Section One: Introduction

Based on Bank Etihad's belief in the importance of corporate governance in reinforcing the principles of safety and soundness in the banking sector, and in strengthening depositors' and investors' confidence in the Bank, given its positive impact on the Bank's soundness and on providing the proper foundations that support our strategic growth plans, the Board of Directors has decided to adopt this Manual, the Corporate Governance Manual, to represent the foundations to be applied in managing our institution and managing the relationships among all parties concerned with the Bank, including shareholders, depositors, the Board of Directors, Executive Management, employees, and the various regulatory authorities.

This Manual was developed in light of the Central Bank of Jordan's Corporate Governance Instructions for Banks No. 2/2023, issued on 14/2/2023, and other relevant laws, and in line with international best practices in corporate governance.

Corporate governance is defined as the system by which the Bank is directed and managed. It aims to define and achieve the Bank's corporate objectives, manage the Bank's operations safely, protect depositors' interests, fulfill due responsibility toward investment account holders, shareholders, and other stakeholders, and ensure the Bank's compliance with applicable legislation and the Bank's internal policies.

This Manual is based on the following four guiding principles:

- Fairness in treating all related parties, such as shareholders, depositors, creditors, employees, and regulatory authorities.
- Transparency and disclosure, whereby all financial and non-financial information of interest to stakeholders is disclosed in a timely manner.
- Accountability in the relationships between the Bank's Executive Management and the Board of Directors, between the Board of Directors and shareholders, and between the Board of Directors and other related parties.
- It reflects the Bank's own view of corporate governance in terms of its concept, importance, and basic principles, in a manner that complies, at a minimum, with applicable legislation and ensures the achievement of best practices in this field, provided that it is updated annually.

The Board of Directors, through the Corporate Governance Committee, will also ensure the implementation of all provisions contained in this Manual.

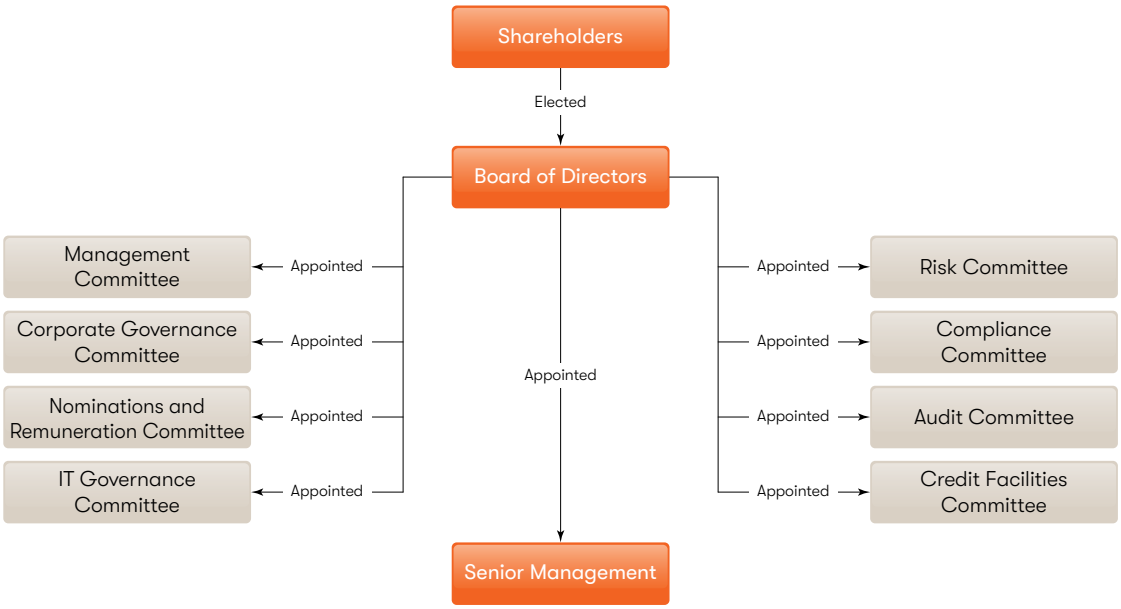

The Bank publishes this Manual within its Annual Report and on its website. The Annual Report also discloses the extent of the Bank's compliance with all provisions of the Manual, and any shareholder will be provided with a copy of this Manual upon request.

At Bank al Etihad, we believe that the effective application of corporate governance principles also includes:

- Regulating relationships among all parties concerned with the Bank.
- Ensuring the implementation of an organizational structure that promotes efficiency, accountability, responsibility, and internal control.
- Building a corporate culture that believes in the institution's objectives and strengthens the principles of responsibility, efficiency, and effectiveness.
- Developing sound and efficient foundations for developing and activating the role of internal control, audit, risk management, and compliance.

Section Two: Corporate Governance Structure

Bank Etihad is managed in light of the directions of the Board of Directors, which delegates the Bank's management authorities to the Bank's employees and management under the direction and supervision of the Chief Executive Officer. This Manual defines the composition and responsibilities of the Board of Directors and its relationship with Executive Management, employees, and minority shareholders.

Section Three: Definitions

- Stakeholders: Any party with an interest in the Bank, such as depositors, investment account holders, shareholders, employees, creditors, customers, or the relevant regulatory authorities.
- Board: The Bank's Board of Directors.
- Independent Member: A member of the Bank's Board of Directors who is not a major shareholder, and is not controlled by any major shareholder, and who possesses financial or banking qualifications or experience, and meets the conditions set out in paragraph (5/e) of Corporate Governance Instructions No. 2/2023.
- Senior Executive Management: Includes the Bank's Chief Executive Officer or Regional Manager, Deputy Chief Executive Officer or Deputy Regional Manager, Assistant Chief Executive Officer or Assistant Regional Manager, Chief Financial Officer, Chief Operations Officer, Chief Credit Facilities Officer, Chief Treasury / Investment Officer, Chief Risk Officer, Chief Internal Audit Officer, and Chief Compliance Officer, in addition to any Bank employee who holds the same job grade, has executive authority equivalent to any of the authorities of those mentioned, and/or reports directly to the Chief Executive Officer.
- Fitness and Propriety: The availability of specific requirements related to honesty, integrity, reputation, competence, and qualifications, in line with the requirements set out in Corporate Governance Instructions No. 2/2023, for persons nominated for membership of the Bank's Board of Directors and Senior Executive Management.
- External Auditor: Includes the audit firm, the partners in the audit firm, and the members of the audit team.
- Audit Firm: The firm through which the audit team practices the profession, and which is registered with the Companies Control Department at the Ministry of Industry, Trade and Supply as a civil company for practicing the profession in accordance with applicable legislation.

Section Three: Composition of the Board of Directors

- The Board of Directors consists of 11 members.
- The Board appoints a Chairman from among its members.
- The Nomination and Remuneration Committee nominates Board members, taking into account the abilities and qualifications of the nominees and their previous performance as Board members.
- The Board's term is four years from the date of its election. Renewal of any Board member's membership requires the member to nominate themselves for election during the Bank's Annual General Assembly meeting.
- The positions of Chairman of the Board and Chief Executive Officer must be separated, and the Chairman of the Board and the Chief Executive Officer must not be related up to the third degree. The separation of responsibilities shall be set out under written instructions approved by the Board and reviewed whenever necessary.
- The diversity and complementarity of skills and experience among Board members must be taken into account, so as to provide a broad range of insights and perspectives in line with the size of the Bank, or banking group, the nature of its activities, and its strategy.
- The number of independent members on the Board must not be less than four.
- The Chairman or any member of the Board of Directors may not combine their position with any executive position, any role through which they participate in the day-to-day management of the Bank, or any advisory position at the Bank.
- An independent member is defined as a natural person who has no relationship with the Bank other than their membership on the Board of Directors, and who is not a major shareholder. This ensures that their judgment is not affected by any considerations or any internal or external matters that may limit their ability to make objective decisions in the interest of the Bank. The minimum requirements that must be met by an independent member include the following:

1. The member must be a natural person.
2. The member must not have worked as an employee of the Bank or any of its subsidiaries, or as a consultant to the Bank or any of its subsidiaries, during the three years preceding their nomination.
3. The member must not be related up to the second degree to any other Board member, any member of the boards of directors/boards of managers of the Bank's subsidiaries, or any major shareholder in the Bank.
4. The member must not be related up to the second degree to any member of the Bank's Senior Executive Management, except the Chief Executive Officer, or to any member of Senior Executive Management in any of the Bank's subsidiaries.
5. The member must not be a partner or employee of the Bank's external auditor, and must not have been a partner or employee during the three years preceding their nomination.
6. The member must not be a major shareholder in the Bank, an ally of a major shareholder in the Bank, a person whose shareholding together with an ally's shareholding constitutes the shareholding of a major shareholder, a major shareholder in any of the Bank's subsidiaries, or a major shareholder in the group that owns the Bank.
7. The member must not have served as a member of the Bank's Board of Directors, or of any of its subsidiaries, or as a member of their boards of managers, for more than eight years in total across the aforementioned memberships. If any member loses their independence under this item, and after a continuous cooling-off period of at least four years, the Bank may, if it has sufficient justifications, apply to the Central Bank for a no-objection to consider the member independent.
8. The member, their spouse, any of their first-degree relatives, or any company in which the member is a board member, owner, major shareholder, or member of Senior Executive Management, must not have obtained credit from the Bank exceeding 5% of the Bank's regulatory capital. The member must also not be a guarantor of credit from the Bank exceeding the same percentage. The Central Bank may consider certain cases related to nominees who hold memberships in public shareholding companies.

Section Four: Qualifications Required of Board Members and their Responsibilities

In addition to the conditions specified under the Companies Law regarding the characteristics and qualifications of Board members, the following conditions must be met by Board members to ensure the Board's efficiency in performing its duties.

First: Personal Qualities

- Independence in judgment and sound decision-making.
- Integrity and objectivity.
- Credibility and honesty.
- Transparency.
- Avoiding conflicts of interest or exploiting the position and information made available to the member by virtue of Board membership.
- Leadership qualities.

Second: Technical Qualifications and Experience

- The ability to understand and evaluate the Bank's financial performance by reviewing various financial reports and statements.
- The member must possess academic qualifications and/or practical experience in the fields of accounting, finance, or banking.
- Reasonable understanding and knowledge of banking operations and the risks related to banking activities.
- Knowledge of the laws, regulations, and instructions with which the Bank must comply.
- Full knowledge of the instructions of the Central Bank of Jordan and any relevant regulatory authorities, and continuous follow-up of any amendments or additions thereto.
- Awareness of, and follow-up on, emerging topics in the financial services sector.
- Familiarity with the Bank's business and awareness of any amendments or additions that may affect it, including appointment requirements for Senior Executive Management positions at the Bank.
- The ability to deal with and manage crises in the short and long term.
- The ability to conduct strategic planning and maintain a clear future vision.

Third: Duties and Responsibilities

- Board members may attend Board meetings and committee meetings through any means of audiovisual communication, provided that the Chairman of the Board and the Secretary certify the minutes and legal quorum of the Board meeting, and the Committee Chairman and Secretary certify the minutes and legal quorum of the committee meeting.
- Commit to membership in the required Board committees and attend their meetings.
- Attend General Assembly meetings.
- Seek to obtain all necessary information to ensure that all decisions taken are in the interest of the Bank.
- Obtain objective advice from external parties, if necessary.
- Give priority to the Bank's interest in all transactions with any other company in which the member has a personal interest, refrain from taking any business opportunity of the Bank for personal benefit, avoid conflicts of interest, and disclose any conflict of interest to the Board in detail, if any.
- Disclose in writing and on a regular basis any personal interest in any transaction or contract with the Bank, whether for the member, their spouse, or a relative up to the third degree, or for companies in which they have a significant interest. The member must not participate in any meeting in which such a transaction or contract is discussed, and therefore must not vote on any decisions that may involve a conflict of interest. This disclosure must be recorded in the minutes of the Board meeting.
- Not disclose confidential information related to the Bank or use it for personal benefit or for the benefit of others.
- Assess the extent to which other activities of Board members affect their independence as Board members of the Bank.
- Ensure that no Board member influences Executive Management decisions except through deliberations held during Board meetings or meetings of its committees.
- Dedicate sufficient time and effort to the Bank.

- Keep continuously informed of developments in the banking sector locally and globally.
- Each member must allocate sufficient time to carry out their duties as a Board member.
- Maintain sufficient knowledge of legislation and principles related to banking activities, the Bank's operating environment, and developments affecting it, as well as external developments related to its business.

Section Five: Responsibilities of the Board of Directors

First: General Framework

- The Board must supervise Executive Management and approve a policy for monitoring and reviewing its performance in order to achieve the corporate objectives and ensure the soundness of all Bank operations.
- The Board must define the Bank's corporate values, establish clear lines of responsibility and accountability for all Bank activities, and embed a strong culture of ethical standards, integrity, and professional conduct among the Bank's management.
- The Board is responsible for implementing the requirements of the Central Bank, as well as the requirements of other regulatory and supervisory authorities related to its work, taking stakeholders into account, ensuring that the Bank is managed within the framework of applicable legislation and its internal policies, and ensuring that effective oversight is continuously maintained over the Bank's activities, including activities outsourced to external parties.
- The Board must define the Bank's strategic objectives, direct Executive Management to prepare a strategy to achieve these objectives, approve it, and approve action plans that are aligned with it.
- The Board of Directors must ensure that the Bank is managed prudently and within the framework of applicable laws and instructions and the Bank's internal policies, and that effective oversight is continuously maintained over the Bank's activities, including activities outsourced to external parties. Accordingly, the Board is responsible for overseeing the Bank's Executive Management.
- The Board must embed the principle that each Board member's commitment is to the Bank and all its shareholders, and not to any specific shareholder.
- The Board must ensure that no member of the Board of Directors, Executive Management, or Bank employees obtains any personal benefit at the expense of the Bank's interest.
- The Board must determine the banking transactions that require its approval, while ensuring that this is not expanded in a manner that undermines the Board's oversight role. The Board may not grant executive authorities, including credit-granting authorities, to any individual Board member, including the Chairman. The Board may form a committee emanating from it under the name "Credit Facilities Committee" to consider exclusively the facilities that exceed the authority of the highest committee within Executive Management.
- The Board must verify that the Bank's credit policy includes an assessment of the quality of corporate governance of its public shareholding corporate customers, so that customer risk is assessed by identifying weaknesses and strengths according to the customer's level of corporate governance.
- The Board must establish a policy that includes the Bank's responsibility toward environmental and social protection, provided that the Bank's disclosures in its Annual Report and/or Sustainability Report include the initiatives adopted by the Bank in this regard, at a minimum:
  1. Social initiatives in environmental protection, health, and education.
  2. Social initiatives to combat poverty and unemployment.
  3. Encouraging medium and microfinance.
  4. Participating in initiatives with added economic value to society.

- The Board must approve the Bank's general organizational structure.
- The Board must take measures to establish a clear separation between the powers of major shareholders on one hand and Executive Management on the other. It must establish appropriate mechanisms to limit the influence of major shareholders, ensure that Senior Executive Management derives its authority solely from the Board, and ensure that it operates within the delegation granted to it by the Board.
- The Board must approve the Group's strategy and general policies, and approve a Corporate Governance Manual at the Group level in line with these Instructions and the Group's structure, for application across the entire Group.
- The Investment Committee, or any amendments thereto, shall be approved by the Board of Directors.

Second: In the Area of Risk Management and Regulatory Requirements

- The Board shall approve a risk management strategy and monitor its implementation. This strategy shall include the acceptable level of risk, ensure that the Bank is not exposed to high risks, and ensure that the Board is familiar with the Bank's operating environment and the key risks associated with it. The Board must also ensure the availability of tools and infrastructure for risk management within the Bank that are capable of identifying, measuring, analyzing, assessing, and monitoring all types of risks to which the Bank is exposed.
- The Board shall ensure the Bank's compliance, across all its activities, with all legislative laws issued by governmental and regulatory authorities, and shall ensure that all Bank employees at all administrative levels comply with them.
- The Board shall ensure, through its various committees, the accuracy of the information provided to regulatory authorities.
- The Board shall ensure that all of the Bank's risks are properly managed. To verify this, the Board regularly reviews the Bank's qualitative and quantitative risk reports and statistics.
- The Bank must ensure the regular rotation of the external auditor at least every seven years. The external auditor may not be changed during the contract period except after obtaining the Central Bank's approval and based on material reasons. The previous audit firm may not be re-elected until at least three years have passed from the date of its last election by the Bank.
- The Board shall ensure that the Bank discloses information in accordance with International Financial Reporting Standards and International Accounting Standards (IFRS + IAS), the applicable instructions of the Central Bank of Jordan issued pursuant to the Banking Law in force, and relevant legislation.
- The Board shall ensure full compliance with all amendments to International Financial Reporting Standards (IFRS).
- The Board shall ensure that the Bank is aware of changes in international financial reporting practices and the level of transparency required from financial institutions.
- The Bank's Board of Directors must approve a strategy that sets out the Bank's approach and procedures for the early identification of credit exposures that are likely to be classified, or have been classified, as non-performing, the mechanisms for monitoring their existing and expected levels, and the practical plans to be followed to reduce the size of such exposures within realistic timeframes.
- The Bank's Board of Directors must ensure that Executive Management establishes the necessary procedures to implement the strategy for handling credit exposures that are likely to be classified, or have been classified, as non-performing. These procedures must include, at a minimum, the following:
  1. Identifying the available options, of all types, for dealing with such exposures, including restructuring, rescheduling, negotiation and settlement with customers, legal procedures, and others.
  2. Establishing clear standards to ensure periodic assessment of the feasibility of these options.
  3. Setting targeted quantitative indicators within acceptable timeframes to reduce the size of such exposures.

- The Bank's Board of Directors must approve performance indicators to monitor the effectiveness of the above strategy through the Bank's Risk Management Department. These indicators must include qualitative and quantitative measures that enable the Board to assess the quality of the remedial actions taken by Executive Management in this regard, and to take corrective actions if the strategy is found to be ineffective in achieving the targeted indicators.
- The Bank's Board of Directors must ensure that the resources necessary to implement the above strategy are provided, including ensuring the adequacy of specialized human resources and systems, and defining and documenting roles, responsibilities, reporting lines, and incentives that support the implementation of the strategy.
- The Bank's Board of Directors must ensure that the party responsible for implementing the above strategy within the Bank is independent from business and credit-granting units, in order to avoid the possibility of conflicts of interest.
- The Bank's Board of Directors must ensure that the Bank has an integrated control and monitoring system, including automated classification systems, to ensure the Bank's compliance with the requirements of these instructions as a minimum.
- The Bank's Board of Directors must ensure that the Bank's credit policy includes the following:
  1. Provisions demonstrating the Bank's compliance with the requirements of these instructions as a minimum.
  2. Effective hedging mechanisms for managing credit risk covering all of the Bank's activities, and periodic review of these mechanisms whenever necessary, to ensure that any weaknesses in credit decision-making mechanisms that led the Bank to incur losses are addressed.
  3. Identification of the classification categories in the Bank's internal rating system that correspond to the credit exposure classification categories set out in Article 3 of these instructions.
  4. The necessary control procedures to ensure that the Bank's overseas operations comply with the requirements of these instructions as a minimum, and to ensure periodic review to maintain continued compliance, document the Bank's implementation of these procedures periodically, and provide the Central Bank with an annual report containing the results of such procedures attached to the semi-annual financial statements.

- The necessary control procedures must also be in place to ensure the determination of the size of credit risk and the related hedging mechanism at any of the Bank's subsidiaries that are not covered by the scope of application specified under Article 2/a of Exposure Instructions No. 8/2024.
- The Bank's Board of Directors must approve procedures for the periodic valuation of credit risk mitigants, including collateral pledged in favor of the Bank against credit exposures, regardless of their classification. This includes procedures for valuing real estate collateral and criteria for approving external real estate valuers, while ensuring compliance with the following:
  1. The party responsible for valuation must issue reports showing the Bank's ability to liquidate any collateral and the expected period required to dispose of it within the estimated value of the collateral approved by the valuation party.
  2. Real estate collateral must be valued by at least one real estate expert, or by the Bank's real estate expert, if the value of the real estate securing the credit exposures does not exceed JOD 100,000.
  3. Real estate collateral exceeding JOD 100,000 must be valued by at least two external real estate valuers, and the average of these valuations shall be adopted. If the difference between the valuations exceeds 20%, the lower real estate valuation shall be adopted.
  4. Real estate collateral must be revalued within six months from the date on which the classification provisions for the non-performing category apply to the credit exposures secured by such real estate.

Third: With regard to Appointments and Succession

- The appointed Chief Executive Officer must not have any familial relationship with the Chairman of the Board up to the third degree.
- The Board, based on the recommendation of the relevant committee, must approve the appointment of the Chief Executive Officer, the Chief Internal Audit Officer, the Chief Risk Officer, and the Chief Compliance Officer, as well as the acceptance of their resignations or termination of their services.
- The Bank must obtain the Board's approval when appointing, transferring, promoting, assigning, accepting the resignation of, or terminating the services of any member of the Bank's Senior Executive Management.
- The Bank must obtain the Central Bank's non-objection before appointing, transferring, promoting, or assigning any member of Senior Executive Management. The non-objection request must be accompanied by the Board's decision, the recommendation of the relevant committee, the approved general organizational structure, the member's declaration in accordance with Annex No. 2 and its attachment, based on the forms of Corporate Governance Instructions No. 2/2023, the CV, academic certificates, experience certificates, certificate of non-conviction, and a copy of the civil status ID card, or passport for non-Jordanians. The Central Bank will not consider any non-objection request unless it is complete with the above attachments.
- The Bank must obtain the Central Bank's non-objection to the resignation or termination of services of the Chief Executive Officer / Regional Manager, Chief Internal Audit Officer, Chief Risk Officer, and Chief Compliance Officer. The Central Bank may summon any manager at the Bank to verify the reasons for the resignation or termination of services.
- The Board approves succession plans for the Bank's executive managers, including the qualifications and requirements that must be met by the holders of these positions.
- The Board must ensure the independence and objectivity of internal audit, give its employees an appropriate position within the Bank's career hierarchy, and ensure that they are qualified to perform their duties.

Fourth: With regard to Self-Assessment and the Evaluation of the Chief Executive Officer's Performance

- The Board, through the Nomination and Remuneration Committee, must evaluate the performance of the Board as a whole at least once annually.
- The Nomination and Remuneration Committee reviews and evaluates the performance of each Board member annually.
- The Board must evaluate the Chief Executive Officer's performance annually, according to a system prepared by the Nomination and Remuneration Committee and approved by the Board, including the setting of key performance indicators. The CEO performance evaluation criteria must include, at minimum, the Bank's financial and administrative performance compared with the level of risk, and the extent to which the CEO has achieved the Bank's medium- and long-term plans and strategies. Weightings shall be assigned to each evaluation item, and the Committee shall inform the Central Bank of the evaluation result.
- The Board must approve a policy for monitoring and reviewing Executive Management's performance by setting key performance indicators (KPIs) to define, measure, and monitor performance and progress toward achieving corporate objectives.

Fifth: With Regard to Planning, Code of Business Ethics, and Conflicts of Interest

- The Board must ensure that the Bank conducts its business with a high level of integrity. This is achieved through the availability of policies and a Code of Business Ethics that define conflicts of interest and transactions carried out by Bank employees for their personal benefit based on internal information about the Bank that they obtained or accessed as a result of the authorities granted to them. These policies and the Code of Business Ethics are circulated to all Bank employees and members of the Board of Directors, approved by the Board, and published to the public.
- The Board approves the Disclosure Policy, which covers all matters that must be disclosed to the public through the Bank's Annual Report, the press, the Bank's website, and other channels.
- The Board must take the necessary measures to establish a clear separation between the powers of shareholders with a significant interest on one hand and Executive Management on the other, with the aim of strengthening sound corporate governance. It must establish appropriate mechanisms to limit the influence of shareholders with a significant interest, including, but not limited to, the following:
- No shareholder with a significant interest may hold any position in Senior Executive Management.
- Executive Management must derive its authority solely from the Board and operate within the delegation granted to it by the Board.
- Members of the Board and its committees must have direct access to Executive Management and the Board Secretary, and they must be enabled to carry out their assigned duties. At the same time, no Board member may influence the decisions of Senior Executive Management except through deliberations held during Board meetings or meetings of its committees.
- The Board must exercise due diligence when deciding on any matters related to the Bank's business and observe sound principles in reaching such decisions, in a manner that ensures it performs its duties with the highest levels of professionalism.

Sixth: With Regard to Control and Monitoring Systems

- The Board ensures that the Bank has comprehensive policies, plans, and work procedures covering all of its activities, in line with relevant legislation, and that these have been circulated to all administrative levels and are reviewed regularly.
- The Board must ensure the availability of adequate and reliable Management Information Systems (MIS) covering all of the Bank's activities.
- The Board must take the necessary measures to enhance the effectiveness of internal audit by giving due importance to the internal audit function and embedding this within the Bank; ensuring and strengthening the independence of internal auditors; assigning them an appropriate position within the Bank's career hierarchy; ensuring that they possess the knowledge, skills, and competence necessary to perform their duties; and ensuring their right of access to all records and information, and to communicate with any Bank manager, enabling them to perform their assigned duties and prepare their reports without any interference.

Section Six: Responsibilities of the Chairman of the Bank's Board of Directors

- Establish a constructive relationship between the Board and the Bank's Executive Management.
- Create a culture during Board meetings that encourages constructive criticism on issues where members have differing views, and promotes discussion and voting on such issues.
- Ensure that sufficient information reaches Board members and shareholders in a timely manner.
- Provide each member with an adequate summary of the Bank's business upon appointment or upon request.
- Provide each Board member, upon election, with the texts of laws relevant to banking activities and Central Bank instructions relevant to the Board's work, including the Corporate Governance Instructions for Banks, as well as a booklet explaining the member's rights, responsibilities, and duties, and the duties and responsibilities of the Board Secretary.
- Discuss with any new member, with the assistance of the Bank's Legal Advisor, the Board's duties and responsibilities, particularly those related to legal and regulatory requirements, in order to clarify duties, powers, and other matters related to membership, including the membership term, meeting dates, committee duties, remuneration, and the possibility of obtaining independent specialized technical advice when necessary.
- Meet Board members' needs in relation to developing their expertise and continuous learning, and allow new members to attend an Orientation Program that takes into account the member's banking background. The program must include, at minimum, the following topics:
  1. The Bank's organizational structure, corporate governance, and Code of Professional Conduct.
  2. The corporate objectives, the Bank's strategic plan, and approved policies.
  3. The Bank's financial position.
  4. The Bank's risk profile and risk management framework.

- Ensure the existence of a charter that regulates and defines the work of the Board.
- Discuss strategic and important issues extensively during Board meetings.
- Ensure that the Bank maintains high standards of corporate governance.
- Call for Board meetings and meetings of Board committees in a manner that ensures compliance with the instructions of this Manual and the efficient functioning of the committees.
- Ensure that all Board members receive and sign the minutes of previous meetings, and receive the agenda for any meeting sufficiently in advance. The agenda must include sufficient written information on the topics to be discussed at the meeting, and shall be delivered by the Secretary.
- The Chairman of the Board must invite the Central Bank to attend General Assembly meetings sufficiently in advance, so that it may designate its representative.
- The Chairman of the Board must provide the Central Bank with the minutes of General Assembly meetings within no more than five days from the date on which the Companies Controller General, or their representative, approves the minutes.
- Ensure that the Central Bank is informed of any material information that may negatively affect the fitness and propriety of any member of Senior Executive Management.

Section Seven: Organization of the Board's work

- The Board shall meet at least six times per year.
- To ensure that the topics presented at Board meetings are comprehensive, Executive Management shall propose the topics it deems important for inclusion on the agenda of each meeting.
- Senior Executive Management must provide Board members, at least one week before the Board meeting, with the agenda items and sufficient and accurate information on the topics listed on the agenda, enabling them to make appropriate decisions. The Chairman of the Board must verify this.
- Board members must remain continuously informed of developments within the Bank and in the local and international banking sectors. The Bank must periodically, and whenever needed or requested, provide members with an appropriate summary of the Bank's business and key developments in the banking sector.
- Board members and its committees have the authority to communicate directly with Executive Management and the Board Secretary whenever necessary.

- Board members and its committees, when needed, have the authority to seek external resources to assist them in fully carrying out their assigned duties, in coordination with the Chairman of the Board.
- Meetings of the Board of Directors and its committees shall be recorded in accurate and complete official minutes, including the work carried out by the Board and the decisions taken by it and by its committees. These minutes constitute the legal evidence of the actions taken by the Board or its committees, and a record of the events that occurred during the meetings, to avoid any ambiguity. Therefore, accuracy must be observed when preparing these minutes, including accurate recording of any voting that took place during the meetings, and documenting any reservations raised by any member. Any supporting documents must be attached, or any documents referred to during the meetings must be indicated, and the Bank shall retain all such minutes appropriately.

Section Eight: Board Secretary

- The decision to appoint or remove the Board Secretary shall be taken unanimously by the Board.
- When appointing the Board Secretary, the Board shall select one of the Bank's employees known for accuracy and high commitment to work.
- The Board must formally and in writing define the role and duties of the Board Secretary, in line with the level of responsibilities referred to in this Manual.
- The responsibilities of the Board Secretary shall include, at minimum, the following:
  1. Providing each Board member, upon election, with a letter explaining the member's rights, responsibilities, and duties.
  2. Attending all Board meetings and accurately recording all discussions, proposals, objections, reservations, and voting on draft Board resolutions.
  3. Ensuring that Board members follow the procedures approved by the Board, and ensuring the flow of information among Board members, its committees, and Executive Management.
  4. Ensuring that Board members sign meeting minutes and resolutions.
  5. Following up on the implementation of Board resolutions and on any matters deferred from previous meetings.
  6. Scheduling Board meetings in coordination with the Chairman of the Board and preparing meeting minutes in accordance with the specifications set out above.
  7. Preparing the Board meeting agenda and providing members with all information and documents related to the meeting sufficiently in advance.
  8. Maintaining the records and documents of Board meetings.
  9. Taking the necessary measures to ensure that draft resolutions to be issued by the Board comply with applicable legislation, including instructions issued by the Central Bank.
  10. Preparing for General Assembly meetings.
  11. Cooperating with the Board committees.
  12. Providing the Central Bank with the fitness and propriety declarations signed by Board members.
  13. Facilitating Board members' access to all necessary information.
  14. Managing the relationship with shareholders and ensuring that they can easily access all necessary information to monitor and evaluate the Bank's activities.

Section Nine: Relationship with Shareholders

- The Bank shall take the necessary measures to ensure effective and continuous communication with shareholders through the department responsible for this function.
- A department concerned with shareholder affairs shall be established to ensure efficient communication with shareholders and to provide them with information through the Bank's website and other communication channels.
- All necessary information shall be disclosed to shareholders, and their access to such information shall be facilitated.
- The Bank shall take steps to encourage shareholders, particularly minority shareholders, to attend the Annual General Assembly meeting and vote either in person or by proxy in case of absence.
- Representatives of the external auditors must attend the Annual General Assembly meeting to answer any questions that may be raised regarding the audit and the auditor's report.
- Each matter raised during the Annual General Assembly meeting shall be voted on separately.

- Board members shall be elected or re-elected during the Annual General Assembly meeting, and the external auditor shall also be elected during the same meeting.
- After the Annual General Assembly meeting, a report shall be prepared for shareholders on the observations made during the meeting and the results, including voting results, questions raised by shareholders, and Executive Management's responses.

Section Ten: Fitness and Propriety

This section represents the Fitness and Propriety Policy for Board members and Senior Executive Management. It includes the criteria, requirements, and conditions that must be met by nominated Board members and members of Senior Executive Management. The Board and the Nomination and Remuneration Committee are responsible for ensuring that all members meet these requirements and continue to maintain them, in addition to maintaining integrity, competence, and the necessary experience, in line with the Corporate Governance Instructions issued by the Central Bank and applicable legislation.

First: Fitness and Propriety of Board Members

- The following conditions must be met by any person serving as Chairman or member of the Bank's Board of Directors:
  a. Must be at least 25 years old.
  b. Must not be a member of the Board of Directors of any other bank inside the Kingdom, or its General Manager, Regional Manager, or employee, unless the other bank is a subsidiary of the Bank.
  c. Must not be a lawyer, legal advisor, or auditor of the Bank, or an advisor to any other bank inside the Kingdom.
  d. Must hold, at minimum, a first university degree in economics, finance, accounting, business administration, or any similar discipline. The Nomination and Remuneration Committee may consider other disciplines, including law and information technology, if accompanied by sufficient experience related to banking activities or associated activities, in line with the Corporate Governance Instructions issued by the Central Bank.
  e. Must not be an employee of the government or any public official institution, unless representing such an entity.
  f. Must have at least five years of experience in banking, finance, economics, or similar fields.
  g. Must not have any relationship, including a kinship relationship up to the third degree, with the Bank's Chief Executive Officer, or up to the first degree with any other member of Senior Executive Management.
     - Each person serving as Chairman or member of the Board of Directors must sign a Fitness and Propriety Declaration, to be kept by the Bank, and a copy must be sent to the Central Bank together with the member's CV.
     - The Chairman of the Board must ensure that the Central Bank is informed of any material information that may negatively affect the fitness and propriety of any Board member.

Second: Fitness and Propriety of Senior Executive Management Members

- The Board must appoint a General Manager who has integrity, technical competence, and experience.
- The Bank must obtain the Board's approval when appointing, transferring, promoting, assigning, accepting the resignation of, or terminating the services of any member of the Bank's Senior Executive Management.
- The Board must approve a succession plan for the Bank's Senior Executive Management members, and must review this plan at least once a year.
- The Board must inform the Central Bank of any material information that may negatively affect the fitness and propriety of any member of its Senior Executive Management.
- The following conditions must be met by any person appointed to the Bank's Senior Executive Management:
  a. Must not be a member of the Board of Directors of any other bank inside the Kingdom, unless the other bank is a subsidiary of the Bank.
  b. Must be fully dedicated to managing the Bank's business.
  c. Must hold, at minimum, a first university degree in economics, finance, accounting, business administration, or any similar discipline related to the Bank's business.
  d. Must have at least five years of experience in banking or related activities, except for the position of Chief Executive Officer or Regional Manager, for which experience in banking must not be less than ten years.
  e. Must not be a major shareholder and must not have any relationship, including a kinship relationship up to the third degree in the case of the Chief Executive Officer, or up to the first degree in the case of any other member of Senior Executive Management, with the Chairman of the Board, any Board member, or any major shareholder in the Bank.

- The Bank must obtain the Central Bank's non-objection before appointing, transferring, promoting, or assigning any member of Senior Executive Management. The non-objection request must include the Board's decision, the recommendation of the relevant committee, the approved general organizational structure, the member's declaration and attachment according to Annex No. 2 and the Corporate Governance Instructions No. 2/2023 forms, the CV, academic certificates, experience certificates, certificate of non-conviction, and a copy of the civil status ID card, or passport for non-Jordanians. The Central Bank will not consider any request unless all the above attachments are complete.
- The Bank must obtain the Central Bank's non-objection to the resignation or termination of services of the Chief Executive Officer / Regional Manager, Chief Internal Audit Officer, Chief Risk Officer, and Chief Compliance Officer. The Central Bank may summon any Bank manager to verify the reasons for the resignation or termination of services.

Section Eleven: Evaluation of Management Performance

- The Board must ensure the existence of a system for evaluating its work and the work of its members, provided that this system includes, at minimum, the following:
  a. Setting specific objectives and defining the Board's role in achieving these objectives in a measurable manner.
  b. Identifying key performance indicators (KPIs) that can be derived from the strategic plans and objectives, and using them to measure the performance of the Board and its committees.
  c. Communication between the Board of Directors and shareholders, and the frequency of such communication.
  f. The frequency of Board meetings with Senior Executive Management.
  e. The member's attendance at Board and committee meetings and active participation therein, as well as comparing the member's performance with that of other members. Feedback must be obtained from the concerned member in order to improve the evaluation process.
  f. The extent to which the member develops their knowledge of banking activities through participation in training programs.
- The Board must evaluate the Chief Executive Officer's performance annually, according to a system prepared by the Nomination and Remuneration Committee and approved by the Board, including the setting of key performance indicators. The CEO performance evaluation criteria must include, at minimum, the Bank's financial and administrative performance compared with the level of risk, and the extent to which the CEO has achieved the Bank's medium- and long-term plans and strategies. Weightings shall be assigned to each evaluation item, and the Committee shall inform the Central Bank of the evaluation result.
- The Board must approve a system for measuring the performance of the Bank's managers, other than Board members and the Chief Executive Officer, taking into account performance indicators that vary according to the nature of the departments' work and the extent to which they achieve their objectives. This system must include, at minimum, the following:
  1. Assigning an appropriate weighting to measure compliance with the framework of the Risk Management Department and the Compliance Department, and the application of internal controls and regulatory requirements.
  2. Ensuring that total income or profit is not the sole performance measurement criterion. Other elements must be taken into account when measuring managers' performance, such as risks related to core operations, achievement of each department's objectives and annual plans, and customer satisfaction measurement, where applicable.
- The performance of Internal Audit Department employees shall be evaluated by the Chief Internal Audit Officer, in line with the performance evaluation policy approved by the Board.

Section Twelve: Remuneration

- The Board must establish procedures for determining the remuneration of its members, based on the evaluation system it has approved.
- The Bank's Nomination and Remuneration Committee must develop a policy for granting financial remuneration to managers that is objective and transparent, have it approved by the Board, and provide the Central Bank with a copy within a maximum period of seven working days from the date of its approval by the Board.
- The financial remuneration policy must include the following elements, at minimum:
  a. It must be designed to attract, retain, motivate, and enhance the performance of managers with the required competencies, skills, and experience.
  b. It must be designed to ensure that managers are motivated to achieve the Bank's objectives without leading to high risks that may adversely affect the Bank's solvency, reputation, or exposure to legal risks.
  c. It must take into account risks, liquidity position, profits, and their timing.
  f. Remuneration must not be based only on the performance of the current year, but also on performance over the medium and long term, three to five years.
  e. It must reflect the Bank's objectives, values, and strategy.
  f. It must specify the form of remuneration, whether fees, salaries, allowances, bonuses, stock options, or any other benefits, taking into account the instructions on ownership of significant interest in this regard.
  g. It must include a mechanism for deferring payment of a reasonable percentage of remuneration, excluding salaries, whereby this percentage and the deferral period are determined based on the nature of the work, its risks, and the activities of the concerned manager.
  h. Financial remuneration must not be granted to managers of control departments, including Risk Management, Audit, Compliance, and others, based on the results of the departments they monitor.
  i. It must include controls related to the remuneration of the Chairman and members of the Board and its committees for the duties they perform as stipulated in these Instructions. Such remuneration may be variable according to the evaluation of the performance of the Board, committees, and members, and the Bank's solvency and performance.
  j. It must include a mechanism for clawing back deferred remuneration granted to a manager if it is later found that there were issues with their performance, or that they exposed the Bank to high risks due to decisions within their authority and taken by them, where such risks could have been avoided.

Section Thirteen: Conflicts of Interest

- Managers must avoid conflicts of interest.
- The Board must approve a policy governing conflicts of interest in all their forms, including those arising from the Bank's relationship with companies within the banking group, and must approve the necessary procedures to ensure the adequacy of internal controls and oversight for monitoring compliance with this policy and preventing any breaches. This policy must include, at minimum, the following:
  1. Avoiding activities that create a conflict between the Bank's interest and any interest of any Bank manager or any member of the General Assembly, in any form.
- Immediate disclosure upon identifying any matter that has created, or may create, a conflict between the Bank's interest and any interest of any Bank manager or any member of the General Assembly, in any form.
- Board members must not disclose confidential information related to the Bank or use it for their own benefit or for the benefit of others. A representative of a legal person must also not disclose any confidential information discussed during Board or committee meetings to any person, including any manager of that legal person.
- A Board member must give priority to the Bank's interest in all transactions with any other company in which the member has a personal interest, must not take the Bank's business opportunities for their own benefit, must avoid conflicts of interest, and must disclose any conflict of interest to the Board in detail, if any. The member must not attend or participate in any decision taken at a meeting where such matter is discussed, and this disclosure must be recorded in the minutes of any Board or committee meeting.
- Examples of cases that may give rise to conflicts of interest, including conflicts between the interest of a Board member and the Bank's interest, between the interest of a General Assembly member and the Bank's interest, between the interest of a member of Executive Management and the Bank's interest, or between the interest of any company within the banking group, subsidiary, or affiliate of the Bank and the Bank's interest.

- Defining the Bank's related parties in line with applicable legislation, and determining the terms of transactions with such parties in a manner that ensures that a related party does not receive terms more favorable than those applied by the Bank to another customer with no relationship to the Bank. This includes all transactions between the Bank and any companies within the banking group of which the Bank is a part.
- Defining the nature of related-party transactions to include all types of transactions, and not limiting them to credit facilities only.
- The procedures followed by the Bank when cases of non-compliance with the policy are identified.
- The Board must approve a Code of Professional Conduct to ensure that the Bank conducts its business with a high level of integrity. The Code must include, at minimum, the cases that may give rise to conflicts of interest, and the Board must verify that it has been circulated to all administrative levels within the Bank.
- The Internal Audit Department must conduct an examination at least once a year to ensure that all transactions with the Bank's related parties have been carried out in accordance with applicable legislation, the Bank's internal policies, and approved procedures. It shall submit its reports and recommendations in this regard to the Audit Committee, and the Audit Committee shall inform the Central Bank immediately upon identifying any breach of applicable legislation or internal policies in this area.
- The Board must ensure that Executive Management conducts its business with a high level of integrity, avoids conflicts of interest, and implements approved policies and procedures objectively.
- The Board must approve controls for the flow of information between different departments, preventing its use for personal benefit.

Section Fourteen: General Provisions

- The principle of transparency shall be adopted when appointing members of Board committees. The names of the members of these committees and a summary of their duties and responsibilities shall be disclosed in the Bank's Annual Report.
- Some committees may be merged when needed, provided that such merger does not affect the responsibilities of the committees. The work of any committee may not be merged with the work of the Audit Committee.
- The Bank must notify the Central Bank at least thirty days before the date of the General Assembly meeting of its intention to nominate the external auditor for election or re-election by the General Assembly.
- The Bank shall take into account women's representation on the Board of Directors and in Senior Executive Management.
- The Bank must verify that no major shareholder in the Bank has any relationship, including a kinship relationship up to the third degree, with the Chief Executive Officer, or up to the first degree with any other member of Senior Executive Management.
- The Bank must provide the Central Bank with information related to Board members, Board committees, members of Senior Executive Management, and members of the General Assembly, in accordance with the Corporate Governance Instructions No. 2/2023 forms (4/1, 4/2, 4/3, 4/4), whenever any amendment occurs.
- The Bank must provide the Central Bank with information related to members of boards of directors or boards of managers and Senior Executive Management of its subsidiaries, including subsidiaries of subsidiaries, inside and outside the Kingdom, in accordance with the Corporate Governance Instructions No. 2/2023 forms (5/1, 5/2, 5/3), whenever any amendment occurs.
- The Bank must obtain the Central Bank's non-objection to the nomination of any member to the Board sufficiently before the date of the Bank's General Assembly meeting, by no less than one month. The Bank must inform any person wishing to stand for nomination that the Central Bank's non-objection is required.
- The Bank must provide the Central Bank with its general organizational structure whenever any amendment is made to it, with an explanation of such amendment.

Section Fifteen: Internal Control and Monitoring Environment

First: Organizational Structure

- The Bank's general organizational structure shall be prepared and approved by the Board. Sub-organizational structures for all units operating within the Bank shall also be prepared and approved by the Chief Executive Officer or Regional Manager, except for the sub-organizational structures of control departments at local banks, which shall be approved by the Board based on the recommendation of the relevant committee/body. These structures must show the reporting hierarchy and reflect lines of responsibility and authority in a detailed and clear manner. The general organizational structure must include, at minimum, the following:
  1. The Board and its committees.
  2. Executive Management and its committees.
  3. Separate departments for Risk Management, Compliance, and Internal Audit, enabling them to perform their duties with full independence, including not performing executive functions. Their reporting lines shall be shown as a solid line to the relevant committee and a dotted line to the Chief Executive Officer.
  4. Units that do not participate in executive work, such as credit review staff and the Middle Office.
  5. Subsidiaries and foreign branches.
- The Board must approve clear limits of responsibility, accountability, and commitment, and ensure their application at all administrative levels within the Bank.
- The Board must ensure that Senior Executive Management performs its responsibilities related to managing the Bank's day-to-day operations, contributes to the implementation of corporate governance within the Bank, delegates authorities to employees, establishes an effective management structure that promotes accountability, and carries out tasks in the various business areas and activities in accordance with the policies and procedures approved by the Board.
- The Board must approve appropriate control measures that enable it to hold Senior Executive Management accountable.
- Notwithstanding the provisions of the Companies Law, the positions of Chairman of the Board and Chief Executive Officer may not be combined. The Chairman of the Board, any Board member, or any major shareholder must not be related to the Chief Executive Officer up to the fourth degree.
- In addition to the matters set out in the legislation, the Chief Executive Officer shall work to:
  1. Develop the Bank's strategic direction.
  2. Implement the Bank's strategies and policies.
  3. Implement Board resolutions.
  4. Provide guidance for implementing short- and long-term business plans.
  5. Communicate the Bank's vision, mission, and strategy to employees.
  6. Inform the Board of all material aspects of the Bank's operations.
  7. Manage the Bank's day-to-day operations.
- A charter shall be approved for each of the Bank's departments, ensuring that responsibilities are clearly defined to avoid duplication in the performance of various tasks and to ensure a high level of accountability and responsibility.
- The Bank must provide the Central Bank with its general organizational structure whenever any amendment is made to it, with an explanation of such amendment.
- Job descriptions shall be prepared for all positions at the Bank to ensure the principles of accountability and responsibility, and to provide objective bases for performance measurement.

Second: Internal Control and Monitoring Systems

- The structure of internal control and monitoring systems shall be reviewed by the internal auditor and the external auditor at least once annually.
- The Bank shall establish procedures that enable employees to report, confidentially and in a timely manner, any concerns regarding the possibility of violations. These procedures shall allow such concerns to be investigated independently and followed up, and the implementation of these procedures shall be monitored by the Compliance Committee.

Third: Activating the role of the Departments Concerned with Managing the Bank's Risks and Internal Control over its activities, including the following departments:

Internal Audit:

The Internal Audit Department shall perform the following duties, at minimum:

1. Verify the adequacy of, and compliance with, internal control and monitoring systems for the activities of the Bank and its subsidiaries, and review and document any amendments made to the structure of these systems.
2. Develop the Internal Audit Charter and have it approved by the Board based on the recommendation of the Audit Committee, provided that it includes the duties, powers, and methodology of the Internal Audit Department.
3. Prepare an audit plan covering the Bank's activities, including the activities of other control departments and outsourced activities, based on the risk level of such activities, provided that the plan is approved by the Audit Committee.
4. Review compliance with the Corporate Governance Manual and related policies and charters annually, prepare a detailed report thereon, and submit it to the Audit Committee, with a copy to the Corporate Governance Committee.
5. Review the validity and comprehensiveness of stress testing, in accordance with the methodology approved by the Board.
6. Verify the accuracy of the procedures followed for the Internal Capital Adequacy Assessment Process (ICAAP).
7. Audit financial and administrative matters.
8. Follow up on violations and observations included in the reports of the regulatory authority and the external auditor, ensure that they are addressed, and verify the existence of appropriate controls by Executive Management to prevent their recurrence.
9. Ensure that the necessary procedures are in place to receive, process, and retain customer complaints, as well as observations related to the accounting system, internal control and monitoring, and audit processes, and submit periodic reports thereon.
10. Retain audit reports and working papers for a period consistent with the provisions of applicable legislation in this regard, in an organized and secure manner, and ensure they are available for review by the regulatory authority and the external auditor.

Risk Management:

1. Risk Management shall be provided with qualified human resources and the necessary training to continuously develop its performance.
2. The Board must ensure the independence of the Risk Management Department and grant it the necessary powers to enable it to obtain information from the Bank's other departments and cooperate with other committees to perform its duties.
3. The Board must verify that breaches of acceptable risk levels are addressed, including holding the relevant Senior Executive Management accountable for such breaches.
4. The Board must ensure that the Risk Management Department conducts stress testing periodically to measure the Bank's ability to withstand shocks and face high risks. The Board shall have a key role in approving the assumptions and scenarios used, discussing the test results, and approving the actions to be taken based on those results.
5. The Risk Management Department shall perform the following duties, at minimum:
   - Implement the risk management strategy, in addition to developing policies and work procedures for managing all types of risks.
   - Prepare risk management policy/policies covering all of the Bank's operations, setting clear measures and limits for each type of risk, and ensure that all employees, each according to their administrative level, are fully aware of them. These policies shall be reviewed periodically and approved by the Board.
   - Prepare a comprehensive Risk Appetite Statement for the Bank and have it approved by the Board.
   - Review the Bank's risk management framework and have it approved by the Board.
   - Prepare the Internal Capital Adequacy Assessment Process document, review it periodically, and verify its implementation, ensuring that it is comprehensive, effective, capable of identifying all risks the Bank may face, and takes into account the Bank's strategic plan and capital plan, provided that it is approved by the Board.

6. Develop methodologies for identifying, measuring, analyzing, assessing, and monitoring each type of risk.
7. Verify the integration of risk measurement mechanisms with the management information systems used.
8. Prepare the Business Continuity Plan and have it approved by the Board, provided that it is tested periodically.
9. Before launching or offering any new product, service, process, or system, ensure that it is aligned with the Bank's strategy, that all related risks, including operational, information security, and cyber risks, have been identified, and that the new controls and procedures, or any amendments thereto, are appropriate in light of the Bank's risk appetite limits.
10. Provide the necessary information on the Bank's risks for disclosure purposes.
11. Submit recommendations to the Risk Management Committee regarding the Bank's risk exposures, and record cases of exceptions to the Risk Management Policy.
12. Monitor the compliance of the Bank's executive departments with the defined risk appetite levels.
13. Submit reports to the Board through the Risk Management Committee, with a copy to the General Manager, including information on the actual risk profile of all Bank activities compared with the Risk Appetite Statement, and follow up on the remediation of negative deviations. Executive Management may request special reports from the Bank's Risk Management Department as needed.

Compliance Management:

1. The Board must ensure the independence of Compliance Management, that it is not assigned any executive duties, and that it continues to be provided with sufficient, trained, and adequately rewarded staff.
2. The Board must approve the duties of the Compliance Department, provided that these duties include, at minimum, the following:
   - Preparing a Compliance Policy to ensure the Bank's compliance with all relevant legislation, and ensuring that all employees, each according to their administrative level, are fully aware of it, provided that the policy is approved by the Board.
   - Preparing an annual compliance plan, provided that it is approved by the Compliance Committee.
   - Monitoring the compliance of all administrative levels within the Bank with all regulatory requirements, applicable legislation, and international standards, including the recommendations of the Financial Action Task Force.
   - Preparing periodic reports covering the assessment of non-compliance risks, violations, deficiencies, and corrective actions taken, and submitting them to the Compliance Committee, with copies to the Chief Executive Officer.

Fourth: Activating the Role of the External Auditor:

1. The Bank must ensure the regular rotation of the external auditor at least every seven years. The external auditor may not be changed during the contract period except after obtaining the Central Bank's approval and based on material reasons. The previous audit firm may not be re-elected until at least three years have passed from the date of its last election by the Bank.
2. The Audit Committee must verify the qualifications and effectiveness of the external auditor and ensure that the engagement letter clearly includes the audit scope, fees, contract period, and any other terms, in a manner proportionate to the nature of the Bank, the size of its business, the complexity of its operations, and its risks.
3. The external auditor shall meet with the Audit Committee, without Executive Management present, at least once annually.
4. The Bank must prepare an External Audit Policy and have it approved by the Board. The policy shall be amended whenever necessary and must include, at minimum, the following:
   - Mechanism for nominating and appointing the audit firm.
   - Mechanism for determining the audit firm's fees.
   - Periodic rotation of the audit firm and audit teams.
   - External auditor independence requirements, as stipulated in paragraph (d) of this Article, as a minimum.
   - Duties of the audit firm and audit team.
   - Relationship between the Audit Committee and the audit firm and audit team.
   - Additional services outside the scope of audit services that may be assigned to the audit firm.

- Criteria for selecting the audit firm and the responsible partner, taking into account the following minimum requirements:
  a. Audit Firm:
    - The number of partners responsible for audit at the firm must not be less than two.
    - The firm, or the international firm of which it is a member, must have appropriate experience of not less than 10 years in auditing banks.

  b. Responsible Partner:
    - Must be of good conduct and have a good professional reputation.
    - Must not have been convicted of a felony or misdemeanor involving dishonor or breach of trust.
    - Must hold a valid practicing license to practice the audit profession and be registered in the Jordanian Certified Public Accountants Register in accordance with the provisions of the Law Regulating the Practice of the Certified Public Accountancy Profession.
    - Must not have been barred from practicing the profession during the last five years, or have had a final criminal judgment issued against them as a result of committing a professional error or legal violation related to practicing the profession.
    - Must hold at least a first university degree in accounting or any discipline related to banking activities.
    - Must hold one of the professional certificates in accounting or auditing from an internationally recognized professional association of certified accountants or auditors, recognized by the Jordanian Association of Certified Public Accountants.
    - Must have practical experience in auditing for at least 10 years, including at least seven years in auditing banks, and must be familiar with banking activities, their risks, and the related legislation, including instructions issued by the Central Bank.

5. The Audit Committee must verify the independence of the external auditor at the beginning of, and throughout, the contract period, in a manner that ensures there is no conflict of interest between the Bank and the external auditor. The Board must ensure this and verify that the contract terms with the external auditor include, at minimum, the following:
   - The external auditor may not be a member of the Board or of the board of directors/board of managers of any of the Bank's subsidiaries.
   - The external auditor may not permanently perform, during the audit engagement, any technical, administrative, or advisory work for the Bank or any of its subsidiaries.
   - The external auditor may not be a partner with any member of the Board, the General Assembly, Senior Executive Management of the Bank, any member of the General Assembly, or any member of the board of directors/board of managers or Senior Executive Management of any of the Bank's subsidiaries.
   - There may be no kinship relationship up to the second degree between the responsible partner or any audit team member and any Board member, General Assembly member, Senior Executive Management member of the Bank, or any of its subsidiaries.
   - The external auditor may not own, trade in, or speculate in the shares of the Bank or any of its subsidiaries, whether directly or indirectly.
   - The external auditor may not combine the audit of the Bank's accounts with any additional services outside the scope of audit services assigned to the firm.

Fifth: Disclosure

- The Board must ensure the publication and availability of meaningful financial and non-financial information relevant to stakeholders regarding the Bank's activities, to the Central Bank, shareholders, depositors, other banks, and the public in general, with a focus on issues of concern to shareholders.
- The Board of Directors shall approve the Disclosure Policy, which clearly defines all matters requiring disclosure by the Bank, as well as the frequency and methods of disclosure.
- The Board must ensure that the Bank complies with the disclosures required under International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Central Bank instructions, and other relevant legislation, and must ensure that Executive Management is aware of changes to IFRS.
- The Bank's management is responsible for ensuring full compliance with all amendments to IFRS.

- The Bank must be aware of changes in international financial reporting practices and the level of transparency required from financial institutions.
- Executive Management shall submit reports to the Board on developments in disclosure, in addition to recommendations on ways to enhance the Bank's disclosure practices beyond the requirements of the Central Bank of Jordan in this regard.
- The Board must ensure that the Corporate Governance Manual is published on the Bank's website and by any other appropriate means for public access. The Bank must disclose in its Annual Report that it has a Corporate Governance Manual and the extent of its compliance with the provisions thereof.
- The Bank's Annual Report must include a statement that the Board is responsible for the accuracy and adequacy of the Bank's financial statements and the information contained in that report, and for the adequacy of internal control and monitoring systems.
- The Board must ensure that the Bank's Annual Report and quarterly reports include disclosures that enable current or potential shareholders to review the Bank's operating results and financial position.
- The Board of Directors must ensure that the Annual Report includes, at minimum, the following:
  1. A summary of the Bank's organizational structure.
  2. A summary of the duties and responsibilities of Board committees and any powers delegated by the Board to these committees.
  3. Information relevant to stakeholders as set out in the Bank's Corporate Governance Manual.
  4. Information on each Board member, including qualifications, experience, shareholding in the Bank's capital, whether the member is independent, membership in Board committees, date of appointment, and any memberships held on the boards of directors of other companies.
  5. Information on the Risk Management Department, including its structure, nature of operations, and developments affecting it.
  6. Number of Board and committee meetings and each member's attendance at those meetings.
  7. Names of Board members and Senior Executive Management members who resigned during the year.
  8. A summary of the Bank's Remuneration Policy, with disclosure of all forms of remuneration for each Board member separately, and all forms of remuneration granted to each member of Senior Executive Management separately, for the previous year.
  9. Names of shareholders holding 1% or more of the Bank's capital, identifying the ultimate beneficial owners of these shareholdings or any part thereof, and indicating whether any of these shareholdings are fully or partially pledged.
  10. Declarations from all Board members that the member did not obtain any benefits through their work at the Bank that were not disclosed, whether such benefits were material or in-kind, and whether for the member personally or for any related party, during the previous year.

Sixth: Stakeholders' Rights

The principles of corporate governance require that all stakeholders be treated with fairness, transparency, and disclosure, enabling stakeholders to assess the Bank's position, including its financial performance. They also require that the relationship between Management and stakeholders be governed by rules of accountability. Accordingly, the following must be observed:

1. The Board must provide a specific mechanism to ensure communication with stakeholders through disclosure and the provision of meaningful information on the Bank's activities to stakeholders through the following:
   - General Assembly meetings.
   - The Annual Report.
   - Quarterly reports containing financial information, in addition to the Board's report on the trading of the Bank's shares and its financial position during the year.
   - The Bank's website.
   - The Shareholder Relations Department.
2. The Board must ensure that a section of the Bank's website is dedicated to explaining shareholders' rights and encouraging them to attend and vote at General Assembly meetings, as well as publishing the relevant meeting documents, including the full text of the invitation and the meeting minutes.

Section Sixteen: Duties of Executive Management:

1. Implementing and managing the Bank's activities in accordance with the strategies/policies approved by the Board, and the systems, risk management processes, operations, and controls necessary to manage all types of risks to which the Bank is exposed, in a manner that ensures the approved risk appetite levels set by the Board are not exceeded, and ensures compliance with all applicable legislation and the Bank's internal policies.
2. Verifying the existence of comprehensive work procedures for all Bank activities, in line with applicable legislation and the strategies/policies approved by the Board. These procedures shall be approved by the Chief Executive Officer or the Regional Manager of the foreign bank branch, except for control departments, where approval must be obtained from the relevant committee/body, and ensuring that such procedures are implemented.
3. Preparing the financial statements.
4. Preparing the Bank's general organizational structure and having it approved by the Board, as well as preparing the sub-organizational structures for all units operating within the Bank and having them approved by the Chief Executive Officer or Regional Manager. The sub-organizational structures of control departments at local banks shall be approved by the Board based on the recommendation of the relevant committee/body. These structures must show the reporting hierarchy and clearly reflect lines of responsibility and authority in detail. The general organizational structure must include, at minimum, the following:
    a. The Board and its committees.
    b. Executive Management and its committees.
    c. Separate departments for Risk Management, Compliance, Internal Audit, and Internal Sharia Audit, enabling them to perform their duties with full independence, including not performing executive functions. Their reporting lines shall be shown as a solid line to the relevant committee and a dotted line to the Chief Executive Officer.
    d. Units that do not participate in executive work, such as credit review staff and the Middle Office.
    e. Subsidiaries and foreign branches.

5. Preparing an annual budget, having it approved by the Board, and submitting periodic performance reports to the Board showing deviations between actual and budgeted performance and the reasons for such deviations.
6. Refraining from any practices that may affect the independence and objectivity of control departments. Cooperation between these departments and the various Bank units and Executive Management is essential for fulfilling their duties. These departments must inform Senior Executive Management of any significant matters requiring immediate corrective action once identified, without prejudice to their right to inform the relevant committee/body of such matters.
7. Providing the regulatory authority, external audit, internal audit, and any competent parties, within the timeframe specified by such parties, with the required information and statements necessary for them to perform their duties effectively.
8. Preparing the Bank's Code of Professional Conduct, having it approved by the Board, and circulating it to all Bank managers.
9. Developing the skills and professional conduct of the Bank's employees to align with the latest standards of ethics and professional business conduct.
10. Verifying the existence of appropriate controls for each activity or process, and ensuring administrative and operational segregation between approval and execution duties.
11. In addition to the matters set out in applicable legislation, the Chief Executive Officer shall work to:
    a. Develop the Bank's strategic direction.
    b. Implement the Bank's strategies and policies.
    c. Implement Board resolutions.
    d. Provide guidance for implementing short- and long-term business plans.
    e. Establish mechanisms to communicate the Bank's vision, mission, and strategy to employees.
    f. Inform the Board of all material aspects of the Bank's operations.
    g. Manage the Bank's day-to-day operations.
    h. Approve a detailed description of the duties of each organizational unit, except for control departments, where approval must be obtained from the relevant committee/body, and ensure that all Bank employees are informed of it according to their respective areas of responsibility.

Section Seventeen: Schedule of Amendments to the Manual

Procedure Name / Policy Number Amendment Subject / Amendment Summary	Amendment Date	Decision Number	Name of Responsible Person	Requesting Department Name for the Amendment
Preparation of the Manual for the first time		04/2014	Risk Management and Compliance	Board of Directors Resolution
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 58/2014 and the amendments thereto	23/4/2015	22/2015	Compliance Management	Board of Directors Resolution
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 58/2014 and the amendments thereto	1/12/2015	63/2015	Compliance Management	Board of Directors Resolution
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 2014/58 and the amendments thereto, including the following amendments: 1. Updating duties within the responsibilities of the Board of Directors in the areas of risk management and regulatory requirements / appointments and succession / control and monitoring systems. 2. Updating the duties and responsibilities of the Audit Committee related to financial reports and disclosure requirements / internal control and monitoring systems / external auditor / compliance. 3. Updating the Audit Committee Charter in terms of the method of calling committee meetings. 4. Amending the membership of the Compliance Committee in terms of the number of members and quorum.	28/02/2016	15/2016	Compliance Management	Board of Directors Resolution
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 63/2016 and the amendments thereto	09/10/2016	40/2016	Compliance Management	Board of Directors Resolution
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 63/2016 and the amendments thereto	28/09/2020	30/2020	Compliance Management	Board of Directors Resolution
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 2/2023 dated 14/2/2023	14/05/2023		Compliance Management	
Amendment of the Manual in accordance with the Corporate Governance Instructions for Banks No. 2/2023 dated 14/2/2023	22/08/2024	46/2024	Compliance Management	Board of Directors Resolution
The duties and responsibilities of the Board were added in line with Credit Exposure Classification Instructions No. 8/2024 - The section related to the Credit Facilities Committee Charter was amended to become: "Decisions falling within the authority of the Board of Directors according to the approved authority matrix: the necessary approvals shall be obtained via email, whereby the credit study and details of the decision shall be sent to Board members to obtain their approval by email, or through holding a meeting via audiovisual communication means if necessary, provided that the response is received within one working day." - The section related to the Risk Committee Charter was amended in line with Exposure Instructions No. 8/2024 and the Green Finance Strategy 2023-2028, noting that the amendments were presented to the Risk Committee and approved on 1/10/2024. - The section related to the Audit Committee Charter was amended, presented to the Audit Committee, and approved by the Board under Resolution No. 59/2024.	25/02/2025	Pursuant to Board of Directors Resolution No. 7-2025 dated 09-02-2025.	Compliance Management	Board of Directors Resolution

Section Eighteen: Board Committees:

The following committees emanate from the Board of Directors, or any other committees the Board deems necessary to establish, to direct, follow up, and monitor the Bank's work, and to submit periodic reports and recommendations thereon to the Board of Directors:

- Audit Committee
- Risk Committee
- Corporate Governance Committee
- Nomination and Remuneration Committee
- Compliance Committee
- Information Technology Governance Committee
- Credit Facilities Committee

The quorum for any committee meeting may not be less than three members, including the Committee Chairman. A substitute member may not be appointed to attend any committee meeting in the absence of the original member. Board members may also attend Board and committee meetings through any means of audiovisual communication, provided that the Chairman of the Board and the Secretary certify the minutes and legal quorum of the Board meeting, and the Committee Chairman and Secretary certify the minutes and legal quorum of the committee meeting.

No Board member may chair more than one of the committees mentioned below, nor may any Board member chair more than two of all committees emanating from the Board. The powers of any Board committee stipulated in these Instructions may not be delegated to any other authority. Banks are also prohibited from forming any committee with executive powers, except for the Credit Facilities Committee. These committees must submit periodic reports to the Board, and the existence of these committees does not exempt the Board as a whole from bearing its responsibilities.

The following sets out the duties, authority, and membership of each of these committees:

Audit Committee:

First: Committee Objectives

1. The Board of Directors forms the Audit Committee, which is entrusted with supervising internal and external audit activities at the Bank level.
2. The Committee aims to assist the Board of Directors in performing its duties related to oversight and monitoring of financial reporting, the internal control and monitoring systems environment, the audit process, compliance with the legislation governing the Bank's activities, and activating the role of the external auditor at the Bank level. It also aims to enhance the effectiveness of risk management, internal control systems, and corporate governance through the performance of its various responsibilities.
3. The responsibility of the Audit Committee does not replace the responsibility of the Board of Directors to ensure the soundness of the Bank's financial position and solvency, and to approve appropriate policies and procedures for monitoring the Bank's activities by verifying the adequacy of internal control and monitoring systems.

Second: Legislative Frameworks

The work of the Audit Committee is governed by legislation and laws, in addition to instructions and guidelines issued by the Central Bank of Jordan, which set requirements, standards, and duties that emphasize the importance of the Committee's role, including:

1. Applicable legislation and instructions in force in Jordan regulating banking activities:
   - The Banking Law and the regulations and instructions issued pursuant thereto.
   - Corporate Governance Instructions for Banks issued by the Central Bank of Jordan.
   - Instructions on Information Technology Governance and Accompanying Technology issued by the Central Bank of Jordan.

2. International Financial Reporting Standards (IFRS).
3. The International Professional Practices Framework (IPPF) issued by the Institute of Internal Auditors.
4. Securities Commission Instructions and the applicable Corporate Governance Instructions for Listed Shareholding Companies issued by the Securities Commission.

Third: Committee Formation

1. The Committee is formed pursuant to a resolution issued by the Board of Directors, specifying its members and appointing its Chairman.
2. The Audit Committee shall consist of at least three members, provided that the majority of Committee members hold academic qualifications in accounting or finance, or professional certificates in either of these fields, and have appropriate practical experience in accounting, finance, external audit, internal audit, or banking.
3. The majority of Committee members, including the Committee Chairman, shall be independent members.
4. The Committee Chairman may not be the chairman of any other committee emanating from the Board, and the Committee may not include the Chairman of the Board.
5. No member of the Audit Committee, including the Committee Chairman, may be a member of the Higher Credit Facilities Committee emanating from the Board of Directors.
6. The work of any other committee may not be merged with the work of this Committee.
7. None of the powers of the Audit Committee stipulated in the Corporate Governance Instructions may be delegated to any other authority.
8. The Audit Committee may not have any executive powers.

Fourth: Committee Work Procedures

Meeting Frequency:

The Committee shall meet at least four times during the year, taking into account the dates of issuance of the actual financial statements, provided that no period of three months passes without holding a Committee meeting.

Calling for Meetings:

1. The Committee meets upon invitation by the Committee Chairman, pursuant to a decision of the Bank's Board of Directors, or at the request of its other members. The Committee also meets at the request of the external auditor or the Chief Internal Audit Officer if the Committee deems this necessary.
2. The Committee Secretary prepares the meeting agenda in agreement with the Committee Chairman and sends it to the Board Secretary, together with the documents and reports to be discussed by the Committee.
3. The agenda and meeting documents are sent to all members at least one week before the meeting, except in exceptional cases agreed with the Committee Chairman, by the Board Secretariat.
4. Committee members may attend meetings through any means of audiovisual communication, provided that the Committee Chairman and Committee Secretary certify the meeting minutes and quorum.

Meeting Minutes:

1. The Committee appoints a rapporteur. If the rapporteur is absent from the meeting, another person shall be delegated to perform this task for that meeting, as determined and invited by the Committee.
2. The Board Secretary shall serve as the Committee Rapporteur. Their duties include presenting and discussing reports and accurately recording all deliberations, proposals, objections, reservations, and voting on draft Committee resolutions.
3. The Board Secretary shall act as Secretary of the Audit Committee.
4. The Audit Committee Secretary drafts the meeting minutes and sends them to the Committee Chairman and members.
5. The Board Secretary reviews the minutes, records the names of members present, absent, and invited, ensures that the minutes include the Committee's deliberations, decisions, and recommendations, submits the Committee's recommendations to the Board of Directors, and informs the Committee of the Board's decision regarding them.
6. The Committee Secretary must verify and disclose any conflict of interest in the meeting minutes.
7. The meeting proceedings must be written down and the draft minutes circulated to all Committee members.
8. If resolutions are passed by circulation, they must be recorded with details in the minutes of the next Committee meeting.
9. The final version of the meeting minutes shall be kept by the Board Secretary and made available to all members of the Audit Committee.

Quorum:

1. The quorum for a Committee meeting may not be less than three members, including the Committee Chairman. A substitute member may not be appointed to attend any committee meeting in the absence of the original member.
2. Once the quorum is met, the Committee has the right to exercise all powers and duties assigned to it by the Board of Directors.

Committee Decisions:

1. Decisions are taken and recommendations/decisions are approved by the majority of the Committee members present, provided that the number is not less than three members. In the event of a tie, the side supported by the Committee Chairman shall prevail.
2. Decisions may be passed by circulation as follows:
    1. The Audit Committee Secretary, at the request of the Committee Chairman, ensures that all information, data, and documents necessary for taking the decision are circulated.
    2. The decision is passed by majority approval of the members.

3. The Committee Secretary notifies the relevant parties of the decisions/recommendations issued by the Committee, and the Board Secretary submits recommendations that require Board approval at the first Board meeting.

Fifth: Duties and Responsibilities of the Committee

The nature of the Audit Committee's responsibility is supervisory and does not replace the responsibility of the Board of Directors and the Bank's Executive Management with regard to overseeing the adequacy and effectiveness of internal control systems. The responsibility for the effectiveness of internal control systems rests with Executive Management. The Committee's responsibilities include the following:

A. At the level of the internal control structure and financial statements:
    1. Considering any matter referred to it by the Board.
    2. Ensuring that Internal Audit reviews compliance with the approved Corporate Governance Manual and its related policies and charters annually at the Bank, prepares a detailed report thereon, and submits it to the Audit Committee, with a copy to the Corporate Governance Committee.
    3. Ensuring full compliance with the laws, regulations, policies, and orders governing the Bank's activities.
    4. Ensuring that Internal Audit follows up on violations and observations included in the reports of regulatory authorities and the external auditor, ensures that they are addressed, and verifies that Executive Management has appropriate controls in place to prevent their recurrence, in coordination with the Compliance Department.
    5. Verifying that the Internal Audit Department conducts an examination at least once a year to ensure that transactions with the Bank's related parties have been carried out in accordance with applicable legislation, internal policies, and approved procedures. The Audit Committee shall inform the Central Bank immediately upon identifying any breach of applicable legislation or internal policies in this area.
    6. Reviewing and monitoring the whistleblowing policy and procedures, which enable employees to confidentially report any error in financial reports or any other matters, and ensuring that the necessary arrangements are in place for independent investigation and for following up on and objectively addressing the results of the investigation, in coordination with Compliance.
    7. Reviewing the Bank's annual, semi-annual, and quarterly consolidated financial statements before presenting them to the Board of Directors, reviewing their compliance with legislation and international standards, and submitting recommendations thereon, including verifying compliance with Central Bank instructions related to the adequacy of provisions taken against doubtful debts, securities portfolio provisions, and any other provisions, taking into account the following:
        - Obtaining a certificate from the external auditor on the adequacy of provisions / expected credit losses for facilities, investments, contingent liabilities, the need for any additional provisions, the accuracy of calculating suspended interest and profits, and the correctness of calculating impairment in goodwill, if any.
        - Providing an opinion on the Bank's non-performing debts or debts proposed to be considered bad debts, particularly regarding the adequacy of the procedures taken and provisions made against them.
        - Discussing cases filed against the Bank, the adequacy of their provisions, and obtaining the legal advisor's opinion thereon.
        - Accounting matters that have a material impact on the financial statements, such as any change in accounting policies, any unusual transactions, any matters whose assessment is highly subject to judgment, the accuracy and soundness of accounting and control procedures, the extent of compliance with them, and obtaining the external auditor's opinion on the correctness of accounting treatments for any amendments to the financial statements.

8. Ensuring the Bank's compliance with International Financial Reporting Standards (IFRS), International Standards on Auditing (ISA), the disclosures required thereunder, Central Bank instructions, Securities Commission instructions, and other relevant legislation, and ensuring that Executive Management is aware of changes to these standards and that reports thereon are submitted to the Board of Directors.

B. At the Internal Audit Level:
   1. Submitting recommendations to the Board of Directors regarding the appointment, transfer, promotion, or assignment of the Chief Internal Audit Officer, provided that the Central Bank's non-objection is obtained.
   2. Submitting recommendations to the Board of Directors regarding the acceptance of the resignation of the Chief Internal Audit Officer or the termination of their services, provided that the Central Bank's non-objection is obtained for the resignation or termination. The Central Bank may summon any manager at the Bank to verify the reasons for the resignation or termination of services.
   3. Verifying that Internal Audit is capable of performing the duties and responsibilities assigned to it under the applicable instructions.
   4. Evaluating the Chief Internal Audit Officer and determining their remuneration in line with the performance evaluation policy approved by the Board.
   5. Senior Management provides comments on the performance objectives of the audit function, KPIs, to support the Audit Committee in the annual evaluation of the audit function and the Chief Internal Audit Officer.
   6. Ensuring that the Bank's internal auditor and external auditor, when carrying out specialized information and technology audits at the Bank level, comply with the following:
      - Information technology auditing standards in accordance with the latest update of the Information Technology Assurance Framework (ITAF) issued by ISACA.
      - Examining, evaluating, and reviewing the processes for employing and managing information technology resources, and the Bank's and subsidiaries' operations based on them, and providing an overall opinion on the total level of information and related technology risks within an audit program aligned with COBIT-based information and related technology governance and management instructions.
   7. Reviewing the Internal Audit Charter and recommending its approval to the Board, provided that it includes the duties, powers, and responsibilities of Internal Audit and its work methodology, taking into account Senior Management's comments if the Board/Audit Committee deems this appropriate.
   8. Approving risk-based audit plans and ensuring that they include the following:
      - Verifying that all activities are subject to audit according to the risk-based approach, including outsourced activities.
      - Verifying the adequacy of internal control and monitoring systems for the Bank's activities and compliance with them, and reviewing and documenting any amendments made to the structure of these systems.
      - Regulatory requirements, such as verifying the rotation of Internal Audit staff in auditing the Bank's activities at least every three years, and reviewing and approving the justifications if this cannot be achieved in certain areas, such as information technology and cybersecurity audit.
      - Ensuring that there are no limitations that hinder the implementation of these plans.
      - Corporate risks that must be focused on when preparing and implementing internal audit plans, in coordination between the Chairman of the Audit Committee, the Chief Executive Officer, and the Chief Internal Audit Officer.
   9. Reviewing, on a quarterly basis, the progress achieved against approved audit plans, advisory engagements, regulatory requirements, and any deviations or material changes to these plans, if any, and identifying the reasons for such changes, such as resource limitations and their impact on plan implementation, or any external circumstances or reasons, and informing the Board of any observations the Committee deems material.
   10. Ensuring that Internal Audit prepares a strategy based on a clear vision and objectives that support the Bank's strategic objectives and align with the expectations of the Audit Committee and other stakeholders, that it is reviewed periodically or whenever necessary, and that its implementation is monitored through the audit function's KPIs.
   11. Reviewing the organizational structure of the Internal Audit Department and recommending its approval to the Board of Directors.
   12. Reviewing the Internal Audit Department's budget with the Chief Internal Audit Officer to ensure the adequacy of human, financial, and technological resources, the availability of a sufficient number of qualified staff, and their participation in specialized training programs, including in corporate governance, to enable Internal Audit to perform its work effectively and efficiently.

13. Reviewing the quarterly audit report, which includes significant-risk audit observations, key recommendations issued under internal audit memoranda or investigation results, emerging risks, progress achieved against internal audit plans, and other matters. This report also serves as a report on the internal control and monitoring system.
14. Ensuring the independence and objectivity of Internal Audit and that it is not assigned any executive duties.
15. Taking the necessary measures to enhance the effectiveness of Internal Audit by giving due importance to the audit function and embedding this within the Bank; ensuring and strengthening the independence of internal auditors; assigning them an appropriate position within the Bank's career hierarchy; ensuring that they possess the knowledge, skills, and competence necessary to perform their duties; and ensuring their right of access to all records and information and to communicate with any Bank manager, enabling them to perform their assigned duties and prepare their reports without any interference.
16. Meeting with the Chief Internal Audit Officer, without Executive Management present, at least once annually.
17. Approving Internal Audit work procedures when prepared or updated, and ensuring their implementation.
18. Obtaining the prior approval of the Chairman of the Audit Committee for the Chief Executive Officer to assign assurance or advisory tasks to Internal Audit if the total working days for such tasks exceed the time previously allocated to them within the internal audit plans, provided that they are related to fraud cases or significant errors and do not affect the independence of Internal Audit.
19. Ensuring that Internal Audit complies with the International Standards for the Professional Practice of Internal Auditing issued by the Institute of Internal Auditors, including conducting an independent external assessment of the internal audit activity at least once every five years, as required by international auditing standards, and ensuring that the Central Bank is provided with a copy of this assessment.
20. Reviewing the results of formal investigations in which Internal Audit participates, reviewing corrective actions taken by Executive Management where needed, and informing the Board of Directors of any observations the Committee deems material.
21. Ensuring that Internal Audit keeps pace with sound best practices in the event of any emergency requiring such action, through urgent bulletins and other publications issued by professional or specialized audit bodies.
22. Ensuring, at least annually, that all responsibilities referred to in the Charter are being fulfilled.
23. The Essential Conditions appendix forms an integral part of this Charter, representing the responsibilities of the Audit Committee, the Board, and Senior Management toward Internal Audit, which are essential to enabling Internal Audit to achieve its objectives.
24. Ensuring that Internal Audit supervises audit activities in the Bank's subsidiaries and reviews audit reports on the performance of these activities.

C. At the External Audit Level:

1. The Audit Committee submits recommendations to the Board regarding the appointment of the external auditor, termination of their engagement, fees, and any terms related to contracting with them, including any other work the Committee intends to assign to them, in addition to assessing their independence.
2. Verifying the independence of the external auditor at the beginning of, and throughout, the contract period, in accordance with the contract terms set out in the Corporate Governance Instructions for Banks.
3. Verifying the qualifications and effectiveness of the external auditor, and ensuring that the engagement letter clearly sets out the audit scope, fees, contract period, and any other terms, in a manner proportional to the nature of the Bank, the size of its business, the complexity of its operations, and its risks.
4. Meeting with the external auditor at least once annually, without the presence of any members of Senior Executive Management.

Sixth: Powers of the Audit Committee

The Audit Committee shall have the following powers:

1. Obtain any information from the Bank's Executive Management, and it has the right to summon any manager to listen to and discuss matters with them, either directly or through the Chief Internal Audit Officer.
2. Invite any person, including any other Board member, the external auditor, or Executive Management, to attend its meetings.
3. Meet with the Chief Internal Audit Officer, the Chief Compliance Officer, and the external auditor at least once annually, without the presence of any other members of Senior Executive Management.
4. Request legal, financial, administrative, or technical advice from any external consultant.
5. Outsource the internal audit role for areas that require specialized skills and knowledge, such as information technology and related technology audits (Internal IT Audit), to external specialized parties that are fully independent from the appointed external auditor in this regard, with the approval of the Board of Directors, and ensure that an annual report is sent to the Central Bank showing the Bank's compliance with the Instructions on Information and Related Technology Governance and Management (COBIT).

Seventh: Disclosure

The Bank's Annual Report shall include a summary of the Committee, a description of its duties and activities during the year, and the names, qualifications, and meetings of the Committee members.

Eighth: General Provisions

1. No Board member may chair more than one of the committees stipulated in Corporate Governance Instructions No. 2/2023 issued on 14/2/2023: Corporate Governance Committee, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Compliance Committee, and Credit Facilities Committee. No Board member may chair more than two of all committees emanating from the Board. Any member serving on the Credit Facilities Committee may not serve on the Audit Committee.
2. The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.
3. No committee may be formed with any executive powers, except for the Credit Facilities Committee stipulated in the Corporate Governance Instructions.
4. This Charter shall take effect once approved by the Board of Directors, except where rules and laws expressly provide otherwise. It may be amended at any time pursuant to a decision of the Board of Directors and shall be reviewed periodically or whenever necessary.

Risk Committee:

First: Committee Objective

To ensure that all risks to which the Bank is exposed, or may be exposed, are managed efficiently in order to mitigate their impact on the Bank's various activities, and to ensure the sound management of these risks and their alignment with the Bank's strategy, with the aim of maximizing equity and maintaining the Bank's growth within the approved risk framework.

Second: Committee Formation

- The Committee shall consist of at least three members, provided that the majority of its members, including the Committee Chairman, are independent members.
- Committee members must have sufficient knowledge and understanding of the principles of risk management in banks.
- They must have full knowledge of the instructions of the Central Bank of Jordan and regulatory authorities.
- Members must hold academic qualifications and/or practical experience in financial management and banking.
- The Board of Directors may appoint the Committee Chairman when forming or re-forming Board committees.
- A member may not delegate another person to represent them on the Committee.
- The Committee Rapporteur and Secretary: the Chief Risk Officer shall act as the Committee Rapporteur, and the Board Secretary shall act as the Committee Secretary. The Rapporteur's duties include presenting and discussing reports and accurately recording all deliberations, proposals, objections, reservations, and voting on draft Committee resolutions.
- The Chief Executive Officer shall be invited to attend meetings when needed. The Secretariat shall inform the Chief Executive Officer, or their deputy, of the Committee meeting date so that they are present at the Bank during the meeting time, and shall provide them with the Committee agenda.

Third: Committee Work Procedures

- Committee meetings: The Committee shall meet at least once every three months and whenever necessary.
- Invitation: The Committee meets upon invitation by the Committee Chairman or the Secretary based on the Committee Chairman's instructions. The agenda and meeting materials shall be sent to all members sufficiently in advance. The Committee Chairman may delegate whomever they deem appropriate for this task.
- Meeting materials: All Committee members shall be provided by the Committee Rapporteur with a comprehensive set of documents, including the agenda, the minutes of the previous Committee meeting, and any other documents prepared for discussion during the meeting.
- Meeting minutes: The minutes shall be prepared by the Committee Rapporteur, accurately reflecting the Committee's discussions, and shall be signed by the members present at the following meeting.
- Quorum: The quorum for a Committee meeting may not be less than three members, including the Committee Chairman. A substitute member may not be appointed to attend any committee meeting in the absence of the original member.
- Committee members may attend meetings through any means of audiovisual communication, provided that the Committee Chairman and Committee Secretary, the Chief Risk Officer, certify the meeting minutes and quorum.

Committee Decisions

1. Decisions may be passed by circulation as follows:
   - The Board Secretary, at the request of the Committee Chairman, ensures that all information, data, and documents necessary for taking the decision are circulated.
   - The decision is passed by majority approval of the members.
2. The Committee Rapporteur notifies the relevant parties of the decisions issued by the Committee, and the Secretary submits decisions requiring Board approval at the first Board meeting.

Fourth: Committee Duties

1. Reviewing the risk management framework, including risk management governance, risk appetite, risk profile, the risk management strategy, and the general reporting framework.
2. Verifying the availability of policies and tools to identify, measure, analyze, assess, and monitor risks, with such policies and tools reviewed at least annually and amended when necessary.
3. Ensuring that the Bank manages its various risks efficiently and assumes appropriate risks in return for appropriate returns.
4. Recommending that the Board approve risk management policies, including credit risk, operational risk, market risk, liquidity risk, interest rate risk, climate change risk, environmental and social risk policies, as well as the investment policy, cybersecurity policy, cybersecurity program, business continuity plan, and contingency plan, provided that these are reviewed annually by Risk Management.
5. Verifying the effectiveness of the Risk Management Department's work procedures and assessing the extent of Executive Management's compliance with approved policies and procedures.
6. Verifying that breaches of accepted risk levels are addressed, including communicating with the relevant Senior Executive Management regarding such breaches and reporting them to the Board of Directors.
7. Keeping abreast of developments affecting the Bank's risk management.
8. Verifying the existence of tools to identify, measure, analyze, assess, and monitor the various types of risks to which the Bank may be exposed, while keeping abreast of developments affecting the Bank's risk management.
9. Verifying the availability of a risk management system that ensures the accuracy and adequacy of the data used, and the availability of the necessary tools and means to identify, measure, analyze, assess, and monitor risks and the losses that may arise from them, and to maintain the capital required to address them, including, but not limited to:
    - Risk self-assessment and setting risk indicators.
    - Preparing a historical loss database, identifying the sources of such losses, and classifying them according to risk type.
    - Availability of the necessary equipment, appropriate automated systems, and quantitative tools.
10. Reviewing observations included in Central Bank reports and external auditor reports regarding the Bank's risk management, and following up on the actions taken in relation thereto.
11. Studying any matter referred to it by the Bank's Board of Directors or any matter the Committee deems necessary to examine, and providing its opinion thereon.
12. Approving the Internal Capital Adequacy Assessment methodology, taking into account the Bank's strategic plan and capital plan, reviewing the methodology periodically, and ensuring that the Bank maintains sufficient capital to cover all risks it faces.
13. Approving the Stress Testing Policy, discussing the test results periodically, and approving the actions to be taken based on those results, including stress tests related to climate risks.
14. The Committee must submit periodic reports to the Board of Directors showing the extent to which existing risks are aligned with the policies and accepted risk levels, enabling the Board to take appropriate decisions and follow up on their remediation. The Committee shall also submit a report to the Bank's Board of Directors immediately upon identifying any material changes affecting the Bank's financial position, in order to take the necessary corrective actions after receiving the quarterly reports on credit exposure classification and impairment allowance calculations from the Risk Department, in line with Exposure Instructions No. 08/2024, and provide the Central Bank with a copy of the report within no more than 10 working days from the date of submitting the report.
15. Evaluating the performance of the Chief Risk Officer and determining their remuneration in line with the performance evaluation policy approved by the Board of Directors. The Committee may seek the Chief Executive Officer's opinion in the evaluation process.
16. Verifying the availability of sufficient resources and an adequate number of qualified human resources for the Risk Management Department, and ensuring they are enrolled in specialized training programs.
17. Receiving reports, as necessary and appropriate, on climate change risks.
18. Overseeing the Bank's progress in relation to sustainability, and ensuring integration between environmental and social risk management strategies and the Bank's overall business strategies.
19. Overseeing annual reports related to sustainability in general, and environmental and social risks and their financing opportunities in particular, as well as the Bank's announced commitments.
20. Ensuring the Bank's compliance with the Central Bank's Green Finance Strategy and the Amman Stock Exchange instructions related to sustainability reporting.

21. Reviewing and approving the minutes of the Cybersecurity Steering Committee.
22. Reviewing and approving Executive Management's proposals/amendments to the Risk Management organizational structure.
23. Verifying that Risk Management has full authority to perform its duties, with sufficient and appropriate support to carry out its tasks in accordance with approved policies and procedures and the instructions of the Central Bank of Jordan.
24. Verifying the enhancement of the risk management culture within the Bank.

Fifth: Powers

1. The Committee shall have all powers enabling it to access all information.
2. The Committee has the right to request legal, financial, administrative, or technical advice from any external consultant.
3. The Committee has the right to request any Bank employee to obtain their advice on a specific matter, through communication with the Chief Executive Officer.
4. The Committee submits recommendations to the Board of Directors regarding the appointment, acceptance of resignation, evaluation, or termination of services of the Chief Risk Officer, provided that the Central Bank of Jordan's non-objection is obtained for the resignation or termination of services. The Central Bank of Jordan may summon them to verify the reasons for the resignation or termination of services.

Sixth: Disclosure

Bank al Etihad's Annual Report shall include a summary of the Committee and a description of its duties, as well as the names and qualifications of the Committee members.

Seventh: Amendment

This Charter shall take effect once approved by the Board of Directors, except where rules and laws expressly provide otherwise. It may be amended at any time pursuant to a decision of the Board of Directors and shall be reviewed annually.

Eighth: General Provisions

1. No Board member may chair more than one of the committees stipulated in Corporate Governance Instructions for Banks No. 2/2023, issued on 14/2/2023: Corporate Governance Committee, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Compliance Committee, and Credit Facilities Committee. No Board member may chair more than two of all committees emanating from the Board.
2. The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.
3. No committee may be formed with any executive powers, except for the Credit Facilities Committee stipulated in the Corporate Governance Instructions.

Corporate Governance Committee:

First: Committee Objective

- This Committee is responsible for guiding and supervising the preparation, updating, and monitoring the implementation of the Corporate Governance Manual, in line with the Corporate Governance Instructions for Banks issued by the Central Bank of Jordan and the Corporate Governance Instructions for Listed Shareholding Companies issued by the Securities Commission. The Manual shall be published on the Bank's website once approved and included in its Annual Report.
- A committee called the Corporate Governance Committee shall emanate from the Board of Directors:
  - The Committee shall be formed by a decision of the Bank's Board of Directors and shall consist of at least three members, provided that the majority of Committee members are independent members, and that the Committee includes the Chairman of the Board.
  - The Bank's Board of Directors shall elect the Committee members from among its members, and the Committee shall continue to perform its duties throughout the term of the Board of Directors.
  - The Committee works under the supervision of the Board of Directors and submits its reports and recommendations to the Board on the results of its duties.

Second: Chairmanship

The Chairman of the Board shall be a member of the Committee.

Third: Quorum

A Committee meeting shall be valid if attended by at least three members. A substitute member may not be appointed to attend any committee meeting in the absence of the original member. Attendance shall be in person; however, if in-person attendance is not possible for a valid reason or excuse, the Committee member may express their views through video or telephone and shall have the right to vote and sign the meeting minutes.

- The Chief Executive Officer shall be invited to the meeting when needed.
- The Board Secretary shall be invited to the meeting.

Fourth: Voting

Committee decisions shall be taken by majority vote. Decisions may also be passed by circulation as follows:

1. The Committee Rapporteur, at the request of the Committee Chairman, ensures that all information, data, and documents necessary for taking the decision are circulated.
2. The decision is passed by the approval of the majority of members.
3. The Committee Rapporteur notifies the relevant parties of the decisions issued by the Committee, and the Board Secretary submits decisions requiring Board approval at the first Board meeting.

Fifth: Committee Rapporteur and Secretary

The Committee Rapporteur shall be the Head of Compliance, and the Committee Secretary shall be the Board Secretary.

Sixth: Committee Meetings

1. The Committee shall meet upon invitation by its Chairman at least twice annually, whenever necessary, pursuant to a decision of the Bank's Board of Directors, or at the request of one of its members.
2. Meeting materials: All Committee members shall be provided by the Committee Rapporteur with a comprehensive set of documents, including the agenda, the minutes of the previous Committee meeting, and any other documents prepared for discussion during the meeting.
3. Meeting minutes: The minutes shall be prepared by the Committee Rapporteur, accurately reflecting the Committee's discussions under the supervision of the Board Secretary, and shall be signed by the members present through the minutes system by the Board Secretary at the following meeting.

Seventh: Committee Duties and Responsibilities

1. Recommending that the Board of Directors approve the Bank's corporate governance policies, reviewing them annually, and ensuring that they comply with the Central Bank's instructions, the Companies Law, and the Banking Law.
2. Ensuring that this policy is made available to all shareholders, especially minority shareholders.
3. Conducting an annual review of the Disclosure Policy and the Code of Professional Conduct, and recommending any amendments thereto to the Board of Directors.
4. Ensuring that all relevant parties, from the Board of Directors to Executive Management, comply with the approved Corporate Governance Policy and the Code of Professional Conduct.
5. Ensuring that the Bank applies corporate governance policies across all its operations and activities.
6. Ensuring the effectiveness of internal control systems related to monitoring corporate governance at the Bank.
7. Supervising the preparation of the Corporate Governance Manual and its approval by the Board.
8. Verifying the remediation of observations included in the Internal Audit Department's report, or any other relevant party's report, regarding the Bank's compliance with the Corporate Governance Manual.
9. Informing the Central Bank immediately upon verifying any breaches of the provisions and requirements of these Instructions.

Eighth: Powers

1. The Committee has the right to request legal, financial, administrative, or technical advice from any external consultant, after obtaining the Board of Directors' approval for amounts exceeding the approved limit.
2. Obtain any information that falls within the scope of its work.
3. The Bank must obtain the Central Bank's non-objection before appointing, transferring, promoting, or assigning any member of Senior Executive Management. The non-objection request must include the Board's decision, the relevant committee's recommendation, a copy of the approved general organizational structure, the member's declaration, CV, academic certificates, experience certificates, certificate of non-conviction, and a copy of the civil status ID card, or passport for non-Jordanians. The Central Bank of Jordan will not consider any request unless all the above attachments are complete.

Ninth: Disclosure

Bank al Etihad's Annual Report shall include a summary of the Committee and a description of its duties, as well as the names and qualifications of the Committee members.

Tenth: General Provisions

No Board member may chair more than one of the committees stipulated in Corporate Governance Instructions for Banks No. 2/2023, issued on 14/2/2023: Corporate Governance Committee, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Compliance Committee, and Credit Facilities Committee. No Board member may chair more than two of all committees emanating from the Board.

The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.

No committee may be formed with any executive powers, except for the Credit Facilities Committee stipulated in the Corporate Governance Instructions.

Nomination and Remuneration Committee

First: Committee Objective

The Committee aims to ensure the proper selection of Board members, in addition to nominating qualified persons to join Executive Management. It also ensures the existence of clear policies for remuneration, benefits, incentives, and salaries at the Bank, including ensuring appropriate awareness and training for employees and Senior Management. The Committee seeks to ensure the existence of clear and balanced policies and procedures that help create a competitive work environment.

Second: Committee Composition

- The Nomination and Remuneration Committee shall consist of at least three Board members, two of whom shall be independent members, including the Committee Chairman.
- The Board of Directors may appoint the Committee Chairman when forming or re-forming Board committees.
- A member may not delegate another person to represent them on the Committee.
- The Committee shall appoint a rapporteur. If the rapporteur is absent from a meeting, another person shall be delegated to perform this task for that meeting, as determined and invited by the Committee.
- The Chief Executive Officer shall be invited to attend the meeting when needed. The Secretariat shall inform the Chief Executive Officer, or their deputy, of the Committee meeting date so that they are present at the Bank during the Committee meeting, and shall provide them with the Committee agenda.

Third: Committee Work Procedures

1. Committee meetings: The Committee shall hold at least four ordinary meetings during the year. It shall meet upon invitation by its Chairman, whenever necessary, pursuant to a decision of the Bank's Board of Directors, or at the request of one of its members, provided that the number of meetings is not less than two per year, the agenda is determined in advance, and no period of three months passes without holding a Committee meeting.
2. Invitation: The Committee meets upon invitation by the Committee Chairman or the Secretary, based on the Committee Chairman's instructions. The agenda and meeting documents shall be sent to all members sufficiently in advance. The Committee Chairman may delegate whomever they deem appropriate for this task.
3. Meeting materials: All Committee members shall be provided by the Committee Rapporteur with a comprehensive set of documents, including the agenda, the minutes of the previous Committee meeting, and any other documents prepared for discussion during the meeting.
4. Meeting minutes: The minutes shall be prepared by the Committee Rapporteur in a manner that accurately reflects the Committee's discussions, recommendations, and decisions, and shall be signed by the members present at the following meeting.
5. Quorum: The Committee quorum shall be met by the attendance of at least two-thirds of three members, provided that the Chairman, if present, is among them. The Committee shall take its decisions and recommendations by majority vote of those present. In the event of a tie, the side supported by the Committee Chairman shall prevail. In the absence of the Committee Chairman, the Committee shall elect a chairperson for that meeting, if there is no Deputy Chairman.

Fourth: Committee Decisions

1. The Committee Rapporteur shall notify the relevant parties of the decisions issued by the Committee, and the Secretary shall submit decisions requiring Board approval at the first Board meeting.
2. Decisions may be passed by circulation as follows:
   - The Board Secretary, at the request of the Committee Chairman, shall ensure that all information, data, and documents necessary for taking the decision are circulated.
   - The decision shall be passed by unanimous / majority approval of the members.

Fifth: Committee Duties

1. Board of Directors and Board Members:

- Identifying qualified persons to join the Board, based on the abilities and qualifications of the nominees and in line with the Bank's approved Fitness and Propriety Policy. In cases of re-nomination, consideration shall be given to attendance records and the quality and effectiveness of participation in Board meetings. The Compliance Department / Board Secretariat shall obtain copies of nomination applications to verify the nominee's compliance with the fitness, propriety, and independence criteria for Board membership, in addition to verifying that all nomination requirements are met in accordance with the instructions of the Central Bank of Jordan, the Securities Commission, and the Companies Law. The results shall be submitted to the Nomination and Remuneration Committee. The Compliance Department shall then ensure that the Board membership declaration is signed by the nominee, verify that it has been completed and signed correctly, and send it to the Central Bank of Jordan.
- Determining whether a member qualifies as an independent member, taking into account the minimum requirements set out in the Corporate Governance Manual. This shall be reviewed annually, and the Central Bank of Jordan and the Securities Commission shall be informed if any Board member loses their independence status.
- Evaluating the performance of the Board as a whole, its committees, and its members annually, using specific and approved criteria so that the performance evaluation is objective. The Committee shall inform the Central Bank and the Securities Commission of the evaluation result. Board members, other than members of the Nomination and Remuneration Committee, shall also evaluate the performance of the Nomination and Remuneration Committee and its members.
- Recommending to the Board of Directors the expenses, fees, and benefits of the Chairman and members of the Board.
- Providing Board members, upon request, with information and summaries on certain important matters relating to the Bank.
- Supervising the ongoing awareness process for the Board of Directors and ensuring that Board members are continuously informed of the latest topics related to banking activities or developments within the scope of their work.
- Ensuring that Board members attend workshops or seminars on banking topics, particularly risk management, corporate governance, and the latest developments in banking.
- Ensuring that Board members have the highest level of integrity, credibility, competence, sufficient experience, and the ability to commit sufficient time to the Bank's work.
- The Nomination Committee must establish a clear methodology to verify that Board members allocate sufficient time to perform their duties as Board members.
- Evaluating the effectiveness of the approved Code of Professional Conduct for Bank employees and the extent of Board members' compliance with policies and procedures.

2. Senior Executive Management:

- Recommending the appointment of the Chief Executive Officer and the acceptance of their resignation or termination of their services.
- Evaluating the Chief Executive Officer and submitting the evaluation result to the Board of Directors. The Committee shall inform the Central Bank of the evaluation result after it is approved by the Board of Directors.
- Ensuring that specific and approved criteria are followed in evaluating the Chief Executive Officer's performance, with the performance evaluation criteria including the Bank's financial and administrative performance and the extent to which the CEO has achieved the Bank's medium and long-term plans and strategies.
- Approving an evaluation system to measure the performance of the Bank's managers and recommending remuneration, including monthly salary, rewards, and benefits, for the Chief Executive Officer and the other members of Executive Management.
- Identifying the Bank's needs for competencies at the level of Senior Executive Management and employees, setting the criteria for their selection, and nominating qualified persons to join Senior Executive Management in line with the Bank's approved Fitness and Propriety Policy. These nominations shall be submitted to the Board of Directors, and the Compliance Department shall ensure that the nominee signs the Executive Management membership declaration, verify that it has been completed and signed correctly, and then send it to the Central Bank of Jordan.
- Ensuring that Senior Executive Management has the highest level of integrity, credibility, competence, and sufficient experience.
- Approving the succession plan for the Bank's Senior Executive Management.
- Approving and reviewing the human resources and training policies annually and monitoring their implementation.
- Developing a performance evaluation and remuneration policy for the Bank's managers, reviewing it periodically, and ensuring its implementation. The policy must include a mechanism for determining the salaries and benefits of the General Manager and the rest of Senior Executive Management. The Committee may not delegate this task to Executive Management. The policy must be approved by the Board, a copy must be provided to the Central Bank within a maximum of seven working days from the date of Board approval, and it must be reviewed annually.
- Ensuring that the Remuneration Policy provides that remuneration or salaries are sufficient to attract qualified persons and are consistent with remuneration or salaries granted by other banks in the market.
- Disclosing a summary of the Remuneration Policy in the Annual Report.
- Reviewing the final exit interviews of resigned Senior Executive Management employees.

Sixth: Powers of the Committee

The Committee may request any data or information from the Bank's employees. All employees must fully cooperate in providing such information completely and accurately, and the Committee has the right to obtain any information falling within the scope of its work.

The Committee has the right to request legal, financial, administrative, or technical advice from any external consultant.

The Committee may request the attendance of any Bank employee to obtain the necessary clarifications, after coordination with the Chief Executive Officer.

Seventh: Disclosure

The annual report of Invest Bank includes a summary of the committee and a description of its responsibilities, as well as the names of the qualifications of the committee members, in addition to a summary of the annual remuneration policy.

General Provisions

1. No Board member may chair more than one of the committees stipulated in Corporate Governance Instructions for Banks No. 2/2023, issued on 14/2/2023: Corporate Governance Committee, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Compliance Committee, and Credit Facilities Committee. No Board member may chair more than two of all committees emanating from the Board.
2. The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.
3. No committee may be formed with any executive powers, except for the Credit Facilities Committee stipulated in the Corporate Governance Instructions.
4. This Charter shall take effect once approved by the Board of Directors, except where rules and laws expressly provide otherwise. It may be amended at any time pursuant to a decision of the Board of Directors, and shall be reviewed periodically or whenever necessary.

Compliance Committee:

First: Committee Objective

A committee called the Compliance Committee shall emanate from the Board of Directors. It is formed to guide, follow up, and monitor compliance at the Bank, and to submit periodic reports and recommendations thereon to the Board of Directors. The Committee also aims to add value to the Bank's operations by enhancing the effectiveness of compliance risk management, anti-money laundering and counter-terrorist financing, and customer complaint handling. It also aims to verify the Bank's compliance with laws, policies, and procedures, the adequacy of follow-up on the results of internal and external audit and regulatory authorities, the adoption of the necessary recommendations, and Management's response thereto, and to inform the Board of Directors of any observations it deems material.

Second: Compliance Committee

- The Compliance Committee Charter shall be approved by the Board of Directors, and this Charter shall form an integral part of the Bank's Corporate Governance Manual.
- This Charter shall be reviewed annually by the Committee, with the participation of Compliance Management, and any proposed amendments thereto shall be submitted to the Board of Directors for approval.
- The names of the Committee members and the Committee's activities shall be disclosed in the Bank's Annual Report.

Third: Legislative Frameworks for Compliance Management

1. Compliance with applicable laws and instructions issued by the Central Bank and various official authorities, as well as compliance with international standards and guidelines issued by international bodies, including but not limited to the following:
2. Instructions issued by the Central Bank of Jordan:
   - Corporate Governance Instructions
   - Compliance Monitoring Instructions
   - Anti-Money Laundering and Counter-Terrorist Financing Instructions
   - Financial Consumer Protection Instructions
   - Customer Complaints Handling Instructions
3. Securities Commission Instructions and the Corporate Governance Manual for Shareholding Companies.
4. Anti-Money Laundering and Counter-Terrorist Financing Law.
5. Laws and instructions of the Central Bank of Iraq corresponding to the above instructions.
6. Any other laws adopted subsequently.

Fourth: Committee Membership

The Committee shall consist of at least three members, including one independent member, in addition to the Bank's Chief Compliance Officer, who shall act as Committee Rapporteur.

1. Members must have general banking experience and full knowledge and understanding of the Central Bank of Jordan's instructions and the instructions issued by the various regulatory authorities governing the work of the Bank and its subsidiaries.
2. Committee members must have sufficient knowledge and understanding of the principles of compliance management in banks.
3. All members must hold academic qualifications and have appropriate practical experience in financial management, banking, or any similar disciplines or fields related to the Bank's business.
4. The Chairman of the Compliance Committee must attend the Annual General Assembly meeting.

Fifth: Chairmanship of the Committee

The Committee Chairman and members shall be appointed by the Board of Directors.

Sixth: Quorum

1. A Committee meeting shall be valid if attended by at least three members. A substitute member may not be appointed to attend any committee meeting in the absence of the original member. Attendance shall be in person; however, if in-person attendance is not possible for a valid reason or excuse, a Committee member may express their views through video or telephone, and shall have the right to vote and sign the meeting minutes, provided that the following requirements are met:
   - The member's non-attendance in person and the reason for it are duly documented.
   - The member attends the entire meeting.
   - The member signs the minutes of the Committee meeting and the resolutions issued thereunder.
   - The number of members attending the meeting in person shall not be less than three.
2. The Chief Executive Officer shall be invited to attend the meeting when needed, if not a member of the Committee. The Board Secretariat shall inform the Chief Executive Officer, or their deputy, of the Committee meeting date so that they are present at the Bank during the meeting, and shall provide them with the agenda.
3. The Compliance Committee may invite any manager or employee of the Bank to attend Committee meetings to obtain the necessary clarifications, if needed.

Seventh: Voting and Decision-Making Mechanism

1. Decisions shall be taken during the meeting by voting by all members, whether attending in person or remotely.
2. Decisions may be passed by circulation, subject to the approval of the members at the meeting, as follows:
   - The Board Secretary, at the request of the Committee Chairman, shall ensure that all information, data, and documents necessary for taking the decision are circulated.
   - The decision shall be passed by majority approval of the members.
   - The Committee Rapporteur shall notify the relevant parties of the decisions issued by the Committee, and the Board Secretary shall submit decisions requiring Board approval to the Board of Directors for approval.

Eighth: Committee Meetings

The Compliance Committee shall meet upon invitation by its Chairman at least once every three months, whenever necessary, pursuant to a decision of the Bank's Board of Directors, or at the request of one of its members.

Ninth: Committee Rapporteur

The Chief Compliance Officer shall act as Committee Rapporteur, and the Board Secretary shall act as Committee Secretary.

Tenth: Responsibilities of the Committee Rapporteur

- Prepare a formal draft of the minutes and follow up on its signing by the Committee Chairman and members.
- Provide each Committee member with the Compliance Committee Charter approved by the Board of Directors.
- Transfer information among Committee members, Board committees, and Executive Management, and facilitate members' access to all necessary information.
- Attend all Committee meetings, record Committee meetings in official minutes that include the work carried out by the Committee, follow up on recommendations issued by it, and follow up on any matters deferred from a previous meeting. Accuracy must be observed in drafting, with precise recording of any voting, reservations, or proposals, and attaching any documents or referring to any documents reviewed during the meetings.
- Prepare the meeting agenda and all documents and information related to the meeting, based on the Committee Chairman's request, and send them with their contents to the Chairman, members, and invitees from Executive Management sufficiently in advance.
- Duly maintain the records and documents of Committee meetings.
- Ensure that Committee members sign meeting minutes and resolutions.
- Follow up on the implementation of decisions taken by the Committee, and follow up on any matters deferred from a previous meeting.

Eleventh: Committee Duties

- Ensuring the existence of a Bank-specific Compliance Policy and related procedures, in a manner that establishes a compliance function capable of performing its duties effectively. The Committee shall assess the effectiveness of the Bank's management of non-compliance risks at least once annually.
- Approving the annual plan and periodic reports prepared by the Compliance Department, which include the assessment of non-compliance risks, violations, deficiencies, and corrective actions taken.
- Overseeing the implementation of the Bank's Compliance Policy and ensuring that the Bank's Executive Management resolves all compliance-related matters in an appropriate and effective manner.
- Overseeing the work of Compliance Management and ensuring the existence of appropriate mechanisms to monitor the compliance of all administrative levels within the Bank with all regulatory requirements, applicable legislation, and international standards, including the recommendations of the Financial Action Task Force.
- Verifying the availability of sufficient resources and an adequate number of qualified human resources for the Compliance Department, and ensuring they are enrolled in specialized training programs.
- Evaluating the performance of the Chief Compliance Officer and determining their remuneration in line with the performance evaluation policy approved by the Board, after considering the opinion of the General Manager.
- Recommending to the Board the appointment of the Chief Compliance Officer, and the acceptance of their resignation or termination of their services.
- Approving a detailed description of the duties of the Compliance Department.
- Ensuring the existence of comprehensive work procedures for all Bank activities, in line with applicable legislation and the strategies/policies approved by the Board, and ensuring the implementation of such procedures.
- Recommending approval of the organizational structure of the Compliance Department, provided that the structure shows the reporting hierarchy and reflects lines of responsibility and authority in a detailed and clear manner.
- Considering any matter referred to the Committee by the Board of Directors.
- Considering any matter consistent with the objectives of the Compliance Policy and methodology.
- Approving the training plan budget and systems related to the Compliance Department.

Twelfth: Powers

- The Committee shall have all powers enabling it to access all information.
- The Committee has the right to request legal, financial, administrative, or technical advice from any external consultant.
- The Committee has the right to request any Bank employee to obtain their advice on a specific matter, through communication with the Chief Executive Officer.
- The Committee submits recommendations to the Board of Directors regarding the appointment, acceptance of resignation, or termination of services of the Chief Compliance Officer, provided that the Central Bank's non-objection is obtained for their resignation or termination of services. The Central Bank may summon the Chief Compliance Officer to verify the reasons for the resignation or termination of services.

Thirteenth: Reports

The Compliance Department shall submit reports to the Committee periodically and at each meeting, provided that the report submitted includes the following information:

1. Significant Matters:
   - Gaps and Internal Audit observations.
   - Central Bank inspection assignments.
   - Violations.
   - Bank Etihad Group regulatory framework.
   - Meetings with regulatory authorities.
   - Any additional matters that must be presented to the Committee.

2. Requirements issued by the Central Bank of Jordan and Regulatory Authorities:
   - Customer complaints.
   - Anti-money laundering and counter-terrorist financing.
   - Updates on the Compliance Department's plans.
   - Amended policies and procedures.
   - Developments related to the Compliance Department's systems.
   - Summary of regulatory reports related to the Exchange Department.

3. Updates on the Iraq Branch

4. Appendices, including the following:
   - Account opening and data update transactions.
   - Recommendations from the previous meeting.
   - Key developments related to subsidiaries.
   - Key circulars received during the second quarter of 2025.
   - Regulatory reports appendix related to the Exchange Department.

General Provisions

1. It is emphasized that the responsibility of the Compliance Committee does not replace the responsibilities of the Board or the Bank's Executive Management regarding the Bank's compliance with the instructions and directives of various regulatory authorities, nor does it affect the Board of Directors' ability to communicate directly with Executive Management.
2. No Board member may chair more than one of the committees stipulated in Corporate Governance Instructions for Banks No. 2/2023, issued on 14 February 2023: Corporate Governance Committee, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Compliance Committee, and Credit Facilities Committee. No Board member may chair more than two of all committees emanating from the Board.
3. The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.
4. No committee may be formed with any executive powers, except for the Credit Facilities Committee stipulated in the Corporate Governance Instructions.

Information Technology Governance Committee:

Committee Objectives

This Committee aims to develop and improve the governance and management of information and related technology. It is also responsible for guiding and supervising the development of the Information and Related Technology Governance and Management Manual, and monitoring its implementation.

Committee Formation

- The Committee shall be formed by a decision of the Board of Directors.
- The Committee shall consist of at least three Board members, and it is preferable that its membership include persons with experience or strategic knowledge in information technology.
- The Committee shall elect one of its members as Chairman.
- The Board shall define the Committee's objectives and delegate powers to it, in accordance with a charter that sets this out.

Committee Powers

- The Committee may, when necessary and at the Bank's expense, seek the assistance of external experts, in coordination with the Chairman of the Board when needed, in the field of information technology governance and strategic knowledge thereof, on one hand, and to enhance objective opinion on the other.
- The Committee may invite any of the Bank's managers to attend its meetings to seek their opinions, including those concerned with internal audit, members of Senior Executive Management, such as the Chief Risk Officer and Chief Compliance Officer, or those concerned with external audit.

Committee Meetings

- The Committee works under the supervision of the Board of Directors and submits its periodic reports and recommendations to the Board on the results of its duties.
- Committee meetings: The Committee shall meet upon invitation by its Chairman at least quarterly, whenever necessary, pursuant to a decision of the Bank's Board of Directors, or at the request of any of its other members. The agenda shall be determined in advance.
- Invitation: The Committee meets upon invitation by the Committee Chairman or the Secretary, based on the Committee Chairman's instructions. The agenda and meeting documents shall be sent to all members sufficiently in advance. The Committee Chairman may delegate whomever they deem appropriate for this task.
- Quorum: A Committee meeting shall be valid if attended by a majority of members, provided that the number is not less than three members and that the Committee Chairman is present. Attendance shall be in person. If in-person attendance is not possible, a Committee member may attend the meeting through any means of audiovisual communication to discuss the meeting agenda after the approval of the Committee Chairman, and shall have the right to vote and sign the meeting minutes, provided that the Chairman of the Board and the Secretary certify the meeting minutes and quorum. The Committee quorum shall be met by the attendance of three members, provided that the Chairman is among them.
- The Committee's recommendations/decisions shall be taken by majority vote of those present. In the event of a tie, the side supported by the Committee Chairman shall prevail, and documented meeting minutes shall be maintained.
- Meeting minutes: The minutes shall be prepared by the Committee Rapporteur in a manner that accurately reflects the Committee's discussions, and shall be signed by the members present.

Committee Rapporteur

The Chief Technology Officer (CTO) shall perform the duties of Committee Rapporteur.

Committee Decisions

The Committee Rapporteur shall notify the relevant parties of the decisions issued by the Committee, and the Secretary shall submit decisions requiring Board approval at the first Board meeting.

Decisions may be passed by circulation as follows:

- The Board Secretary, at the request of the Committee Chairman, shall ensure that all information, data, and documents necessary for taking the decision are circulated.
- The decision shall be passed by unanimous approval of the members.

Duties and Responsibilities of the Committee

- The Board's delegation of powers to the Committee, or to any other committee, does not relieve the Board as a whole of its responsibilities in this regard. The Committee shall undertake the following duties:
- Approving the strategic objectives of information technology and the appropriate organizational structures, including steering committees at the Senior Executive Management level, particularly the Information Technology Steering Committee, in a manner that ensures the achievement and fulfillment of the Bank's strategic objectives and the realization of the best added value from information technology projects and resource investments. This includes using the necessary tools and standards to monitor and verify the achievement of this, such as IT Balanced Scorecards, calculating Return on Investment, and measuring the impact of contribution to increasing financial and operational efficiency.
- Approving the general framework for managing, controlling, and monitoring information technology resources and projects, in line with internationally accepted best practices in this regard, particularly COBIT, and in a manner that is consistent with and fulfills the objectives and requirements of the Instructions on Information and Related Technology Governance and Management issued by the Central Bank. This shall be achieved through the sustainable realization of enterprise objectives and the achievement of the information and related technology goals matrix, covering governance and management objectives.
- Approving the matrix of enterprise objectives and information and related technology objectives, and defining the sub-objectives required to achieve them.
- Approving a RACI Chart for the main information technology governance processes and the sub-processes emanating therefrom, in terms of the party, parties, person, or stakeholders that are primarily Responsible, ultimately Accountable, Consulted, and Informed for all processes.
- Ensuring the existence of a general framework for managing information technology risks that is aligned and integrated with the Bank's overall risk management framework, taking into account and meeting all governance and management objectives.
- Approving the budget for information technology resources and projects in line with the Bank's strategic objectives.
- Providing general oversight and reviewing the progress of information technology operations, resources, and projects to ensure their adequacy and effective contribution to meeting the Bank's requirements and business needs.
- Reviewing information technology audit reports and taking the necessary actions to address deviations.
- Recommending to the Board the necessary actions to correct any deviations.
- In addition to its duties stipulated in the Instructions, the Information Technology Governance Committee shall approve the significance and priority of governance and management objectives, and the extent of their linkage to Enterprise Goals and Alignment Goals, as well as their linkage to the other six Enablers and Components stated in the Instructions. This shall be based on a qualitative and/or quantitative study prepared for this purpose at least annually, taking into account the Design Factors set out in COBIT 2019 - Design Guide.

Higher Credit Facilities Committee

First: Committee Objective

To review Executive Management's recommendations regarding credit decisions, approve facilities within its authority, and submit recommendations to the Board of Directors regarding credit decisions that require a Board resolution.

Second: Committee Formation:

- The Committee shall consist of no fewer than five members of the Board of Directors. One of its members may be independent, provided that they are not a member of the Audit Committee. The members shall be appointed by the Board and selected based on their competence and experience. At least one member must have experience in banking credit. The Chairman of the Board shall chair this Committee.
- No Board member may chair more than one corporate governance committee, nor may any Board member chair more than two of all committees emanating from the Board.
- A member may not delegate another person to represent them at meetings.
- The Chief Executive Officer shall be invited to attend meetings when needed, as shall the Board Secretary. The Board Secretary shall inform the Chief Executive Officer, or their deputy, of the Committee meeting date so that they are present at the Bank during the Committee meeting, and shall provide them with the Committee agenda. The Credit Execution Manager shall be appointed as Committee Rapporteur, and the Board Secretary shall act as Committee Secretary.

Third: Committee Work Procedures

- Frequency of Committee Meetings: The Committee shall meet weekly. Meetings may also be held whenever necessary, or may not be held if there is no legal quorum or no material for discussion.
- Invitation: The Committee Rapporteur and/or the Board Secretary shall invite members to meetings and send the agenda and meeting materials to all members at least one day before the meeting.
- Meeting Materials: All Committee members shall be provided by the Committee Rapporteur, under the supervision of the Board Secretary, with a comprehensive set of documents. This set shall include the agenda, the minutes of the previous Committee meeting, a follow-up report on accounts approved within the Committee's authority, and any other documents prepared by Management for discussion at the meeting.
- Meeting Minutes: The meeting minutes shall be prepared by the Committee Rapporteur and reviewed by the Board Secretary, in cooperation with the Committee Rapporteur. The minutes shall accurately reflect the discussions, decisions taken, and recommendations of the Committee, and shall be signed by the members present.
- Quorum: The quorum for Committee meetings shall be met by the attendance of at least four members. Decisions shall be taken by a majority of the total number of Committee members, regardless of the number of members present. In the event of a tie, the Chairman shall have the casting vote, and the decision shall be submitted to the Board of Directors upon the Committee's approval.
- Committee members shall attend meetings and vote on decisions in person. If in-person attendance is not possible, a member may express their views through video or telephone and shall have the right to vote and sign the meeting minutes, provided that this is duly documented.

Fourth: Duties and Responsibilities of the Committee:

1. Approving credit facilities granted to the Bank's customers within the powers granted to the Committee, where approval has been recommended by Executive Management.
2. Submitting recommendations to the Board of Directors regarding credit decisions that require a Board resolution.
3. Providing guidance and direction to Management, when necessary, to help improve the status of the Bank's credit portfolio.
4. Recommending the approval of the Committee Charter to the Board of Directors.
5. Carrying out any other matters assigned to the Committee by the Board of Directors, provided that they do not conflict with the powers of the Credit Facilities Committee stipulated in the applicable Corporate Governance Instructions for Banks.
6. Approving the granting of any facilities to Assistant Chief Executive Officers outside the authority of the Chief Executive Officer.

Fifth: Powers of the Committee:

1. The Committee has the right to invite whomever it deems appropriate to attend its meetings.
2. The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.
3. All Committee decisions shall be submitted to the Board of Directors.
4. The Committee has the right to request legal, financial, administrative, or technical advice from any external consultant, after obtaining the Board of Directors' approval for amounts exceeding the approved limit.
5. Decisions may be passed by circulation. The approval of the Chairman of the Board of Directors shall be obtained to present the recommendations of the Higher Credit Facilities Committee to the Board of Directors, regarding the granting of facilities, between Board meetings, by circulation, as follows:

First: Customer Related Decisions:

1. Decisions approved by the Higher Credit Facilities Committee with all its members and without reservation, and which fall within the Board's authority, shall be implemented and ratified at the following Board of Directors meeting.
2. Decisions approved by the Higher Credit Facilities Committee with fewer than four members present at the meeting, due to the absence of two Committee members:
   - The decisions shall be sent to the absent Committee members by email to obtain their response to the decision.
   - Decisions falling within the Board's authority shall be sent to all Board members for review and approval, and for sending their response, within a maximum of four working days.
   - The decision shall be approved by circulation via email by majority vote of the members.
3. The approval shall be ratified and the decision documented in the minutes of the following Board meeting.
4. The Committee Chairman may call the Board of Directors, within two working days, to attend a meeting by audiovisual communication if needed.

Second: Higher Credit Facilities Committee decisions related to Board Members and related Parties:

1. Decisions approved by the Higher Credit Facilities Committee with all its members, excluding related-party members, and without reservation, shall be sent to all Board members for review and approval, and for sending their response, within a maximum of four working days.
2. If any Board member objects to the request, it shall be deferred to the next Board meeting.
3. The approval shall be ratified and the decision documented in the minutes of the following Board meeting.
4. The Chairman of the Board may call the Board of Directors, within two working days, to attend a meeting by audiovisual communication if needed.

Sixth: Disclosure:

Bank al Etihad's Annual Report shall include a summary of the Committee and a description of its duties, as well as the names and qualifications of the Committee members.

Seventh: General Provisions:

No Board member may chair more than one of the committees stipulated in Corporate Governance Instructions for Banks No. 2/2023, issued on 14/2/2023: Corporate Governance Committee, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Compliance Committee, and Credit Facilities Committee. No Board member may chair more than two of all committees emanating from the Board.

The powers of any Board committee stipulated in the Corporate Governance Instructions may not be delegated to any other authority.

No committee may be formed with any executive powers, except for the Credit Facilities Committee stipulated in the Corporate Governance Instructions.

This Charter shall take effect once approved by the Board of Directors, except where rules and laws expressly provide otherwise. It may be amended at any time pursuant to a decision of the Board of Directors, and shall be reviewed periodically or whenever necessary.

Appendix: Summary of the Most Important Essential Conditions:

Clause	Detailed Clause	Audit Committee Emanating from the BoD	Senior Management Represented by the CEO	Chief Internal Auditor
Internal Audit Charter	The Board of Directors approves the Internal Audit Charter based on the recommendation of the Audit Committee, which includes: the purpose of Internal Audit; the authority, role, and responsibilities of Internal Audit; compliance with standards; the scope and types of Internal Audit services; the Board's expectations; and Senior Management's observations, if the Board / Audit Committee deems this appropriate.	Approval (Board of Directors)	Providing an Opinion	Preparation
Audit Plans, Budget, and Resources	The Audit Committee approves the internal audit plans and budget, represented by human, financial, and technological resources, and any significant changes, to ensure their adequacy in fulfilling the role, responsibilities, and plans of Internal Audit. The Audit Committee and Senior Management discuss the audit plans, taking into account the impact of resource shortages on audit work and plans, and addressing any deficiencies.	Approval	Support	Preparation
Organizational Independence	The Audit Committee establishes a direct functional reporting line with the Chief Internal Audit Officer, and an administrative reporting line to the Chief Executive Officer. The Committee shall meet with the Chief Internal Audit Officer periodically, without Senior Management present, to discuss any significant matters, including any limitations on Internal Audit activities. Senior Management collaborates with the Audit Committee and the Chief Internal Audit Officer to understand any potential impediments to the independence of Internal Audit. The Chief Internal Audit Officer confirms to the Audit Committee the organizational independence of the Internal Audit function at least annually.	Implementation	Support	Confirmation
Appointment and Dismissal of the Chief Audit Officer / Qualifications of the Chief Audit Officer	Board of Directors: Approves the appointment and dismissal of the Chief Internal Audit Officer based on the recommendation of the Audit Committee, and approves their role and responsibilities, and determines the required qualifications, experience, and skills. Senior Management collaborates with the Board of Directors / Audit Committee to determine the qualifications, experience, and competencies required for the Chief Internal Audit Officer. The Chief Internal Audit Officer assists the Board of Directors in understanding the qualifications and competencies required to manage the Internal Audit function.	Approval (Board of Directors)	Providing an Opinion	Support
External Quality Assessment	Audit Committee: Approves the scope and frequency of assessments, as well as the competence and independence of the external assessor, receiving the results, and approving the corrective action plans submitted by the Chief Internal Audit Officer. Senior Management collaborates with the Audit Committee and the Chief Internal Audit Officer to determine the scope and frequency of the external quality assessment, review the results of the external assessment, and review the corrective action plans submitted by the Chief Internal Audit Officer. The Chief Internal Audit Officer develops a plan for the external quality assessment and discusses it with the Board of Directors.	Approval	Support	Management
Internal Quality Assessment	Audit Committee: Reviews the results of the internal quality assessment and approves the performance objectives of the Internal Audit activity at least annually. Senior Management provides observations on the audit activity's performance objectives and KPIs to support the Audit Committee in the annual evaluation of the audit activity and the Chief Internal Audit Officer. The Chief Internal Audit Officer implements and reviews the performance objectives and quality assurance, and reports the results at least annually.	Approval	Providing an Opinion	Management
Audit Committee and Senior Management Expectations	The Audit Committee provides Internal Audit with its expectations regarding the frequency of receiving audit results, the criteria for observations that must be escalated to the Committee, and the escalation mechanism for such observations. The Audit Committee and Senior Management: Provide Internal Audit with their perspective on the significant risks that should be focused on, to help determine audit priorities. The Chief Internal Audit Officer: Provides the Audit Committee with significant information needed to perform its oversight duties, whether at the request of the Audit Committee or based on the Chief Internal Audit Officer's professional judgment.	Reflecting their expectations in the Internal Audit Charter and work procedures.	Providing an Opinion	Management

Statement on Compliance with the Corporate Governance Manual

The Bank complies with the instructions of the Corporate Governance Manual issued by its Board of Directors.

Information and Related Technology Governance and Management Manual (COBIT)

Section One: Introduction

Information and related technology governance is defined as the process of assigning roles and responsibilities and defining the relationships among the various parties, entities, and stakeholders, such as the Board of Directors and Executive Management, with the aim of maximizing the Bank's added value by following the optimal approach that ensures a balance between risks and expected returns. This is achieved through adopting the necessary rules, principles, and mechanisms for decision-making, setting the Bank's strategic directions and objectives, and establishing mechanisms to monitor and assess the extent of compliance with, and achievement of, those objectives in a manner that ensures the Bank's sustainability and development.

Given that information technology resources are considered an important pillar, both in terms of their relative size and their impact on the Bank's ability to conduct its operations and achieve its objectives, as well as their critical role in influencing the competitiveness of the Bank's products and services on one hand, and decision-making and risk management mechanisms on the other, this justifies the significant investments made by banking institutions in the information technology sector.

Accordingly, the Bank, in particular, must follow sound principles and standards in managing information technology resources in accordance with internationally accepted practices in this regard, in order to reduce related risks and avoid entering into unfeasible investments and unjustified expenses that may translate into substantial losses over the years and may, in some cases, affect the Bank's reputation.

As information technology governance has witnessed positive development globally, resulting in general frameworks based on highly mature pillars and principles, most notably the COBIT framework, Control Objectives for Information and Related Technology, the general framework for the governance and management of information and related technology consists of a set of key pillars and principles. The first is the Strategic Alignment required to be achieved through the strategic objectives of information technology, which must lead to the achievement of the Bank's strategic objectives. The Bank must also utilize its information technology resources through the available options that maximize added value, Benefit Realization, measured primarily by the contribution of information technology to achieving the Bank's strategic objectives. The Bank must also manage information technology risks, Risk Optimization, in an integrated manner that is aligned with the Bank's overall risk management processes and in accordance with sound procedures and practices. These should lead to sound risk-based decision-making mechanisms and ensure the realization of added value at the lowest cost, while mitigating expected losses and risks in a manner that reflects the Bank's vision in this regard and, as much as possible, within the approved risk appetite limits. In addition, Senior Management, namely the Board of Directors and Executive Management, must undertake institutional planning and organization by setting strategies, policies, and action plans, and by establishing and adapting hierarchical and circular organizational structures, in the form of committees, in a manner that leads to the achievement of strategic objectives. It must also develop the mechanisms, tools, and standards necessary to measure the added value of information technology, enabling the Board and Senior Executive Management to monitor the Bank's operations to ensure the soundness of the planning, organization, and utilization mechanisms for information technology resources, with the aim of obtaining feedback for continuous improvement and development. All of this shall be within the framework of the principle of segregation of duties and roles, and their proper allocation between the Board on one hand and Executive Management on the other.

Based on Bank Etihad's belief in the importance of the governance and management of information and related technology, and the positive impact this has on the Bank's soundness, the Board of Directors has decided to approve this Manual, the Information and Related Technology Governance and Management Manual. This Manual was developed based on the Central Bank of Jordan's guide on information and related technology governance and management, which is aligned with and complements the Bank's approved Corporate Governance Manual and the Central Bank's Corporate Governance Manual for Banks, and in line with international best practices in information and related technology governance and management. This Manual has been approved by the Board of Directors and will be reviewed and updated whenever necessary through the Information Technology Governance Committee emanating from the Board of Directors.

Section Two: Definitions

The words and phrases included in this Manual shall have the meanings assigned to them below, unless the context indicates otherwise. Reference shall be made to the Banking Law for any other definitions not included in this Manual:

1. Information and Related Technology Governance: The allocation of roles and responsibilities and the definition of relationships among the various parties, entities, and stakeholders, such as the Board of Directors and Executive Management, with the aim of maximizing the Bank's added value by following the optimal approach that ensures a balance between risks and expected returns. This is achieved through adopting the rules, principles, and mechanisms necessary for decision-making, setting the Bank's strategic directions and objectives, and establishing mechanisms to monitor and assess compliance with, and achievement of, those objectives in a manner that ensures the Bank's sustainability and development.
2. Information and Related Technology Management: A set of ongoing activities that fall under the responsibility of Executive Management, including planning to achieve strategic objectives, including alignment and organization; building and development activities, including procurement and implementation; operational activities, including service delivery and support; and monitoring activities, including measurement and assessment, in a manner that ensures the continued achievement of the Bank's objectives and strategic directions.
3. Governance and Management Objectives: A set of practices and activities derived from the Bank's policies and necessary to achieve information and related technology objectives.
4. Information and Related Technology Objectives: A set of main and sub-objectives related to information and related technology governance and management activities, which are necessary to achieve enterprise objectives.
5. Enterprise Objectives: A set of objectives related to enterprise governance and management, which are necessary to meet stakeholders' needs and the objectives of this Manual.
6. Board: The Bank's Board of Directors.
7. Executive Management: Includes the Bank's General Manager, Deputy General Manager, Assistant General Manager, Chief Financial Officer, Chief Operations Officer, Chief Risk Officer, Treasurer, and Chief Compliance Officer.
8. Stakeholders: Any party with an interest in the Bank, such as shareholders, employees, creditors, customers, external providers, or the relevant regulatory authorities.
9. Auditor: The person, whether natural or legal, or the entity specialized in examining the Bank's operations based on information technology, in line with the requirements of the relevant instructions, and engaged by the Bank's Management to meet those requirements for a period of not less than three consecutive years and not more than six consecutive years.

Section Three: Corporate Governance Structure

The corporate governance structure is explained in detail in the Corporate Governance Manual.

Section Four: Objectives of Information and Related Technology Governance and Management

1. Meeting Stakeholders' Needs and Achieving the Bank's Directions and Objectives

This is achieved through meeting the objectives of information and related technology, in a manner that ensures the following:

- Providing high-quality information as a foundation that supports the Bank's decision-making mechanisms.
- Prudent management of information technology resources and projects, maximizing the benefit from those resources and minimizing waste.
- Providing a distinguished and supportive technology infrastructure that enables the Bank to achieve its objectives.
- Enhancing the Bank's various operations through the use of an efficient and highly reliable technology system.
- Prudent management of information technology risks to ensure the necessary protection of the Bank's assets.
- Helping achieve compliance with the requirements of laws, regulations, and instructions, in addition to compliance with the Bank's internal strategy, policies, and work procedures.

- Improving the internal control and monitoring system.
- Maximizing the level of satisfaction with information technology among its users by meeting business needs efficiently and effectively.
- Managing the services of external parties entrusted with carrying out service and product operations and tasks.

2. Achieving Comprehensiveness in Information and Related Technology Governance and Management

This is achieved by taking into account not only the technology itself, but also the provision of seven enabling elements, Seven Enablers, that accompany and complement information technology services, represented by:

- Principles, policies, and frameworks.
- Governance and management objectives.
- Organizational structures.
- Information and reports.
- Information technology services, programs, and infrastructure.
- Knowledge, skills, and experience.
- The system of values, ethics, and conduct, which must be provided according to specific specifications and dimensions to achieve and serve the requirements and objectives of information and related technology, not only in information technology operations, but also in all Bank operations based on information and technology.

3. Adopting Work and Organizational Practices and Rules

This shall be done in accordance with the best international standards as a starting point to be relied on and built upon in the fields of governance and management of information technology operations, projects, and resources.

4. Segregation of Operations and Duties

This is achieved by separating the Board's operations, duties, and responsibilities in the area of governance from those falling within the responsibility of Executive Management with respect to information and related technology.

5. Enhancing Self-Control, Independent Control, and Compliance Review Mechanisms

Enhancing self-control, independent control, and compliance review mechanisms in the fields of information and related technology governance and management, in a manner that contributes to the continuous improvement and development of performance.

Section Five: Objectives and Governance and Management Objectives

1. The objectives, governance and management objectives, and their outputs are considered the minimum requirements with which the Bank's Senior Management must comply and achieve on an ongoing basis. The Information Technology Steering Committee is primarily responsible for ensuring compliance with and achievement of these requirements, while the Information Technology Governance Committee and the Board as a whole are ultimately responsible in this regard. All Bank departments, particularly the Information Technology Department, Information Security Management, and Project Management, must define and reformulate their processes to reflect and cover the requirements of all governance and management objectives.
2. The Board shall be directly responsible for evaluation, direction, and monitoring processes.
3. The Board and the Risk Management Department shall be directly responsible for the process of "ensuring prudent management of information technology risks" and the process of "risk management."

Section Six: Publication of the Information and Related Technology Governance and Management Manual

The Bank publishes its Information and Related Technology Governance and Management Manual on its website and/or by any other appropriate means for public access. The Bank discloses in its Annual Report that it has an Information and Related Technology Governance and Management Manual, and also discloses information relevant to stakeholders and the extent of its compliance with the provisions thereof.

The requirements of the Instructions on Information and Related Technology Governance and Management, once implemented, are considered a first step and a starting point toward the continuous development and improvement of information and related technology governance and management. Accordingly, the Bank's Management must keep pace with future emerging releases and updates related to the general framework.

Section Seven: Duties and Responsibilities

The scope of application of the Instructions on Information and Related Technology Governance and Management includes all Bank operations based on information technology across the various branches and departments. All parties are concerned with applying the Manual, each according to their role and position. The following are the relevant parties and their main responsibilities in this regard:

1. Chairman and Board Members, and External Experts Engaged

They assume responsibilities for general direction, approval of duties and responsibilities, support, and provision of the necessary funding.

2. Chief Executive Officer, Deputies, Assistants, and Operations and Branch Managers

They assume responsibility for nominating suitable persons with experience in the Bank's operations to represent them, and for defining their duties and responsibilities.

3. Information Technology Steering Committee

It assumes responsibility for directly managing, directing, and supervising the matter, recommending the provision of the resources necessary for its completion, and ensuring that all parties properly understand the requirements and objectives of the Instructions.

4. Internal Audit

It assumes its assigned responsibilities as stated in Section Seven, and participates in a manner that reflects the role of Internal Audit in executive matters as an advisor and independent monitor.

5. Risk, Information Security, Compliance, and Legal Departments

They assume responsibility for participating in the project/program in a manner that reflects the role of those departments, and for ensuring that the project/program is represented by all relevant parties.

6. Specialists and Holders of Technical and Professional Certifications in COBIT 5 Foundation, COBIT 5 Assessor, COBIT 5 Implementation, and CGEIT, Engaged Internally or Externally

They assume the role of guide in disseminating knowledge of the standard and facilitating the implementation process.

Section Eight: Committees

Information Technology Governance Committee

Committee Formation:

- The Committee shall be formed by a decision of the Board of Directors.
- The Committee shall consist of at least three Board members, and it is preferable that its membership include persons with experience or strategic knowledge in information technology.
- The Committee shall elect one of its members as Chairman.
- The Board shall define the Committee's objectives and delegate powers to it in accordance with a charter that sets this out.

Powers of the Committee:

- The Committee may, when necessary and at the Bank's expense, seek the assistance of external experts in coordination with the Chairman of the Board, where needed, in the field of information technology governance and strategic knowledge thereof, on one hand, and to enhance objective opinion on the other.
- The Committee may invite any of the Bank's managers to attend its meetings to seek their opinions, including those concerned with internal audit, members of Senior Executive Management, such as the Chief Risk Officer and Chief Compliance Officer, or those concerned with external audit.

Committee Meetings:

- The Committee works under the supervision of the Board of Directors and submits its periodic reports and recommendations to the Board on the results of its duties.
- The Committee shall meet upon invitation by its Chairman at least quarterly, whenever necessary, pursuant to a decision of the Bank's Board of Directors, or at the request of any of its other members.
- A Committee meeting shall be valid if attended by the majority of members, provided that the Committee Chairman is present. Attendance shall be in person; however, if in-person attendance is not possible, a Committee member may attend the meeting through any means of audiovisual communication to discuss the meeting agenda after the Committee Chairman's approval. The member shall have the right to vote and sign the meeting minutes, provided that the Chairman of the Board and the Secretary certify the meeting minutes and quorum.
- The Committee's recommendations/decisions shall be taken by majority vote of those present. In the event of a tie, the side supported by the Committee Chairman shall prevail, and documented meeting minutes shall be maintained.

Committee Rapporteur:

The Chief Technology Officer shall act as Committee Rapporteur.

Duties and Responsibilities of the Committee:

The Board's delegation of powers to the Committee, or to any other committee, does not relieve the Board as a whole of its responsibilities in this regard. The Committee shall undertake the following duties:

1. Approving the strategic objectives of information technology and the appropriate organizational structures, including steering committees at the Senior Executive Management level, particularly the Information Technology Steering Committee, in a manner that ensures the achievement and fulfillment of the Bank's strategic objectives and the realization of the best added value from information technology projects and resource investments. This includes using the necessary tools and standards to monitor and verify the achievement of this, such as IT Balanced Scorecards, calculating Return on Investment, and measuring the impact of contribution to increasing financial and operational efficiency.
2. Approving the general framework for managing, controlling, and monitoring information technology resources and projects, in line with internationally accepted best practices in this regard, particularly COBIT, and in a manner that is consistent with and fulfills the objectives and requirements of the Instructions on Information and Related Technology Governance and Management issued by the Central Bank. This shall be achieved through the sustainable realization of enterprise objectives and the achievement of the information and related technology goals matrix, covering governance and management objectives.
3. Approving the matrix of enterprise objectives and information and related technology objectives, and defining the sub-objectives required to achieve them.

4. Approving a RACI Chart for the main information technology governance processes and the sub-processes emanating therefrom, in terms of the party, parties, person, or stakeholders that are Responsible, Accountable, Consulted, and Informed for all processes.
5. Ensuring the existence of a general framework for managing information technology risks that is aligned and integrated with the Bank's overall risk management framework, taking into account and meeting all governance and management objectives.
6. Approving the budget for information technology resources and projects in line with the Bank's strategic objectives.
7. Providing general oversight and reviewing the progress of information technology operations, resources, and projects to ensure their adequacy and effective contribution to meeting the Bank's requirements and business needs.
8. Reviewing information technology audit reports and taking the necessary actions to address deviations.
9. Recommending to the Board the necessary actions to correct any deviations.
10. In addition to its duties stipulated in the Instructions, the Information Technology Governance Committee shall approve the significance and priority of governance and management objectives, and the extent of their linkage to Enterprise Goals and Alignment Goals, as well as their linkage to the other six Enablers and Components stated in the Instructions. This shall be based on a qualitative and/or quantitative study prepared for this purpose at least annually, taking into account the Design Factors set out in COBIT 2019 - Design Guide.

Information Technology Steering Committee

The Committee ensures the strategic alignment of information technology, optimal use of resources, realization of benefits, and reduction of risks, in order to achieve the Bank's strategic objectives in a sustainable manner.

Committee Formation:

- The Committee shall be formed by a decision of Senior Executive Management.
- The Committee shall be chaired by the General Manager and shall include Executive Management managers, including the Chief Technology Officer (CTO), the Chief Risk Officer, and the Chief Information Security Officer.
- The Board shall elect one of its members to serve as an observer member on this Committee, in addition to the Chief Internal Audit Officer.

Powers of the Committee:

The Committee may invite third parties to attend its meetings to seek their opinions.

Committee Meetings:

- The Committee shall meet periodically, at least once every three months, or whenever necessary.
- The Committee's recommendations/decisions shall be taken by majority vote of those present. In the event of a tie, the side supported by the Committee Chairman shall prevail. The Committee shall document its meetings in formal minutes.

Quorum:

A Committee meeting shall be valid if attended by at least three members from Category A and two members from Category B, given that the Committee consists of 15 members. The General Manager, Deputy General Manager, Chief Technology Officer, and Chief Risk Officer are classified as Category A, while the remaining members are classified as Category B. The Chief Internal Audit Officer and the Board member shall serve as observer members.

Committee Rapporteur:

The Chief Technology Officer shall act as Committee Rapporteur.

Duties and Responsibilities of the Committee:

The Committee shall, in particular, undertake the following duties:

1. Developing annual plans necessary to achieve the strategic objectives approved by the Board, supervising their implementation to ensure their achievement, and continuously monitoring the internal and external factors affecting them.
2. Linking the enterprise objectives matrix to the information and related technology objectives matrix, approving and continuously reviewing it in a manner that ensures achievement of the Bank's strategic objectives. This includes defining a set of measurement criteria, reviewing them, and assigning the relevant Executive Management members to monitor them continuously and report thereon to the Committee.
3. Recommending the allocation of the necessary financial and non-financial resources to achieve the objectives and governance and management objectives, and utilizing competent and suitable human resources in the right positions through organizational structures that cover all processes necessary to support the objectives, while observing segregation of duties and avoiding conflicts of interest. This also includes adapting the technology infrastructure and other related services to serve the objectives, and overseeing the implementation of governance and management projects and objectives.
4. Prioritizing information technology projects and programs.
5. Monitoring the level of technical and technological services and working to enhance their efficiency and improve them continuously.
6. Submitting the necessary recommendations to the Information Technology Governance Committee regarding the following:
   - Allocation of the necessary resources and mechanisms to achieve the duties of the Information Technology Governance Committee.
   - Any deviations that may adversely affect the achievement of strategic objectives.
   - Any unacceptable risks related to technology, information security, and information protection.
   - Performance and compliance reports regarding the requirements of the general framework for managing, controlling, and monitoring information technology resources and projects.
7. Providing the Information Technology Governance Committee with the minutes of its meetings on an ongoing basis and obtaining confirmation that they have been reviewed.

Section Nine: Internal and External Audit

A. The Board must allocate sufficient budgets and assign the necessary tools and resources, including qualified human resources through specialized departments for information technology audit. The Board must also ensure that both the Bank's Internal Audit Department and the external auditor are capable of technically and professionally reviewing and auditing the utilization and management of information technology resources and projects, as well as the Bank's operations based thereon, through specialized IT Audit conducted by qualified and internationally certified professional staff holding valid professional certifications, such as CISA, from international associations qualified under international accreditation standards for professional certification bodies and/or any equivalent standards.

B. The Audit Committee emanating from the Board, on one hand, and the external auditor, on the other hand, must provide the Central Bank of Jordan with an annual internal audit report and an annual external audit report, respectively. Each report shall include Executive Management's response, the Board's review, and the Board's recommendations thereon, in accordance with item d/2 of this Article and the approved template, during the first quarter of each year.

C. The Audit Committee must include the responsibilities, powers, and scope of work of information technology audit within the Audit Charter, on one hand, and within procedures agreed upon with the external auditor, on the other hand.

D. The Board must ensure, through its Audit Committee, that the Bank's internal auditor and external auditor, when performing specialized audits of information and related technology, comply with the following:
   1. Information technology audit standards in accordance with the latest update of the International Technology Assurance Framework (ITAF) issued by the Information Systems Audit and Control Association (ISACA), including:
      - Conducting audit engagements under an approved plan in this regard, taking into account the materiality of operations, the level of risk, and the degree of impact on the Bank's objectives and interests.
      - Providing and complying with training and continuing education plans by the specialized staff in this regard.
      - Complying with professional and administrative independence standards and ensuring the absence of current or future conflicts of interest.
      - Complying with standards of objectivity, exercising professional due care, and continuously maintaining a competitive and professional level of knowledge and skills that must be possessed, as well as in-depth knowledge of the Bank's various information technology-based mechanisms and operations and other review and audit reports, financial, operational, and legal. This also includes the ability to provide evidence appropriate to the situation and general awareness in detecting unacceptable practices that violate the provisions of laws, regulations, and instructions.

2. Examining, assessing, and reviewing the processes for utilizing and managing information technology resources and the Bank's operations based thereon, and providing Reasonable Overall Audit Assurance regarding the overall level of information and related technology risks within an audit program that includes, at minimum, the areas set out in the guide issued by the Central Bank. The audit frequency for all or part of these areas shall be at least once annually if the risk is assessed at level 5 or 4 according to the risk assessment scale, at least once every two years if the risk is assessed at level 3, and at least once every three years if the risk is assessed at level 2 or 1, taking into account the continuous change in the level of risk and the material changes that occur in the information and related technology environment during the above audit periods. The Central Bank of Jordan shall be provided with audit reports for the first time regardless of the risk assessment level. The assessment of the above areas shall include the Bank's mechanisms in terms of strategic planning, setting policies and principles, written and approved work procedures, mechanisms for utilizing various resources, including information technology resources and human resources, and monitoring, improvement, and development mechanisms and tools. The audit results shall be documented and assessed based on the significance of deficiencies and weaknesses, observations, in addition to the activated controls and the assessment of the residual risk level related to each of them, using a systematic risk analysis and measurement standard. This shall include the corrective actions agreed upon and intended to be followed by the Bank's Management, with specific correction dates, while indicating in a special table the rank of the responsible person in the Bank who owns each observation.Management, with specific correction dates, while indicating in a special table the rank of the responsible person in the Bank who owns each observation.
3. Establishing regular procedures to follow up on audit results to ensure that the observations and deficiencies included in the auditor's reports are addressed within the specified deadlines, and gradually escalating the level of significance and risk in the event of non-response, while keeping the Board informed whenever necessary.
4. Including objective measurement criteria in the annual performance evaluation mechanisms for information technology audit staff, taking into account all matters stated in item d above. The evaluations shall be conducted by the Board, represented by its Audit Committee, and in accordance with the organizational reporting hierarchy of the audit departments.

E. Internal audit services for information and related technology may be outsourced to an external specialized party that is fully independent from the external auditor appointed in this regard, provided that all requirements of the Central Bank's instructions in this regard and any other relevant instructions are met, and that the Audit Committee emanating from the Board and the Board itself retain their roles in examining compliance and ensuring that these requirements are met at a minimum.

The internal and external auditor's reports may be approved by the Information Technology Governance Committee or the committee acting in its place, provided that the Board is informed of the reports.

Section Ten: Principles, Policies, and Frameworks

- The Board, or any committee delegated by it, must approve the system of principles, policies, and frameworks necessary to achieve the general framework for managing, controlling, and monitoring information technology resources and projects, in a manner that meets the requirements of the objectives and governance and management objectives.
- The Board, or any committee delegated by it, must approve the principles, policies, and frameworks, particularly those related to information technology risk management, information security management, and human resources management, which meet the requirements of governance and management objectives.
- The Board, or any committee delegated by it, must approve the system of policies necessary to manage resources and governance and management objectives. Each policy must identify the owner, scope of application, frequency of review and update, access and distribution powers, objectives, responsibilities, related work procedures, penalties in case of non-compliance, and compliance review mechanisms.
- When establishing policies, the contribution of all internal and external partners must be taken into account, and international best practices and their updates must be adopted as references for drafting such policies.

Section Eleven: Organizational Structures

- The Board must approve hierarchical organizational structures and committees, particularly those related to the management of information technology resources, operations, and projects, information technology risk management, information security management, and human resources management, which meet the requirements of governance and management objectives and achieve the Bank's objectives efficiently and effectively.
- When approving or amending the Bank's organizational structures, the segregation of inherently conflicting duties, the organizational protection requirements related to dual control at a minimum, and the adequacy and updating of job descriptions must be ensured.

Section Twelve: Information and Reports

- The Board and Senior Executive Management must develop the infrastructure and information systems necessary to provide information and reports to their users as a basis for the Bank's decision-making processes. Accordingly, information quality requirements must be met, including reliability, confidentiality requirements according to the Data Classification Policy, availability requirements, and compliance with such information and reports, in addition to the other requirements set out in COBIT 5 – Enabling Information.
- The Board, or any committee delegated by it, must approve the information and reports system, taking into account the designation of owners for such information and reports. Through them, access and use powers shall be defined and delegated according to business needs and the relevant partners. This system shall be continuously reviewed and developed to keep pace with the development of the Bank's objectives and operations, in line with internationally accepted best practices in this regard.

Section Thirteen: Information Technology Services, Tools, Programs, and Infrastructure

- The Board, or any committee delegated by it, and Senior Executive Management must approve the system of information technology services, tools, programs, and infrastructure that supports and assists in achieving governance and management objectives, and accordingly the objectives of information and related technology, and ultimately the enterprise objectives.
- The Board, or any committee delegated by it, and Senior Executive Management must approve the system of information technology services, tools, programs, and infrastructure, provided that it is continuously provided and developed to keep pace with the development of the Bank's objectives and operations, in line with internationally accepted best practices in this regard.

Section Fourteen: Knowledge, Skills, and Experience

- The Board, or any committee delegated by it, must approve the HR Competencies Matrix and human resources management policies necessary to meet the requirements of governance and management objectives and the requirements of the Central Bank of Jordan's instructions in general, and to ensure that the right person is placed in the right position.
- The Bank's Management must employ qualified and trained human resources with experience in information technology resource management, risk management, information security management, and information technology audit management, based on recognized academic and professional knowledge and practical experience standards issued by international associations qualified under international accreditation standards for professional certification bodies and/or any equivalent standards, each according to their specialization.
- The Bank's Executive Management must continue enrolling its employees in training and continuing education programs to maintain a level of knowledge and skills that meets and achieves governance and management objectives.
- The Bank's Executive Management must include, within the annual performance evaluation mechanisms for staff, objective measurement criteria that take into account the contribution of the job position to achieving the Bank's objectives.

Section Fifteen: Values, Ethics, and Conduct System

- The Board, or any committee delegated by it, must approve an institutional professional ethics system that reflects internationally accepted professional conduct rules regarding dealing with information and related technology, and clearly defines desired and undesired conduct and their consequences.
- The internal auditor and external auditor must comply with the ethics and professional practices system approved by the Board, provided that it includes, at minimum, the professional ethics system set out in the International Technology Assurance Framework (ITAF) issued by the Information Systems Audit and Control Association (ISACA) and its updates.
- The Board and Senior Executive Management must use various mechanisms to encourage desired conduct and avoid undesired conduct, including, but not limited to, incentive and penalty methods.

Section Sixteen: Outsourcing Agreements with Third Parties

When entering into outsourcing agreements with third parties to provide human resources, services, programs, and information technology infrastructure for conducting the Bank's operations, the Bank must ensure that such third parties comply with the provisions of the Instructions on Information and Related Technology Governance and Management, either fully or partially, to the extent proportionate to the importance and nature of the Bank's operations and the services, programs, and infrastructure provided, before and during the contract period. This shall not relieve the Board and Senior Executive Management of their ultimate responsibility for meeting the requirements of the Instructions, including audit requirements.

Statement on Compliance with the Information and Related Technology Governance and Management Manual (COBIT)

Bank Etihad complies with the Central Bank of Jordan's instructions related to information technology governance.

Consolidated financial statements for the Year ended December 31, 2025

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Bank Al Etihad

Amman – Jordan

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Bank Al Etihad "the Bank" and its subsidiaries "the Group" which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards, are further described in the Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in Jordan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended 31 December 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

1. Adequacy of expected credit losses provision for credit facilities

Refer to the note (9) to the consolidated financial statements

Key Audit matter

This is considered as a key audit matter as the Group exercises significant judgement to determine when and how much to record as expected credit losses.

The provision for credit facilities is recognized based on the Bank's provisioning and impairment policy which complies with the requirements of IFRS 9.

Credit facilities form a major portion of the Bank's assets, there is a risk that inappropriate expected credit losses provisions are booked, whether from the use of inaccurate underlying data, or the use of unreasonable assumptions. Due to the significance of the judgments used in classifying credit facilities into various stages stipulated in IFRS 9 and determining related provision requirements, this audit area is considered a key audit matter.

As at 31 December 2025, the Bank's gross credit facilities amounted to JD 6,967,585,960 and the related expected credit losses provisions amounted to JD 514,362,163. The expected credit losses provision policy is presented in the accounting policies in note (2) to the consolidated financial statements.

How the key audit matter was addressed in the audit

Our audit procedures included the following:

- We gained an understanding of the Bank's key credit processes comprising granting and booking and tested the operating effectiveness of key controls over these processes.
- We read the Bank's impairment provisioning policy and compared it with the requirements of the International Financial Reporting Standards as well as relevant regulatory guidelines and pronouncements.
- We assessed the Bank's expected credit loss model, in particular focusing on its alignment of the expected credit loss model and its underlying methodology with the requirements of IFRS 9.
- We tested a sample of exposures, assessed on an individual basis and performed procedures to evaluate the following:
  - Appropriateness of the bank's staging.
  - Appropriateness of determining Exposure at Default, including the consideration of repayments in the cash flows and the resultant arithmetical calculations
  - Appropriateness of the PD, EAD and LGD for different exposures at different stages.
  - Appropriateness of the internal rating and the objectivity, competence and independence of the specialists involved in this exercise.
  - Soundness and mathematical integrity of the ECL Model.
  - For exposures moved between stages we have checked the appropriateness of the Bank's determination of significant increase in credit risk and the resultant basis for classification of exposures into various stages. We also checked the timely identification of exposures with a significant deterioration in credit quality.
  - For exposures determined to be individually impaired we re-preformed the ECL calculation we also obtained an understanding of the latest developments in the counterparty's situation of the latest developments in estimate of future cash flows, current financial position any rescheduling or restructuring agreements.

– For forward looking assumptions used by the Group in its Expected Credit Loss ("ECL") calculations, we held discussions with management and corroborated the assumptions using publicly available information.

We assessed the financial statements disclosures to ensure compliance with IFRS 9. Refer to the accounting policies, critical accounting estimates and judgments, disclosures of credit facilities and on credit risk in notes (2), (4), and (9) to the consolidated financial statements.

2. Business Combination

Refer to the note (52) to the consolidated financial statements

Key Audit matter

During the year, the Group signed an agreement to acquire Invest Bank, as disclosed in Note 52. As a result of this acquisition, the Group booked a bargain purchase gain on acquisition amounting to JD 75,144,443.

This transaction was accounted for in accordance with IFRS 3 "Business Combination" Management applied the acquisition method to account for the above acquisition process, which requires:

- identifying the acquirer;
- determining the acquisition date;
- recognizing and measuring the identifiable assets acquired, the liabilities assumed, and any non-controlling interests in the acquiree; and
- recognizing and measuring goodwill or a gain from a bargain purchase.

Group engaged a team of independent external valuation specialist to perform the preliminary purchase price allocation, including determining the initial measurement of the fair values of the acquired assets and any contingent liabilities, and identifying and measuring intangible assets, where applicable.

We considered the acquisition to be a key audit matter due to the magnitude of the transaction and the complexities that existed in business combination, particularly the professional judgments and estimates used in:

- the preliminary allocation of the purchase consideration amount to identifiable assets acquired and contingent liabilities;
- the adjustments performed to align the accounting policies of the acquired business with the Group's accounting policies.

How the key audit matter was addressed in the audit

Our audit procedures included, among others:

- evaluating the design and operating effectiveness of controls related to the recognition of this transaction;
- assessing whether management's assumptions and judgments in accounting for this transaction were consistent with the requirements of IFRS 3; and
- matching the fair values of assets and liabilities identified by management with the amounts presented in the consolidated financial statements.

As part of our procedures performed on the purchase price allocation, we:

- evaluated the completeness and accuracy of the acquired assets and contingent liabilities included in the purchase price allocation;
- with the involvement of our internal specialist, assessed the key assumptions and significant inputs used by the Group, including the identification of intangible assets and the determination of the useful lives of the identified intangible assets;
- with the involvement of our internal specialist, evaluated the fair values of a sample of acquired assets and assumed liabilities;
- analyzed the fair value adjustments recognized by management and assessed whether such adjustments were consistent with the requirements of IFRS 3;
- with the involvement of our internal specialist, evaluated the bargain purchase gain recognized by management and assessed whether it was accounted for in accordance with IFRS 3.

We also assessed the related disclosures in the consolidated financial statements in accordance with the requirements of IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB)

Other information included in the Group's 2025 annual report

Other information consists of the information included in the group's 2025 Annual Report other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information. The group's 2025 Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB), and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exist, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period, and are therefore the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonable be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

The Bank maintains proper books of accounts which are in agreement with the consolidated financial statements.

The partner in charge of the audit resulting in this auditor's report was Osama Shakhatreh; license number 1079.

THE ACCOMPANYING NOTES FROM (1) TO (55) FORM AN INTEGRAL PART OF THESE CONSOLIDATED FINANCIAL STATEMENTS AND SHOULD BE READ WITH THEM

1. General Information

Bank Al Etihad is a public shareholding company incorporated in Jordan during 1978, in accordance with the Companies Law No (12) of (1964). Its main branch is located in Amman, and the Company was transformed into a bank during the year 1991.

The Bank provides all of its financial and banking services through its main branch located in Amman and through its fifty branches and its subsidiaries in Jordan and Iraq branch, and the number of Safwa Bank branches inside the Kingdom reached forty five branches and its subsidiary.

On July 3, 2025, the Bank finalized all legal procedures to transfer the full ownership of Invest Bank's shares, which have been duly registered under Bank Al Etihad. Invest Bank operates its activities through its headquarters and twelve branches across the Kingdom, as well as through its subsidiaries.

The Bank's shares are listed and traded on Amman Stock Exchange - Jordan.

The consolidated financial statements were approved by the Board of Directors on 24 February 2026 and are subject to approval by the General Assembly of Shareholders and the Central Bank of Jordan.

2. Material Accounting Policies

Basis of Preparation of the Consolidated Financial Statements

The consolidated financial statements of the Bank and its subsidiaries have been prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board and the interpretations issued by the IFRS Interpretations Committee.

The Bank complies with applicable local laws and the regulations of the Central Bank of Jordan.

The consolidated financial statements are prepared on the historical cost basis except for financial assets at fair value through statement of income, financial assets at fair value through other comprehensive income and financial derivatives which have been measured at fair value at the date of the consolidated financial statements. Moreover, fair value hedged assets and liabilities are stated at fair value.

The consolidated financial statements are presented in Jordanian Dinar (JD) which is the functional currency of the Bank.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Bank and its subsidiaries were the Bank holds control over the subsidiaries. The control exists when the Bank controls the subsidiaries significant and relevant activities and is exposed. or has rights. to variable returns from its involvement with the subsidiaries and has the ability to affect those returns through its power over the subsidiaries. All transactions balances. income and expenses between the Bank and subsidiaries are eliminated. The following subsidiaries were consolidated in the Group's financial statements:

The Bank owns the following subsidiaries as of 31 December 2025:

The new name became effective on 23 September 2025. This change does not affect the company's legal structure, operational activities, or ownership.

B. Investment in Foreign branches

The Bank owns capital investments in the following foreign branches as of 31 December 2025:

Company's Name	Ownership of the Bank	31 December 2025		Nature of Operation	Establishment year	Location
		Paid-up Capital	Investment amount			
	%	JD	JD			
Bank al Etihad – Iraq Branch	100	56,720,000	56,720,000	Commercial Bank	2024	Iraq
		56,720,000	**56,720,000**			

The Bank owns capital investments in the following foreign branches as of 31 December 2024:

Company's Name	Ownership of the Bank	31 December 2024		Nature of Operation	Establishment year	Location
		Paid-up Capital	Investment amount			
	%	JD	JD			
Bank al Etihad – Iraq Branch	100	35,450,000	35,450,000	Commercial Bank	2024	Iraq
		35,450,000	**35,450,000**			

The financial statements of the subsidiaries are prepared for the same financial year of the Bank and by using the same accounting policies adopted by the Bank. If the accounting policies adopted by the subsidiaries are different from those used by the Bank the necessary adjustments to the financial statements of the subsidiaries are made to comply with the accounting policies used by the Bank.

The results of the subsidiaries' operations are consolidated in the consolidated statement of income from the date the Bank obtains control over the subsidiaries, which is the date on which control is actually transferred. The results of the subsidiaries that were disposed of are included in the consolidated statement of icome up to the date of disposal, which is the date on which the Bank loses control over the subsidiaries.

Non-controlling interest represents the portion that is not owned by the Bank in the owner's equity in the subsidiary companies.

Significant Accounting Policies

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 Financial Instruments, is measured at fair value with changes in fair value recognised in the consolidated statement of comprehensive income.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Recognition of Interest Income

The effective interest rate method in accordance with IFRS 9, interest income is recognized using the effective interest rate method for all financial instruments at amortized cost and financial instruments at fair value through the income statement or through other comprehensive income. The effective interest rate is the rate that discounts estimated future cash receipts over the expected life of the financial instrument, or shorter period, to the net carrying amount of the financial asset.

The EIR (and therefore, the amortized cost of the asset) is calculated by considering any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Group recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognizes the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations regarding the cash flows on the financial assets are revised for reasons other than credit risk. The adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the consolidated statement of financial position with an increase or reduction in interest income. The adjustment is subsequently amortized through interest and similar income in the consolidated statement of income.

Interest and similar income and expense

According to International Financial Reporting Standard (IFRS) 9, interest income is recognized using the effective interest rate method for all financial instruments measured at amortized cost and for financial instruments at fair value through profit or loss or through other comprehensive income.

The effective interest rate is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument, or, for a shorter period, to the net carrying amount of the financial asset.

When the recorded value of a financial asset or a group of similar financial assets has been reduced by an impairment loss, interest income continues to be recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Fee and commission income

Fee income can be divided into the following two categories:

A. Fee income earned from services that are provided over a certain period

Fees earned for the provision of services over a period are accrued over that period. These fees include commission income and private wealth and asset management fees, custody and other management fees.

B. Fee income forming an integral part of the corresponding financial instrument

Fees that the Bank considers to be an integral part of the corresponding financial instruments include loan origination fees, loan commitment fees for loans that are likely to be drawn down and other credit-related fees.

Financial guarantees, letters of credit and undrawn loan commitments

The Group issues financial guarantees, letters of credit and loan commitments.

Financial guarantees are initially recognized in the consolidated financial statements (within other liabilities) at fair value, being the premium received. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amount initially. Recognized less cumulative amortization recognized in the consolidated statement of income and an expected credit losses provision.

The premium received is recognized in the consolidated income statement after deducting fees and commission income, based on a straight-line basis over the warranty period.

Undrawn loan commitments and letters of credit are commitments under which, over the duration of the commitment, the Group is required to provide a loan with pre-specified terms for the customer. Like financial guarantee contracts, these contracts are in the scope of the ECL requirements.

The nominal contractual value of financial guarantees, letters of credit and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded on in the consolidated statement of financial position.

The Group occasionally issues loan commitments at below market interest rates drawdown. Such commitments are subsequently measured at the higher of the amount of the ECL and the amount initially recognized less, when appropriate, the cumulative amount of income recognized.

Segmental Information

Business sector represents a group of assets and operations that jointly provide products or services subject to risks and returns different from those of other business segments. which were measured according to the reports used by the General Manager and the Bank's decision maker.

Geographical sector relates to providing products or services in an economic environment subject to specific risks and returns different from those operating in other sectors of other economic environments.

Direct Credit Facilities

Direct credit facilities are financial assets with fixed or determinable payments which are provided basically by the Bank or have been acquired and has no market price in the active markets. which are measured at amortized cost.

A provision for the impairment in direct credit facilities is recognized through the calculation of the expected credit loss in accordance with International Financial Reporting Standard 9.

Interest and commission earned on non-performing granted credit facilities are suspended in accordance with the instructions of the Central Bank of Jordan and in accordance with the instructions of the regulatory authorities whichever is more conservative in countries where the bank has its branches or subsidiaries.

When direct credit facilities are uncollectible, they are written off against the provision account. Any surplus in the provision is reversed through the consolidated statement of income. and subsequent recoveries of amounts previously written off are credited to revenue.

Fair Value

Fair value represents the closing market price (Assets Purchasing/ Liabilities Selling) of financial assets and derivatives on the date of the consolidated financial statements in active markets. In case declared market prices do not exist active trading of some financial assets and derivatives is not available or the market is inactive fair value is estimated by one of several methods including the following:

- Comparison with the fair value of another financial asset with similar terms and conditions.
- Analysis of the present value of expected future cash flows for similar instruments.
- Adoption of the option pricing models.
- Evaluation of long-term assets and liabilities that bear no interest through discounting cash flows and amortizing premium/ discount using the effective interest rate method within interest revenue / expense in the consolidated statement of income.

The valuation methods aim to provide a fair value reflecting the market's expectations taking into consideration the market expected risks and expected benefits when the value of the financial assets. When the financial assets fair value can't be reliably measured. they are stated at cost less any impairment.

Investment in Associate

An associate company is the company whereby the bank exercises effective influence over their decisions related to financial and operational policies without control. with the bank owning from (20%) to (50%) of the voting rights. and is stated in accordance with the equity method.

Under the equity method, the investment in an associate initially recognised at cost, the carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associates since the acquisition date. Goodwill relating to the associates is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The consolidated income statement reflects the Group's share of the results of operations of the associates. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income (OCI). In addition, when there has been a change recognised directly in the equity of the associates, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associates.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the consolidated income statement within operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

Revenues and expenses resulting from transactions between the Bank and the associate company are eliminated according to the bank's ownership percentage in these company.

Financial Assets at Amortized Cost

Are the assets that the bank's management intends to hold for the purpose of collecting the contractual cash flows which represent the cash flows that are solely payments of principal and interest on the outstanding principal.

Financial assets are recorded at cost upon purchase plus acquisition expenses. Moreover the issue premium\ discount is amortized using the effective interest associated with the decline in value of these investments leading to the inability to recover the investment or parts thereof are deducted. any impairment is registered in the consolidated statement of income and should be presented subsequently at amortized cost less any impairment losses.

The amount of impairment loss recognised at amortized cost is the expected credit loss of the financial assets at amortized cost.

It is not allowed to reclassify any financial assets from/to this category except for certain cases that are specified by the International Financial Reporting Standards (And if in any cases these assets are sold before the maturity date the result of sale will be recorded in the consolidated statement of income in a separated disclosure and caption in according to the International Financial Reporting Standards in specific).

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Financial Assets at Fair Value through Profit or Loss

It is the financial assets purchased by the bank for the purpose of trading in the near future and achieving gains from the fluctuations in the short-term market prices or trading margins.

Financial assets at fair value through profit or loss are initially stated at fair value at acquisition date (purchase costs are recorded in the consolidated statement of income upon acquisition) and subsequently measured in fair value. Moreover, changes in fair value are recorded in the consolidated statement of income including the change in fair value resulting from translation of non-monetary assets stated at foreign currency. Gains or losses resulting from the sale of these financial assets or part of them are taken to the consolidated statement of income.

Dividends and interests from these financial assets are recorded in the consolidated statement of income.

It is not allowed to reclassify any financial assets to / from this category except for the cases specified in International Financial Reporting Standard.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, the date that the Group commits to purchase or sell the asset.

Financial Assets at Fair Value through Other Comprehensive Income

These financial assets represent the investments in equity instruments held for the long term.

These financial assets are recognized at fair value plus transaction costs at purchase date and are subsequently measured at fair value in the consolidated statement of comprehensive income and within owner's equity including the changes in fair value resulting from translation of non-monetary assets stated in foreign currency. Gain or loss from the sale of these investments or part of them should be recognized in the consolidated statement of comprehensive income and within owner's equity and the balance of the revaluation reserve for these assets should be transferred directly to the retained earnings not to the consolidated statement of income.

No impairment testing is required for these assets. Unless classified debt instrument as financial assets at fair value through other comprehensive income. in that case. the impairment is calculated through the expected credit loss model.

Dividends are recorded in the consolidated statement of income.

Upon initial recognition, the Bank occasionally elects to classify irrevocably some of its equity investments as equity instruments at fair value through other comprehensive income when they meet the definition of definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit. Dividends are recognised in profit or loss as other operating income when the right of the payment has been established, except when the Bank benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in other comprehensive income. Equity instruments at fair value through other comprehensive income are not subject to an impairment assessment.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, the date that the Group commits to purchase or sell the asset.

Impairment in Financial Assets

Overview of the expected credit losses principles

The adoption of International Financial Reporting Standard (IFRS) 9 has significantly changed the Group's method of calculating impairment losses, replacing the methodology of recognizing impairment losses when incurred under International Accounting Standard (IAS) 39 with a forward-looking expected credit loss approach.

The Group records provisions for expected credit losses for all loans and other financial assets not held at fair value through profit or loss, in addition to unused limits of direct facilities and financial guarantee contracts (such as letters of credit and guarantees), collectively referred to as "financial instruments". Equity instruments (shares) are not subject to impairment testing under International Financial Reporting Standard (IFRS) 9

The provision for expected credit losses is based on the expected credit losses over a 12-month period, unless there has been a significant increase in credit risk since the initial recognition of the asset, in which case the provision is based on the lifetime expected credit losses.

Expected credit losses, whether for the lifetime of the credit exposure or for a 12-month exposure, are calculated either on an individual basis or on a collective basis, depending on the nature of the financial instruments in the portfolio.

Expected credit losses, whether for the lifetime of the credit exposure or for a 12-month credit exposure, are calculated either on an individual basis or on a collective basis, depending on the nature of the financial instruments in the portfolio.

The Group has implemented a policy outlining how assessment procedures are applied either on an individual basis for a financial instrument or on a portfolio basis.

Based on the above process. the Group groups its loans into Stage 1. Stage 2 and Stage 3. as described below:

Stage 1:	Upon initial recognition of loans, the Group records a provision based on the expected credit losses corresponding to the 12-month probability of default on the credit exposure. Stage 1 also includes facilities that were previously in Stage 1 with no significant change in their credit risk, as well as loans that have been reclassified from Stage 2.
Stage 2:	When a loan has shown a significant increase in credit risk since origination. the Group records an allowance for the lifetime expected credit losses. Stage 2 loans also include facilities. where the credit risk has improved and the loan has been reclassified from Stage 3.
Stage 3:	Loans that are considered credit impaired (default). The Group records an allowance for the lifetime expected credit losses.

The calculation of expected credit losses

The Group calculates the expected credit losses in accordance with the International Financial Reporting Standard Number 9 which is disclosed in Note 4.

Collateral repossessed

The Bank's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date in, line with the Bank's policy.

In its normal course of business, the Bank engages external agents to recover funds from the repossessed assets, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, the residential properties under legal repossession processes are not recorded on the consolidated statement of financial position.

Property and Equipment

Property and equipment are stated at cost net of accumulated depreciation and any impairment loss in its value. Moreover Property and Equipment (except for land) are depreciated according to the straight-line method over the estimated useful lives when ready for use of these assets using the following annual rates:

	%
Buildings	2-4
Equipment, furniture, and fixtures	7-25
Vehicles	14-20
Computer	17-25

When the carrying amount of property and equipment exceeds their recoverable value. assets are written down and impairment loss is recorded in the consolidated statement of income.

The useful lives of property and equipment are reviewed at the end of each year. in case the expected useful life is different from what was determined before the change in estimate is recorded in the following years being a change in estimates.

Property and equipment are derecognized when disposed or when there is no expected future benefit from their use or disposal.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes the amount of lease obligations recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life or the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists. or when annual impairment testing for an asset is required. the Bank makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset. unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount. the asset is considered impaired and is written down to its recoverable amount. In assessing value in use. the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell. an appropriate valuation model is used. These calculations are corroborated by valuation multiples. quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Intangible Assets

A. Goodwill

Goodwill is recognized at cost and represents the excess of the acquisition costs or investment costs in an affiliate or a subsidiary over the net assets fair value of the affiliate or subsidiary as of the acquisition date. Goodwill arises from the investment in the subsidiary recognized as a separate item in intangible assets. Later on. goodwill will be reviewed and reduced by any impairment amount.

Goodwill is allocated to cash generating unit(s) to test impairments in its value.

Impairment testing is done on the date of the consolidated financial statements. Goodwill is reduced if the test indicates that there is impairment in its value. and that the estimated recoverable value of the cash generating unit(s) relating to goodwill is less than the book value of the cash generating unit(s). Impairment is recognized in the consolidated statement of income.

B. Other Intangible assets

Intangible assets purchased in an acquisition are stated at fair value at the date of acquisition. Other intangible assets purchased other than through acquisition are recorded at cost.

Intangible assets are to be classified on the basis of either definite or indefinite useful life. Intangible assets with definite useful economic lives are amortized over their useful lives and recorded as an expense in the consolidated statement of income. Intangible assets with indefinite lives are reviewed for impairment as of the consolidated financial statements date. and impairment loss is recorded in the consolidated statement of income.

No capitalization of intangible assets resulting from the banks' operations is made. They are rather recorded as an expense in the consolidated statement of income in the same year.

Any indications of impairment in the value of intangible assets as of the consolidated financial statements date are reviewed. Furthermore. the estimated useful lives of the impaired intangible assets are reassessed. and any adjustment is made in the subsequent periods.

The Group made upfront payments to acquire patents and licences. The patents have been granted for a period of 10 years by the relevant government agency with the option of renewal at the end of this period. Licences for the use of intellectual property are granted for periods ranging between five and ten years depending on the specific licences. The licences may be renewed at little or no cost to the Group. As a result, those licences are assessed as having an indefinite useful life.

The intangible asset with a specified useful life appears of cost after deducting the annual amortization. These assets were amortized by using the straight-line method on the useful life using the following percentages:

	%
Software	25
Customer relationships	12.5
Customer deposits	12.5

Provisions

Provisions are recognized when the bank has an obligation on the date of the consolidated financial statement arising from a past event and the costs to settle the obligation is probable and can be reliably measured.

Provision for employees' end-of-service indemnity

A provision is recognized for legal and contractual end-of-service obligations for employees based on each employee's length of service as of the consolidated statement of financial position date, in accordance with the Bank's internal regulations.

Income Tax

Income tax expenses represent accrued tax and deferred tax.

Income tax expenses are accounted for on the basis of taxable income. Moreover taxable income differs from income declared in the consolidated financial statements because the latter includes non-taxable revenues or taxable expenses disallowed in the current year but deductible in subsequent years accumulated losses acceptable by the tax law and items not accepted for tax purposes or subject to tax.

Tax is calculated based on the tax rates according to the prevailing laws regulations and instructions of the countries where the bank operates.

Deferred tax is the tax expected to be payable or recoverable because of temporary differences between the carrying amounts of assets or liabilities in the consolidated financial statements and the amounts used for calculating taxable profit. Deferred tax is calculated using the Deferred tax is the tax expected to be payable or recoverable because of temporary differences between the carrying amounts of assets or liabilities in the consolidated financial statements and the amounts used for calculating taxable profit. Deferred tax is calculated using the balance sheet liability method and is measured at the tax rates that are expected to apply when the related deferred tax liability is settled

or the deferred tax asset is realized. Liability method is measured at the tax rates that are expected to apply when the related deferred tax liability is settled, or the deferred tax asset is realized.

Deferred tax assets and liabilities are reviewed as of the date of the consolidated financial statements and reduced in case it is expected that no benefit will arise from payment or the elimination of the need for deferred tax liabilities partially or totally.

Capital Cost of Issuing or Buying the Bank's Shares

Cost arising from the issuance or purchase of the bank's shares are charged to retained earnings (net of the tax effect of these costs if any). If the shares issuance or purchase process is incomplete these costs are recorded as expenses in the consolidated statement of income.

Accounts Managed on Behalf of Customers

These represent the accounts managed by the bank on behalf of its customers but do not represent part of the bank's assets. The fees and commissions on such accounts are shown in the consolidated statement of Income. A provision against the impairment in the capital-guaranteed portfolios managed on behalf of customers is taken.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and the Bank intends to either settle them on a net basis or to realize the asset and settle the liability simultaneously.

Realization of Income and Recognition of Expenses

Interest income is realized by using the effective interest method except for interest and commissions from non-performing credit facilities which are not recognized as income and are recorded in the interest and commissions in suspense account.

Expenses are recognised according to the accrual basis.

Commission is recorded as revenue when the related services are provided. moreover dividends are recorded when realized (decided upon by the General Assembly of Shareholders).

Date of Recognizing Financial Assets

Purchases and sales of financial assets are recognized on the trading date (which is the date on which the bank commits itself to purchase or sell the asset).

Hedge Accounting and Financial Derivatives

Financial Derivatives for Hedging:

For the purpose of hedge accounting the financial derivatives appear at fair value.

Fair Value Hedges:

A fair value hedge is a hedge against the exposure to changes in the fair value of the bank's recognised assets or liabilities.

When the conditions of an effective fair value hedge are met the resulting gains and losses from the valuation of the fair value hedge and the change in the fair value of the hedged assets or liabilities is recognised in the consolidated statement of income.

When the conditions of an effective portfolio hedge are met the gain or loss resulting from the revaluation of the hedging instrument at fair value as well as the change in the fair value of the assets or liabilities portfolio are recorded in the consolidated income statement for the same year.

Cash flow Hedges:

Hedge for the change in the current and expected cash flows exposures of the Bank's assets and liabilities.

When the conditions of an effective cash flow hedge are met the gain or loss of the hedging instruments is recognized in the statement of comprehensive income and owner's equity. such gain or loss is transferred to the consolidated statement of income in the period in which the hedge transaction impacts the consolidated statement of income.

When the condition of the effective hedge do not apply the gain or loss resulting from the change in the fair value of the hedging instrument is recorded in the consolidated statement of income the same year.

Financial derivatives for trading

The fair value of derivative financial instruments held for trading purposes (such as forward foreign exchange contracts, future interest contracts, swap contracts, and foreign exchange option rights) is recorded in the consolidated statement of financial position. The fair value is determined based on prevailing market prices. If these are not available, the valuation method is stated, and the amount of changes in fair value is recorded in the consolidated statement of income.

Assets Seized by the Bank against Due Debts

Assets that have been the subject of foreclosure by the bank are shown under "other assets" at the acquisition value or fair value whichever is lower. As of the consolidated statement of financial position date these assets are revalued individually at fair value. any decline in their market value is taken to the consolidated statement of income as a loss whereas any such increase is not recognized. Subsequent increase is taken to the income statement to the extent it does not exceed the previously recorded impairment.

Repurchase and Resale Agreements

Assets sold with a simultaneous commitment to repurchase at a specified future date will continue to be recognised in the bank's consolidated financial statements due to the bank's continuing exposure to the risks and rewards of these assets using the same accounting policies. (The buyer has the right to control such assets (by sale or pledge as collateral) which are reclassified as financial assets pledged as collateral). The proceeds of the sale are recorded under loans and borrowings. The difference between the sale and repurchase price is recognised as an interest expense over the agreement term using the effective interest method.

Assets purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the bank's consolidated financial statements since the bank is not able to control these assets and since any risks and benefits do not accrue to the bank when they occur. The related payments are recognised as part of deposits at banks and financial institutions or direct credit facilities as applicable. Moreover the difference between the purchase and resale price is recognised in the consolidated statement of income over the agreement term using the effective interest method.

Foreign Currencies

Transactions in foreign currencies during the year are recorded at the exchange rates prevailing at the date of the transactions. Moreover. financial assets and financial liabilities are translated to Jordanian Dinar based on the average exchange rates declared by the Central Bank of Jordan on the date of the consolidated financial statements.

Non-monetary assets and liabilities denominated in foreign currencies and recorded at fair value are translated on the date when their fair value is determined.

Gains and losses arising from foreign currency translation are recognized in the consolidated income statement.

Translation differences for non-monetary assets and liabilities denominated in foreign currencies (such as shares) are recorded as part of the change in fair value.

When consolidating the financial statements assets and liabilities of the branches and subsidiaries abroad are translated from the (primary) currency to the currency used in the financial statements using the average exchange rates prevailing on the consolidated statement of financial position date and declared by the Central Bank of Jordan. Revenue and expense items are translated using the average exchange rates during the year and exchange differences are shown in a separate item within the consolidated statement of other comprehensive income equity. In case of selling one of the subsidiaries or branches the related amount of exchange difference is booked in revenues/ expenses in the consolidated statement of income.

Profit or loss resulting from the foreign exchange of interest-bearing debt instruments and within financial assets at fair value through other comprehensive income is included in the consolidated statement of income. Differences in the foreign currency translation of equity instruments are included in the cumulative change in fair value reserve within owner's equity in the consolidated statement of financial position.

Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances with central banks and balances with banks and financial institutions maturing within three months less balances due to banks and financial institutions maturing within three months and restricted funds.

3. Changes in Accounting Policies

The accounting policies used in the preparation of the consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2024 except for the adoption of new amendments on the standards effective as of 1 January 2025 shown below:

Lack of exchangeability - Amendments to IAS 21

For annual reporting periods beginning on or after 1 January 2025, Lack of Exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position, and cash flows.

The amendments did not have a material impact on the Bank's consolidated financial statements.

4. Significant Judgments and Estimates Used

Use of Estimate:

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of financial assets and liabilities and disclosure of contingent liabilities, These estimates and assumptions also affect the revenues and expenses and the resultant provisions as well as fair value changes reported in equity, In particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows, Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

The Bank's management believes that its estimates in the consolidated financial statements are reasonable and are detailed as follows:

A. Expected credit loss provision / Expected credit loss provision for direct credit facilities:

In determining provision for expected credit loss for direct credit facilities, important judgement is required from the bank's management in the estimation of the amount and timing of future cash flows as well as an assessment of whether the credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of ECL.

Inputs, assumptions and techniques used for ECL calculation – IFRS 9 Methodology

Key concepts in IFRS 9 that have the most significant impact and require a high level of judgment, as considered by the Bank while determining the impact assessment, including the following:

- The Bank relies on Moody's Credit Lens application to classify corporate credit risk ratings, which reviews and analyzes financial and objective information about the borrower, The program generates a comprehensive assessment of the creditworthiness of the borrower, that results in the probability of default (PD), The system classifies the corporate customers within 7 levels of active accounts and 3 levels of non- performing accounts, The probability of default (PD) increase with the level of risk, wherein, 3 segments are adopted at each level (grade) except for grade 1 as shown in the table below:

Risk Grade of the Customer	Credit Rating	Credit Quality
1	Aaa	Facilities of the highest quality and carry the lowest degree of credit risk.
2+	Aa1	Facilities are of high quality and carry a very low degree of credit risk.
2	Aa2	Facilities are of high quality and carry a very low degree of credit risk.
2-	Aa3	
3+	A1	Facilities are at the upper level of the average rating and carry a low degree of credit risk.
3	A2	Facilities are at the upper level of the average rating and carry a low degree of credit risk.
3-	A3	Facilities are at an average rating level and carry a moderate degree of credit risk and therefore contain some risk characteristics.
4+	Baa1	
4	Baa2	Facilities are at an average rating level and carry a moderate degree of credit risk and therefore contain some risk characteristics.
4-	Baa3	
5+	Ba1	Facilities that have risk characteristics and carry a significant degree of credit risk.
5	Ba2	Facilities that have risk characteristics and carry a significant degree of credit risk.
5-	Ba3	
6+	B1	Very high credit risk facilities.
6	B2	Very high credit risk facilities.
6-	B3	
7+	Caa1	Weak Business credit: judged to be of poor standing and subject to very high credit risk.

- Risk of individuals is measured based on portfolio valuation through customer behaviour records and their commitment for timely payments.
- Global ratings are used to measure the risk of other financial assets (fixed-rate financial instruments and credit claims on banks and financial institutions).

The mechanism for calculating expected credit losses (ECL) on financial instruments and for each item separately.

The Bank has adopted a special mechanism for calculating expected credit losses based on the type of financial instrument:

Financial instruments for the portfolio of companies and instruments with fixed income and credit claims on banks and financial institutions:

The Bank relies on a specialized and advanced system to calculate the expected credit losses for this portfolio. The provision is calculated individually for each customer/financial instrument at the level of each account or financial instrument.

Financial instruments of the retail portfolio:

The Bank has internally developed a retail portfolio model to calculate expected credit losses in accordance with the requirements of the standard. Provisions for the retail portfolio are calculated individually at the account level.

Governs the application of the requirements of IFRS 9 and includes the responsibilities of the board of directors and executive management to ensure compliance with the requirements of the IFRS.

The Board of Directors has several specialized committees, each with its own objectives and to implement the Standard,

Risk Management Committee

- Review the implementation strategy of the standard and its impact on the risk management of the bank before its adoption by the Board.
- Keeping pace with developments affecting the Bank's risk management and reporting periodically to the Board.
- Verify that there is no difference between the actual risks taken by the Bank and the level of acceptable risks approved by the Board.
- The committee submits a report to the bank's Board of Directors as soon as any significant changes affecting the bank's financial position are identified, in order to take the necessary corrective actions. This follows the receipt of credit exposure classification reports and the quarterly calculation of impairment provisions by the Risk Department, in line with Exposure Instructions (8/2025). A copy of the report must also be provided to the Central Bank of Jordan within a period not exceeding 10 working days from the report submission date.

Audit Committee

- Review the financial statements after application of the Standard to verify the orders of the Central Bank of Jordan regarding the adequacy of the provisions and to give an opinion on the non-performing bank debts before submitting them to the Board of Directors.
- Review the observations contained in the reports of the Central Bank and the reports of the external auditor and follow up the actions taken thereon.
- Review the accounting issues that have a significant impact on the financial statements of the Bank and ensure the accuracy of the accounting and control procedures and their compliance.

Finance Department

- Make necessary accounting adjustments and restrictions after the results are approved and verify that all products have been calculated.
- Prepare the necessary disclosures in cooperation with the concerned departments in the bank in accordance with the requirements of the standard and the instructions of the Central Bank.

Risk Management Department

- Calculating and reviewing expected credit losses and classifying customers according to the three stages on a quarterly basis, in compliance with accounting standards and Central Bank regulations, while informing the executive management of the calculation results.
- Reviewing and approving risk indicators in accordance with the bank's approved policy and methodology.

* Definition and mechanism for calculating and monitoring the probability of default (PD) and exposure at default (EAD) and loss given default (LGD).

Corporate and fixed-income financial instruments and credit claims on banks and financial institutions:

Probability of default (PD):

The probability of default is measured for the purpose of calculating the expected credit loss for each stage of the International Financial Reporting Standard (9) using statistical models based on historical default data and the credit classification of exposures, in addition to stress tests related to macroeconomic indicators for the portfolio of facilities for large, medium, and small companies. As for the individual facilities portfolio, statistical models based on product characteristics and the client's credit behaviour are used.

According to the standard (9), all credit exposures and debt instruments included in the first stage are considered. The probability of default for the exposure/instrument is taken into account for a period of 12 months from the financial statement date.

For credit exposures included in the second stage, the probability of default is considered over the remaining lifetime of the credit exposure.

Loss given Default (LGD)

When calculating the loss given default (LGD), the guarantees provided against the credit exposure are evaluated. Only guarantees classified as risk mitigants (legally secured within credit contracts and with no legal obstacle preventing the bank from accessing the collateral) are considered for the purpose of calculating the recoverable value from the credit exposure after applying the deduction percentages. The loss given default (LGDs) is applied to the uncovered portion of the credit exposure based on historical recovery ratios and the conversion to cash resulting from the enforcement of the collateral due to default, considering the time factor.

Exposure at Default (EAD):

When calculating the credit exposure at default for the purpose of calculating the expected credit loss for each stage of the International Financial Reporting Standard (9), the amounts that will be utilized by the debtor and the type of debt instrument are considered. The utilization factor is calculated after conducting a study on the historical withdrawal and utilization ratios for different currencies and types of debt.

Indirect credit exposures (unfunded) are also considered as realized credit exposures, and an expected credit loss is calculated for them. Default probabilities (PDs) specific to these exposures are also calculated based on historical studies of default rates and withdrawal probabilities.

Determines the significant change in credit risk that the Bank has relied on in calculating the expected credit losses.

Stage	Nature of the accounts within the stage
First Stage Stage 1 (First recognition)	• Financial instruments with less than 30 days' receivables. • Regular financial instruments. • Customers with a risk rating of +7 and below.
Second Stage Stage 2 (Credit quality deterioration)	• Regular financial instruments that have shown a significant increase in credit risk since the date of initial recognition. • Financial instruments that have dues More than 30 days. • Current and under-exposed accounts if the period of non-payment is more than 30 days and less than 90 days. • Customers with a risk score of -7, 7, and unrated. • A decline in the credit rating since the initial recognition of bonds and financial investments by two degrees or more. • All accounts classified under observation. • Accounts that were restructured or rescheduled due to financial difficulties during the period.
Third Stage Stage 3 (Decrease in credit value)	Accounts included under the non-performing facilities portfolio.

The provision for the retail portfolio was calculated on an individual basis and by product type. The portfolio was divided into:

1) Personal loans

2) Housing loans.

3) Credit cards.

4) Car loans.

- **Macroeconomic Factors, Forward Looking Information and Multiple Scenarios**

The measurement of expected credit losses for each stage and the assessment of significant increases in credit risk must consider information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions, The estimation and application of forward-looking information will require significant judgment from the bank's management.

Loss Given Default (LGD) and Exposure At Default (EAD) inputs used to estimate Stage 1 and Stage 2 credit loss allowances are modelled based on the macroeconomic variables (or changes in macroeconomic variables) that are most closely correlated with credit losses in the relevant portfolio, Each macroeconomic scenario used in our expected credit loss calculation will have forecasts of the relevant macroeconomic variables.

Each macroeconomic scenario used in calculating the expected credit losses is linked to changing macroeconomic factors.

Our estimates are used to calculate expected credit losses for stage 1 and stage 2 using discounted weighted scenarios that include future macroeconomic information for the next three years.

The following macroeconomic variables are used when analysing future forecasts for each country where the bank:

Category	Corporate	Retail
Indicator	Bank interest rate	Bank interest rate
	Consumer Price Index (CPI)	Central bank financial sheet
	Government debt	Transport Consumer Price Index
	Inflation rate	Exports
	Interbank interest rate	Food price inflation
	Loans to the private sector	Import prices
	Money supply M1	Foreign exchange reserves
	Money supply M2	Government debt
	Producer price changes	Interbank interest rate
		Money supply M1
		Money supply M2
		Tourist arrivals

Three scenarios are used to derive a probability-weighted value for measuring Expected Credit Losses (ECL). The ECL is calculated using a multi-year weighted average methodology (2025–2031) to ensure the inclusion of various long-term economic scenarios. In 2025, the weight assigned to the optimistic scenario is set at 0%, gradually increasing to 20% by 2027, with corresponding adjustments to the remaining scenarios as shown in the table below.

This approach aims to reflect potential economic improvements progressively, avoiding overestimation of short-term conditions.

Year	Optimistic (%)	Baseline (%)	Pessimistic (%)
2025	5%	70%	25%
2026	10%	70%	20%
2027	15%	65%	20%
2028 - 2031	20%	60%	20%

This gradual approach to scenario weighting ensures a realistic integration of economic recovery within the Expected Credit Loss model, minimizing the risk of excessive optimism in assessing default probabilities. Consequently, the initial credit loss estimates remain conservative, while the positive impact of the optimistic scenario is gradually incorporated over the years, enhancing the model's accuracy and efficiency in forecasting long-term credit risks.

- **Definition of default**

The definition of default used in measuring expected credit losses and in assessing stage transitions is consistent with the definition of default applied by the bank's internal credit risk management. Default is not explicitly defined by the standard, and there is a rebuttable presumption that non-payment for 90 days or more constitutes default.

The probability-weighted estimates are measured based on the best estimate of historical probabilities and current conditions. The weighted scenarios are assessed annually. All scenarios are applied to all portfolios exposed to expected credit losses during the years 2024 and 2025.

B. Income tax

Income tax expenses represent accrued tax and deferred tax.

Income tax expenses are accounted for on the basis of taxable income, Moreover taxable income differs from income declared in the consolidated financial statements because the latter includes non-taxable revenues or taxable expenses disallowed in the current year but deductible in subsequent years accumulated losses acceptable by the tax law and items not accepted for tax purposes or subject to tax.

Taxes are calculated on the basis of the tax rates according to the prevailing laws regulations and instructions of the countries where the bank operates.

Deferred tax are tax expected to be paid or recovered as a result of temporary timing differences between the value of the assets and liabilities in the consolidated financial statements and the value of the taxable amount, Deferred tax is calculated on the basis of the liability method in the consolidated statement of financial position according to the rates expected to be applied when the tax liability is settled or tax assets are recognized.

Deferred tax assets and liabilities are reviewed as of the date of the consolidated financial statements and reduced in case it is expected that no benefit will arise from payment or the elimination of the need for deferred tax liabilities partially or totally.

C. Fair Value

Fair value represents the closing market price (Assets Purchasing / Liabilities Selling) of financial assets and derivatives on the date of the consolidated financial statements in active markets, In case declared market prices do not exist active trading of some financial assets and derivatives is not available or the market is inactive fair value is estimated by one of several methods including the following:

– Comparison with the fair value of another financial asset with similar terms and conditions.

– Analysis of the present value of expected future cash flows for similar instruments.

– Adoption of the option pricing models.

– Evaluation of long-term assets and liabilities that bear no interest through discounting cash flows and amortizing premium/ discount using the effective interest rate method within interest revenue/ expense in the consolidated statement of income.

The valuation methods aim to provide a fair value reflecting the market's expectations taking into consideration the market expected risks and expected benefits when the value of the financial assets, When the financial assets fair value can't be reliably measured, they are stated at cost less any impairment.

D. The useful life of properties, equipment, and intangible assets

The Bank estimates the productive life of properties, machines, equipment, and intangible assets for the purposes of calculating depreciation and amortization, taking into account the expected use of the assets. Management reviews the residual values and productive lifespans annually, and future depreciation and amortization expense is adjusted if management believes that the productive lifespans differ from previous estimates.

E. Determining the duration of lease contracts

The Bank defines the duration of a lease contract as an uncancelable period, taking into consideration the periods covered by an option to extend the lease if it's certain that such an option will be exercised, or any periods associated with an option to terminate the lease, if it's certain that the bank will not exercise this option.

5. Cash and Balances at the Central Banks

	31 December	
	2025	2024
	JD	JD
Cash in treasury		
Balances at central banks:	249,646,201	136,793,103
Current accounts and demand deposits	185,889,523	141,711,899
Term and notice deposits	751,100,000	341,100,000
Statutory cash reserve	444,278,165	293,168,896
Total balances at the central banks	**1,381,267,688**	**775,980,795**
Total	**1,630,913,889**	**912,773,898**

- Except for the statutory cash reserve, there are no restricted balances as of 31 December 2025 and 31 December 2024.
- There are no amounts with a maturity date exceeding three months as of 31 December 2025 and 31 December 2024.
- All balances at the Central Banks are classified within stage 1 based on the requirements of IFRS (9) as adopted by the Central Bank of Jordan . There are also no transfers between Stages (1.2.3) or written-off balances during the year ended 31 December 2025 and 31 December 2024.

- The movement on the gross of cash and balances at central banks:

	31 December	
	2025	2024
	JD	JD
Balance at the beginning of the year	775,980,795	601,321,203
Additions during the year	946,386,893	377,607,373
Settled during the year	(341,100,000)	(202,947,781)
Balance at the end of the Year	**1,381,267,688**	**775,980,795**

6. Balances at Banks and Financial Institutions - net

* The regulations of the Central Bank of Jordan requires the disposal of the assets seized by Bank in repayment of debts during a maximum period of two years from the acquisition date. However. in some exceptional cases. the Central Bank of Jordan has the right to extend the period for a maximum of two subsequent years.

- The following is a summary of the movement on the assets seized by bank in repayment of debts:

	31 December	
	2025	2024
	JD	JD
Balance at the beginning of the year	98,907,321	83,528,320
Additions resulted from acquisition	53,264,104	-
Additions	39,236,353	31,056,924
Disposals	(33,712,113)	(15,677,923)
	157,695,665	**98,907,321**
Additions resulted from acquisition	(3,203,044)	-
Impairment provision	(6,149,690)	(4,622,921)
Balance at the end of the Year	**148,342,931**	**94,284,400**
Below is a summary of the movement on the provision for the assets seized by bank:		
Balance beginning of year	4,622,921	5,489,511
Additions resulted from acquisition	3,203,044	-
Provision (surplus) additions during the year	1,526,769	(866,590)
Balance at the end of the Year	**9,352,734**	**4,622,921**

- The impairment provision against the assets seized by the Bank amounted to JD 5,760,651 as of 31 December 2025 (JD 2,173,431 as of 31 December 2024). Furthermore. the provision for the assets seized by the Bank for a period of more than (4) years amounted to JD 3,592,083 as of 31 December 2025 (JD 2,449,490 as of 31 December 2024).

** This item relates to the accounts of the Bank's subsidiary Invest Bank. During 2012, the Bank was exposed to fraudulent manipulation involving the Bank's cash accounts maintained with other banks and financial institutions, resulting in losses estimated at approximately JD 12.9 million. The incident was primarily attributed to the potential collusion of certain Bank employees who circumvented established internal control and monitoring procedures.

The Bank's management has undertaken the necessary legal actions in this regard. Accordingly, a provision amounted to JD 10.4 million has been recognized as at 31 December 2025 and 31 December 2024, after excluding amounts expected to be recovered from seized assets and deducting recoveries from the insurance company with total of JD 1.5 million. The procedures before the Public Prosecutor have been concluded, and the case is currently under consideration before the Amman Court of Appeal.

- The Company obtained a final settlement with the Income and Sales Tax Department up to the end of 2021.
- The Company filed its income tax returns for the years 2022, 2023, and 2024 and paid the related taxes within the statutory deadlines. However, the Income and Sales Tax Department has not reviewed the Company's accounting records as of the date of these consolidated financial statements.
- General Sales Tax (GST) returns were audited up to the end of 2020. Subsequent GST returns have been filed within the statutory deadlines, and the related taxes have been paid up to the date of preparation of these consolidated financial statements.
- In the opinion of management and the tax advisor, no tax liabilities exceeding the provisions recognized are expected for Bendar Trading & Investment Company and its subsidiaries up to 31 December 2025.

22. Other Liabilities

The details of this item are as follows:

	31 December	
	2025	2024
	JD	JD
Accrued interest expenses	79,387,722	71,646,273
Revenue received in advance	3,446,361	2,857,245
Accounts payable	1,641,162	486,013
Accrued and unpaid expenses	30,056,016	15,472,768
Incoming transfers	108,641	9,370,948
Deffered cheques	25,436,634	22,226,115
Temporary deposits	97,152,541	12,561,651
Provision for expected credit losses for the off-balance sheet items	3,891,026	4,137,355
Dividends payable	1,195,127	488,378
Electronic payments system reconciliations	4,637,281	2,713,988
Card settlement accounts	16,948,315	13,381,457
Liabilities payment broker	386,814	890,182
Other liabilities	38,296,577	12,818,506
Total	**302,584,217**	**169,050,879**

Below is the movement of the indirect facilities on a collective basis during the year:

For the year ended 31 December 2025	Stage (1)		Stage (2)		Stage (3)	Total
	Individual	Collective	Individual	Collective		
	JD	JD	JD	JD	JD	JD
Balance at the beginning of the year	1,550,666,119	-	122,844,758	-	4,505,365	1,678,016,242
Additions resulted from acquisition	166,143,541		7,541,250		1,314,624	174,999,415
New exposure during the year	1,176,795,241	-	48,529,970	-	5,633	1,225,330,844

23. Paid-up Capital and Share Premium

Authorized and paid-in capital

The authorized and paid-in capital amounted to JD 325,203,252 divided into 325,203,252 shares at a par value of JD 1 per share as of 31 December 2025, (JD 200,000,000 divided over 200,000,000 shares where the par value per share was JD 1 as of 31 December 2024).

On 25 June 2025, the General Assembly, in its Extraordinary Meeting, approved an increase in the Bank's capital by JD 125,203,252. This was completed through the acquisition of all shares of Invest Bank, with total of 125,000,000 shares, with the shares allocated and transferred to the shareholders of Invest Bank in proportion to their respective ownership in its capital.

Share Premium

The share premium amounted to JD 177,140,002 as of 31 December 2025 (JD 68,213,173 as of 31 December 2024).

On 25 June 2025, the Extraordinary General Assembly approved an increase in the Bank's capital through the issuance of new shares, which were allocated to the shareholders of Invest Bank in proportion to their respective ownership. This capital increase was implemented as part of the acquisition of all shares of Invest Bank and in accordance with the applicable laws and regulations.

The change in the "Share Premium" item with an amount of JD 108,926,829 resulted from the mandatory accounting treatment of the acquisition, in accordance with International Financial Reporting Standard (IFRS) 3 – Business Combinations, which requires recognition of the acquired net assets at their fair value as of the acquisition date—a value that could not be determined prior to that date. Accordingly, the recognition of the share premium was not the result of an independent decision, a cash subscription pricing, or a prior agreement, but purely an accounting effect.

The consolidated financial statements were prepared in accordance with International Financial Reporting Standards, and the accounting treatment was consistent with professional requirements.

The Bank confirms that the recognition of the share premium has no cash impact, does not constitute an additional increase in the authorized or subscribed capital, and does not affect shareholders' rights. It represents purely an accounting effect within equity arising from the implementation of the duly approved capital increase resolution.

Dividends Paid

The dividends distributed to shareholders amounted to JD 20 million for the year 2024 (JD 20 million for the year 2023).

24. Perpetual Bonds

On 3 October 2024, the bank issued perpetual non-convertible bonds to shares worth USD 100 million. They were listed on the Amman Stock Exchange, where the nominal value of each bond was USD 10,000, with a total number of 10,000 bonds at a fixed interest rate of 8.5% for the first five years, and then a variable interest rate every three months. It is calculated based on the return on Treasury bonds issued by the United States government for a period of five years, plus a margin of 4.25%. These bonds were classified as an additional Tier 1 of regulatory capital in accordance with Basel III requirements.

The value of interest due on these bonds amounted to JD 3,798,325 as of 31 December 2025 (JD 3,798,704 as of 31 December 2024), reduced directly from retained earnings net of taxes.

25. Reserves

The details of the reserves as of 31 December 2025 and 2024 are as follows:

a. Statutory Reserve

This reserve represents amounts transferred from income before tax at a rate of 10% during the year and the prior years, and according to the Banking law, the statutory reserve is not available for distribution to shareholders.

b. Voluntary reserve

This reserve represents amounts transferred from the pre-tax profits at a rate not exceeding 20% during the year and the prior years. The voluntary reserve shall be utilized for the purposes determined by the Board of Directors and the General Assembly shall have the right to distribute it in whole or in part as dividends to the shareholders.

The restricted reserves are as follows:

Reserve Name	31 December		Regulation
	2025	2024	
	JD	JD	
Statutory reserve	97,616,363	94,105,047	According to the Bank regulatory authorities' regulations and companies' regulations.
Fair value reserve – net	8,403,428	1,315,151	According to the regulations of the Central Bank of Jordan and the Jordan Securities Commission.

26. Proposed Dividends and shares

The Board of Directors proposed in its meeting that was held on 24 February 2026, a recommendation to the General assembly of shareholders to approve the distribution of cash dividends amounted to JD 32,520,325 at 10% of authorized and paid-in capital and Increase the share capital by 7.65% of the subscribed capital, bringing the total capital to JD 350 million, through the distribution of bonus shares to shareholders. This recommendation is subject to the approval of the Central Bank of Jordan and the General Assembly of shareholders.

27. Fair Value Reserve - Net

The details are as follows:

	31 December	
	2025	2024
	JD	JD
Balance at the beginning of the year	1,315,151	2,693,754
Unrealized (losses) gains	12,176,370	(586,575)
Deferred tax assets	-	(215,586)
Deferred tax liabilities	(5,563,425)	(670,284)
Losses from sale of financial assets at fair value through other comprehensive income	475,332	93,842
Balance at the end of the Year	**8,403,428**	**1,315,151**

- The fair value reserve appears after netting the balance of deferred tax liabilities of JD 7,161,350 as of 31 December 2025 (after deducting of deferred tax liabilities of JD 670,284 as of 31 December 2024).

28. Retained Earnings

The movement on retained earnings is as follows:

	31 December	
	2025	2024
	JD	JD
Balance – beginning of the year	69,774,670	65,411,367
Profit for the year	68,982,856	42,309,640
Realized (loss) from sale of financial assets at fair value through other comprehensive income	(475,332)	(93,842)
Transferred to reserves	37,478,394	(13,990,573)
Dividends distributed	(20,000,000)	(20,000,000)
Capital increase fees	(1,529,602)	(150,113)
The effect of excluding a subsidiary company	36,645	102,946
Perpetual bonds expenses after excluding the tax effect	(20,290)	(16,051)
Perpetual bond interest after excluding the tax effect	(3,788,325)	(3,798,704)
Balance – End of the Year	**150,459,016**	**69,774,670**

- Retained earnings includes an amount of JD 5,649,181 which represents gains from the differences on the revaluation of the financial assets at fair value through the statement of income as of 31 December 2025 (JD 2,918,105 as of 31 December 2024).

- Retained earnings includes a restricted amount of JD 114,130,020 as of 31 December 2025 (JD 44,985,503 as of 31 December 2024). which represents deferred tax assets after deducting part of deferred tax liabilities. According to the Central Bank of Jordan's instructions. this amount should not be used unless prior approval is obtained from the Central Bank of Jordan.

40. Basic and diluted earings per share for the period attributable to the Bank's shareholders

The details of this item are as follows:

	31 December	
	2025	2024
	JD	JD
Profit for the year	68,982,856	42,309,640
Less: Interest expense on perpetual bonds (net of tax)	(3,788,325)	(3,798,704)
Profit attributable to shareholders	65,194,531	38,510,936
Weighted average number of shares (share)	262,430,115	200,000,000
Earnings per share attributable to the Bank's shareholders:	FILS / JD	FILS / JD
Basic and diluted	0.248	0.193

- The weighted average number of shares per share of profit attributable to the bank's shareholders was calculated based on the number of shares as of 31 December 2025 and 2024. the figures for the year ended 31 December 2024 were calculated for the average profit. For the number of shares after taking into account the share dividends being free.

41. Cash and Cash Equivalents

The details of this item are as follows:

	31 December	
	2025	2024
	JD	JD
Balances at central banks due within 3 months	1,630,913,889	912,773,898
Add: Balances at banks and financial institutions due within 3 months	866,936,199	488,095,716
Less: Banks and financial institutions deposit due within 3 months	(360,280,814)	(287,288,463)
Less: Restricted balances	(19,360,841)	(19,620,255)
	2,118,208,433	**1,093,960,896**

42. Derivatives

The following table shows the positive and negative fair value for the financial derivatives along with the distribution of their nominal value based on their maturities.

31 December 2025	Positive Fair Value	Negative Fair Value	Total Nominal Value	Par Value Maturity			
				Due in three Months	Due in 3 - 12 Months	From 1 to 3 Years	More than 3 Years
	JD	JD	JD	JD	JD	JD	JD
Customers' commitments against purchased forward agreements	1,499,835	1,158,196	66,781,140	62,543,521	4,237,619	-	-
Banks' commitments against purchased forward agreements	7,272,665	2,919,569	394,415,005	389,693,312	4,721,693	-	-
	8,772,500	**4,077,765**	**461,196,145**	**452,236,833**	**8,959,312**	**-**	**-**

31 December 2024	Positive Fair Value	Negative Fair Value	Total Nominal Value	Par Value Maturity			
				Due in three Months	Due in 3 - 12 Months	From 1 to 3 Years	More than 3 Years
	JD	JD	JD	JD	JD	JD	JD
Customers' commitments against purchased forward agreements	2,117	336,411	12,382,407	6,776,911	5,605,496	-	-
Banks' commitments against purchased forward agreements	772,318	928,704	115,337,594	109,644,918	5,692,676	-	-
	774,435	**1,265,115**	**127,720,001**	**116,421,829**	**11,298,172**	**-**	**-**

Nominal value represents the value of transactions outstanding at year-end and does not refer to market risks or credit risks.

43. Related Party Transactions and Balances

The accompanying consolidated financial statements include the financial statements of the Bank and the following subsidiaries:

44. Right-of-Use Assets/ Lease Liabilities

A. Right-of-use assets - net

The Bank leases many assets including land and buildings. and the average lease term is 11 years.
Below is the movement on the right-of-use assets during the year:

	For the Year Ended 31 December	
	2025	2024
	JD	JD
Beginning balance	29,835,954	30,438,070
Additions during the period resulting from the acquisition	4,658,985	-
Add: Additions during the year	5,425,863	4,406,375
less: Disposal during the year	(2,415,449)	(234,070)
Less: Amortization for the year	(5,224,448)	(4,774,421)
Balance at the end of the Year	**32,280,905**	**29,835,954**

B. Lease Liabilities

	For the Year Ended 31 December	
	2025	2024
	JD	JD
Beginning balance	30,828,861	31,098,416
Additions during the period resulting from the acquisition	3,885,587	-
Add: Additions during the year	5,425,863	4,406,375
Interest during the year	893,055	1,220,926
Less: Disposal during the year	(2,433,782)	(234,070)
Paid during the year	(6,016,023)	(5,662,786)
Balance at the end of the Year	**32,583,561**	**30,828,861**

Analysis of the accrual of lease liabilities:

	For the Year Ended 31 December	
	2025	2024
	JD	JD
Less than one year	3,648,648	2,754,056
From 1 year to 5 years	12,836,772	11,043,635
More than 5 years	16,098,141	17,031,170
	32,583,561	30,828,861

The undiscounted lease liabilities amounted to JD 37,678,901 as of 31 December 2025 (JD 36,128,203 as of 31 December 2024). The following is the analysis of the maturity:

	For the Year Ended 31 December	
	2025	2024
	JD	JD
Less than one year	4,395,630	3,540,418
From 1 year to 5 years	14,965,188	13,259,468
More than 5 years	18,318,083	19,328,317
	37,678,901	**36,128,203**

45. Risk Management

The Bank continuously develops the risk management structure to ensure effective management of all of its operations, the efficiency of the risk management process, and proper application of the regulatory controls across all of the Bank's operations.

The risk management responsibility is allocated across various levels as summarized below:

1. Business Units:

The Business units comprise of employees who, through thier nature of work, manage the various risks associated with the Bank's operations in line with the acceptable risk appetite as determined by the Bank and specified in its policies.

To ensure efficient risk management, the Bank fully separates the functions of the business units from those of risk management. For example, credit underwriting and credit administration function is completely independent from Customer Relations Management (CRM) within the business units. This ensures the integrity of credit decisions, and higher efficiency. In addition, the Middle Office operates under the umbrella of market risk, independent from the treasury.

2. Risk Management

This department operates independently from all business units. It reports to the Board of Directors through the Risk Management Committee to ensure its independence and ability to detect, measure, govern, and monitor risks within acceptable risk appetite as determined by the Bank; as well as submit periodic reports to the Board of Directors in this regard.

3. Internal Audit:

The Internal Audit Department is fully independent and directly reports to the Board Audit Committee. The Department functions as the last line of defense through implementing an audit plan that includes periodic audits of all the Bank's activities to ensure the detection of any violations of systems and noncompliance with the Banks' policies and procedures or the supervisors' regulations.

4. Risk Management Committee:

The Board of Directors endorsed the Risk Management Committee as stipulated in it's charter, which has been drafted in accordance with best risk management practices and CBJ requirements. The Committee comprises of Board members and the Chief Risk Officer. All reports prepared by the Risk Management Department are submitted to the Committee periodically to ensure that the Committee's members are well informed of all risks in a timely manner. This enables the committee members to make decisions, and take measures to mitigate risks that are not in line with the established risk appetite, and submit reports to the Board in this regard.

5. Board of Directors:

The Board of Directors has the following responsibilities with regard to risk management:

- Determining the acceptable risk levels for the Bank's various activities.
- Reviewing and approving the various risk policies.
- Monitoring risks and ensuring that necessary controls are in place through the Risk Management Committee.
- Delegating authority related to the approval, amendment, and renewal of credit to the credit committees while reviewing their performance and the validity of their decisions, a matter which would reflect on the quality of the credit portfolio.
- Set the investments policies and decisions and approving investment transactions and dealing limits.
- Receiving reports as necessary and appropriate on climate change risks, overseeing progress in sustainability, and ensuring the integration of environmental and social risk management strategies with the bank's overall business strategies. Additionally, supervising annual reports related to sustainability, environmental and social risks, and their financing opportunities, while ensuring the bank's compliance with the Central Bank's green finance strategy and the Amman Stock Exchange's regulations on annual sustainability reporting, including disclosures on climate change risks and assumptions.

6. Assets and Liabilities Management Committee:

The Assets and Liabilities Management Committee comprises of the CEO as President and the Head of Business units, Head of Finance and Head of Risk as members. The Committee reviews the statement of financial position and recommends any amendments thereto, in addition to approving the liquidity and market risk management principles. Moreover, the Committee reviews the policies related to these risks, recommends their approval by the Board, and studies the various risk reports in order to take any necessary decisions related to amending the acceptable risks levels by the Bank.

The Committee also recommends to the Board the allocation of capital for the various activities of the Bank in a manner that ensures that the use of capital is optimized.

A. Credit risks:

Credit risks are controlled within acceptable risk levels by the Bank through the following:

1. Credit Policy: This policy accurately determines the general guidelines for credit underwriting, levels of acceptable credit risks, and basis used for establishing credit risk pricing and acceptable collateral. In addition, the policy outlines the monitoring activities over creditand ensure early detection of credit quality deterioration of the portfolio.
2. Training and Development: The continuous training and development of all credit staff and managers ensures better understanding of the client's business activity and needs, the fostering of expertise in credit analysis, and a better understanding of risks when taking credit decisions ; as well as ensuring the effective management of portfolios.
3. Authority to Grant Credit: Credit applications are approved by specialized credit committees which are appointed and granted authorities by the Board of Directors.
4. Credit Risk Measurement: The Bank put in place, a credit rating system for corporate and medium-size companies. In addition, the Bank implements a scorecards framework for retail products as a basis for underwriting and cross-selling of retail customers and small institutions.
5. Internal Valuation for Capital Adequacy: The Bank developed a model to measure capital adequacy based on a 5-year data forecast to calculate the potential capital requirements and the effect of stress testing on the Bank's capital adequacy, profitability, and liquidity.
6. Credit Risk Monitoring: A specialized unit within the Risk Managment Department monitors the credit portfolio and prepares the relevant reports.

   Through the early credit risk warning system, the Risk Management Department examines any indicators that may signal the deterioration of the risk profile of a customer. Such indicators include customer's transactions, financial performance, and the risk of their economic sectors , in addition to indicators related to the performance of the client's account at the Bank. This system allows the bank to detect, early on, any deterioration in the performance of the account and enables to the bank to take necessary measures to reduce any possible losses that may result from that and to ensure the adequacy of the allocations allocated to these accounts.

7. Credit Portfolio Management: All departments concerned with credit continuously review the credit portfolio to maintain a good level of credit exposure quality.

   In managing the portfolio, efforts are made to ensure that the portfolio is diversified to avoid any concentration that could lead to an increase in the risk level of the portfolio. In this regard, the sectoral and the geographical distribution of the portfolio are monitored, in addition single borrower and related parties exposures are monitered and reported in addition to avoiding large credit exposures for a single customer except in exceptional cases and for discerning clients.

8. 8. Credit Risk Mitigation: As a basic step to hedge credit risk, cash flows of financed projects are taken into account when determining the structure of facilities and payment schedules for any facilities granted to clients and the necessary controls to control these cash flows for use for repayment, as well as obtaining collaterals as stipulated in the credit policy, taking into account the quality and liquidity collaterals, in addition to the efficient application of procedures that ensure proper control of these guarantees and control their value and the ease of monetization where necessary.

B. Operational risks

Operational risk is defined as the risk of loss resulting from failure or inadequacy of internal processes, people or systems, or resulting from an external source (event). This definition includes legal risks and risks related to regulatory authorities.

The Operational Risk Policy covers the role of Operational Risk Management in how we identify, evaluate (periodically), monitor and control operational risks, and comply with all relevant regulatory requirements, to limit some or all of the negative impacts resulting from these risks. It relied on more than one methodology to manage these risks, the first of which is implementing a system for self-evaluation of control procedures (CRSA), by identifying the risks specific to each department and/or unit and evaluating the control procedures to identify weak points and measuring the level of effectiveness of the current control procedures, as these procedures are examined. Self-reporting on a regular basis and submitting reports on the results to the sector management and senior management at the bank. The evaluation of control procedures aims to verify the effectiveness and efficiency of these procedures so that weak control procedures are improved or new control procedures are established aimed at preventing risks or mitigating their severity. Operational Risk Management also builds key risk indicators that will enhance the risk monitoring mechanism as it is an early warning tool that enables decision makers to identify undesirable events and potential losses before they occur.

In addition to building a database on monetary losses resulting from operational risks in order to evaluate the extent of exposure facing the bank to operational risks in addition to the effectiveness of the applied control procedures. Note that the bank's operational risk management process does not aim to design systems that eliminate all potential operational risks, but rather to understand the financial effects - and any other possible effects - of these risks and develop systems and control procedures that would (if they continue to operate) keep the losses (The potential effects of these risks are within acceptable levels).

C . Information security risks

Information security risk management is based on the use of means, tools and procedures and following international standards to ensure the protection of information from internal and external risks, to prevent the information from reaching unauthorized persons, to maintain the confidentiality and integrity of the information, and to ensure its availability and the continuity of the systems supporting it.

For this reason, Bank Al Etihad has provided qualified personnel and the necessary resources to protect information security and cybersecurity from security breaches, based on best international practices and standards for protecting bank and customer information, with a plan for business continuity during disasters and crises to ensure the continuation of the bank's business and the provision of all services provided to all its customers at all times.

Stress testing

The objectives of stress testing are to determine the negative stress events that could face the bank and its business, and measure their impact on the bank's solvency, liquidity and reputation. Also, stress testing will idetify the areas of weaknesses that the bank could face as a result of these negative stress events and allow the board of directors and executive management, to develop a strategic plan to reduce its impact and confronting them when they occur or avoid them. The stress test process aims to improve and enhance the sound management of the bank's risks, in addition to complying with the instructions of the regulatory authorities issued in this regard, and international best practices.

Choosing the stress testing scenarios

Stress scenarios that cover all possible risks encountered by the Bank are selected. The impact of stressful scenarios are assessed on different bank portfolios, and on Profit and Loss, Capital Adequacy Ratio and other regulatory limits, as follows:

1. Measuring the effect of stress scenarios on the Bank's credit portfolio concerning the increase in the percentage of non-performing loans due to many factors, including concentration in granting credits, deterioration of the economic sectors due to financial crises, quality of the credit portfolio, decrease in the value of collaterals, and other factors. The impact of these stress scenarios on income statement, Balance sheet, and capital adequacy ratios.
2. Measuring the effect of stress situations on the Bank's investments in terms of liquidity and change in the market prices such as Interest Rates, Foreign Exhchange rate etc. The impact of these risk scenarios is assessed on the income statement, statement of financial position, and capital adequacy ratios.
3. Measuring the effect of stress scenarios on the Bank's assets and liabilities in the event of depreciation or apperciation of local currency against foreign currencies.
4. Measuring the effect of stress scenarios on the Bank's liquidity due to several factors, including the loss of the bank's investments in deposits with correspondent banks, the concentration of customer's deposits and deposits from banks held with us, extensive deposits withdrawals, fluctuations in the exchange rate of the dinar against foreign currencies, and other factors. The effect of these risk scenarios is calculated on the legal liquidity ratio and on liquidity according to the maturity ladder.
5. Measuring the effect of stress on the Bank's operational risks. The impact of this risk scenario is assessed on the capital adequacy ratio.

Based on the results of these tests, contingency and recovery plans are established to face financial and economic crises should they arise. Furthermore, risk mitigation tools are implemented, such as hedging and risk transfer strategies and minimum accepted collaterals limits, and what corresponds to the results of stress tests.

Governance of the Application of Stress-testing Situations:

Responsibility of the Board of Directors:

1. Reviewing the results of the stress tests of the bank on a semi-annual basis (every six months), in order to direct the bank to take measures and/or enforce controls accordingly.
2. Ensuring that the executive management complies by the plans and policies prepared to face any stress scenarios as it arises.
3. Verifying that the Risk Management Department is performing stress tests periodically and that the Board has a major role in approving the underlying assumptions and scenarios, test results analysis, and endorsing the actions to be taken based on these results.

Executive Management's Responsibility

1. Making the right recommendations, based on the stress-testing results, and reporting them to the Board of Directors.
2. Implementing the decisions of the Board of Directors related to the Bank's stress testing results, in addition to informing the Board about these results.
3. Implementing and controlling stress testing, in compliance with the methodology approved by the Board of Directors.
4. Taking the stress testing results into consideration when capital planning with the aim of reaching the capital that matches the Bank's strategy and risk structure, in addition to taking the results into consideration while performing (ICAAP).
5. Ensuring full cooperation among the Bank's different departments through coordianting with the Risk Management Department to come up with the closest real world stress testing results that the Bank might be prone to as a result of the local and international financial and economic circumstances.

The Bank's Definition for Applying Default and the Mechanism for Processing Default:

The group is committed to the instructions of the regulatory authorities and best practices in the banking sector with regard to the application of default and the mechanism for dealing with bad debts.

Non-performing facilities are defined as those facilities that carry high levels of risk or needs supervision, and the following is a brief description of these statuses:

Watch List:

Borrower with no assured profits and extremely unstable operational revenues. The obligors' assets are witnessing a decrease in their value, coupled with an increase in doubtful debts without sufficient collaterals. Meanwhile, his exposure is constantly increasing and is greater than the accepted standards in his sector. In addition, the management and controls are weak. Debts classified as watch list will remain as such for a period of time under this rating to be monitored, so that their credit rating is improved in case the data that led to their classification under watch list will change or their credit rating downgraded.

Substandard:

Borrower is considered non-performing. Where Recovering the granted credit facilities based on the client's operational revenues is questionable, and their assets are not protected at an acceptable degree by net equity. In addition, the borrower's ability to commit to financial obligations or provide additional collaterals is weak. The facilities classified under this level of risks require a special provision according to the instructions of the Central Bank of Jordan.

Doubtful:

The Bank's chances of recovering the debts granted to the borrower is doubtful, and part of the principal is likely to be lost under the given circumstances that demonstrate the borrower's inability to fulfill their obligations towards the Bank. The facilities classified under this level of risks require a special provision according to the instructions of the Central Bank of Jordan.

Loss:

It is probable that part of the granted amount will be recovered in the future, and the Bank is still not fully convinced that recovery is unlikely. This matter does not encourage the Bank to irrevocably write off the debt, or cease the recovery process. The facilities classified under this level require special provision according to the instructions of the Central Bank of Jordan.

General Guildlines for dealing with default:

- Proposed rescheduling arangements are based on the client's ability to commit to it's financial obligations, as the Bank's aim is not only to improve the credit portfolio classification, but to also recover the loan amount granted to the client.
- While rescheduling debt repayment, a study of the borrower's cash flows must be conducted, especially if the borrower has liabilities towards creditors other than the Bank. This entails studying the borrower's cash flows, current guarantees, and any other extra assets that can be liquidated as an extra source for the repayment, or as an additional guarantee to mitigate the client's credit risk. Other aspects of the client are also studied, including the client's ability to manage the facilities, and validity of the legal documents and contracts in the Bank's possession, to ensure that they maintain the Bank's rights in case legal actions are taken against the borrower.
- In case the client commits to their repayment schedule for a period of not less than 3 months, the account classification is upgraded to a performing status.

Internal Credit Classification System:

The Bank adopts an internal risk rating system to calculate the Risk Rating of Corporate and SMEs clients. The aim of this system is to asses credit risks at client and facility level . For each borrower a risk grade from 1-10 is calculated, where risk grade (1) is the least risky, The calculation of Obligor and facility risk rating is the responsibility if the credit department.

When implementing this system, the following matters can be ensured:

- The ability to maintain a high asset quality, monitor the portfolio's quality, and identify effective plans and future strategies for managing credit risks.
- Linking credit quality, performance efficiency and pricing.
- Determining the authority level for granting and/or renewing the credit limits.

The following table shows the building blocks of the Risk Grade:

Indicator	Indicator's nature
Financial items	Quantitative
Management	Qualitative
Corporate	Qualitative
Economic sector	Qualitative

In order to calculate the Risk Rating, financial statements for 3 years and information about the economic sectors performance should be submitted, accordingly obligors are classified as follows:

Risk level	Risk rank
Excellent	1
Strong	2+ to 2-
Good	3+ to 3-
Satisfactory	4+ to 4-
Adequate	5+ to 5-
Marginal	7+ to 6-
Watch List	7 and 7-
Non-performing	8 to 10

Mechanism Used to Calculate the Expected Credit Losses on the Financial Instruments for Each Item Separately

Expected credit losses are calculated on an individual basis on the system that is implemented by the Bank based on parameterized models and methodologies adopted by the Board of Directors and approved by the external auditor in the preparation of interim and year-end financial statements.

a. Probability of Default (PD)

The probability of default is measured for the purpose of calculating the expected credit losses in accordance with IFRS9 through using statistical models based on historical default data, credit exposure classification, and stressed and forecasted macroeconomic trends for corporates and SME's portfolio. As for the retail facilities portfolio, statistical models have been adopted based on the product characteristics and the client's credit behavior.

Under IFRS (9) all credit exposures and debt instruments that are listed under stage (1), are assigned a 12 month Probability of default. As for the credit exposures under Stage 2, the probability of default on a credit exposures is taken into consideration over the lifetime of the exposure.

b. Loss Given Default (LGD) (Guarantees/Risk mitigators)

When calculating the loss given default (LGD), the collaterals pledged against granting the credit exposure are evaluated. Moreover, only collaterals classified as risk mitigants are taken into account (legally documented within credit contracts, while nothing precludes the Bank from reaching the collateral) for the purpose of calculating the repayable amount of the credit exposure after applying haircuts as stipulated in CBJ Debt Classification Instructions No. (8/2024). In addition, (LGDs) are applied on the uncovered portion of the credit exposure. The (LGD) estimates are based on historical data related to recoveries upon liquidation as a result of execution on the guarantee due to default, taking into account the time dimension.

c. Exposure at Default (EAD)

When calculating Exposure at Default (EAD), the outstanding amount and type of debt instrument that will be utilized by the debotr will be taken into consideration when calculating the expected credit loss to each stage from International financial reporting standard (9) stages. The exploitation factor is calculated after conducting a study on the withdrawal ratios and the historical exploitations of currencies and different types of debt.

Furthermore, indirect credit exposures (non-financed) are considered on-balance credit exposures on which expected credit loss is calculated. Their probability of default (PDs) is calculated as well based on historical default and probabilities of withdrawal.

d. Time Value of Money

The expected credit loss is calculated by using the time value and Effective interest rate (EIR) as a discounting factor.

Governance of applying the requirements of the International Financial Reporting Standard, including the responsibilities of management and executive management, to ensure compliance with the regulatory requirements and applying the international standard.

The Board of Directors:

The Board of Directors will overreview the process and results of calculating provisions according to the international standard in order to make decisions that are consistent with these results and ensure that the executive management adheres to the processes and policies set for the adequacy of provisions. An approved policy that identifies exceptional and justified cases in which the results and outputs of the system are modified and that An independent body shall be determined to be the authority to make the exception or amendment decision and these cases shall be presented to the board for approval.

Risk Committee

The Risk Committee oversees the process of calculating provisions according to international standards and ensures the following:

- Ensuring that provisions cover expected credit losses.
- The capital adequacy ratio is maintained at the required level and does not fall below the permissible limit.
- The pricing mechanism covers the costs of provisions.

Audit Committee

The provision calculation results according to the international standard are submitted to the Audit Committee, which verifies the adequacy of the Bank's coverage of the expected credit loss in all of the Bank's financial statements.

Executive Management

The senior management demonstrates and presents the risks when pricing credit exposure. Appropriate policies and procedures are implemented and updated to communicate regarding the credit risk assessment process and the measurement process to all relevant individuals.

Executive Management is responsible for implementing the reliable credit risk strategies approved by the Board of Directors and for developing the policies and procedures stated above.

Risk Management Department

The Risk Management Department ensures that the provisions adequately cover credit exposures. Ensure that the process and outputs of the system are fairly presented. The results are presented to the Board of Directors, the Risk Committee and Executive Management.

Rescheduled Loans:

These represent loans previously classified under within Stage (3) in accordance with rescheduling principles. These loans amounted to JD 36,103,979 as of 31 December 2025 (JD 49,230,731 as of 31 December 2024).

Restructured Loans:

Restructuring is the rearranging credit obligations in terms of adjusting installments, extending the tenor of the facility, postponing installments, or extending the grace period. These loans amounted to JD 312,599,454 during the year 2025 (JD 346,668,983 during the year 2024).

Debt Securities and Treasury Bills:

The Schedule below shows the distribution of bonds according to the rating agencies classification:

Rating grade	Rating Institution	Within financial assets at fair value through statement of income 2025	Within financial assets amortized cost 2025	Within financial assets at fair value through other comprehensive income 2025	Total 2025	Total 2024

b. Market Risks:

Market risk is defined as the risk arising from changes in interest rates. exchange rates. and the prices of securities. as well as any other instruments held by the bank. such as commodities. Fluctuations in their prices can lead the Bank to incur losses due to any financial positions held on or off the balance sheet.

The Bank uses a conservative policy to manage market risk. Moreover. these risks are controlled through the adoption of clear policies in this regard and establishing risk limits for each risk type. Our policy aims to reduce minimize these risks.

1. Interest Rate Risks:

The losses arising from fluctuations in interest rates in the markets or resulting from changes in the prices of products due to changes in interest rates have a negative impact on the Bank's revenues and equity.

These risks may also arise from mismatches in the repricing dates between assets and liabilities. which could lead to a decrease in the bank's revenues due to the timing difference in repricing.

The risks of interest rates lie in debt instruments and derivatives that include debt instruments. in addition to other derivatives whose values are linked to market prices.

Interest rate risks are managed by the Asset and Liability Management Committee. which is provided with periodic reports on interest rate repricing gaps. in addition to sensitivity reports to changes in interest rates. which indicate that the impact of these risks is kept to a minimum.

For Year Ended 31 December 2025			
Currency	Increase in Interest Rate	Sensitivity of Interest Income (Gains/ Losses) in (Thousands)	Sensitivity on Equity
		JD	JD
Jordanian Dinar	1%	12,371	12,371
US Dollar	1%	1,593	1,593
Euro	1%	264	264
GBP	1%	117	117
Japanese Yen	1%	356	356
Other Currencies	1%	(286)	(286)
For Year Ended 31 December 2024			
Currency	Increase in Interest Rate	Sensitivity of Interest Income (Gains/ Losses) in (Thousands)	Sensitivity on Equity
		JD	JD
Jordanian Dinar	1%	9,637	9,637
US Dollar	1%	1,825	1,825
Euro	1%	169	169
GBP	1%	34	34
Japanese Yen	1%	330	330
Other Currencies	1%	(32)	(32)

In case of a negative change in the interest rate then the effect will be the same as the change in the above-mentioned table with an opposite sign.

The following is the sensitivity analysis of the impact on the provision for expected credit losses as a result of the change in the economic indicators used in calculating the provision for credit losses for the year 2025:

Companies:	Corporate credit facilities	Credit facilities for the government and the public sector	Credit Facilities Real Estate Loans	Credit facilities for small and medium entites (SMEs)	Indirect credit facilities (contingent liabilities)	Other credit facilities

-2%	(13,454)	-	(15,447)	(2,902)	-	(88,547)

2. Currency Risks:

The Group's policy is to fully hedge the currency risk by limiting open positions in foreign currencies only within the limits set and according to a clear policy which reduces the sensitivity of the Group's profitability to currency price changes. limits are placed for open positions for each currency and total currencies. and daily evaluations of these positions are made to reduce the risks of currency exchange rates to the minimum.

Currency	Change in Currency Exchange Rate	Effect on Profits and Losses	Effect on Equity
For the Year ended 31 December 2025		JD	JD
US Dollar	1%	(260,850)	714,638
Euro	1%	130,111	(6,515)
GBP	1%	90,737	-
Japanese Yen	1%	445,243	-
Other Currencies	1%	(203,168)	9,305

Currency	Change in Currency Exchange Rate	Effect on Profits and Losses	Effect on Equity
For the Year ended 31 December 2024		JD	JD
US Dollar	1%	(174,876)	663,000
Euro	1%	4,889	-
GBP	1%	22,290	-
Japanese Yen	1%	447,055	-
Other Currencies	1%	(153,652)	-

In case of a 1% decrease in the currency exchange rate the effect will be the same as the financial effect mentioned in the tables above with an opposite sign.

3. Change in Stock Price Risks:

Trading portfolio risk management depends on a policy that is based on diversification of investments. where investments are distributed on a sectoral basis. within the most stable sectors. and across several financial markets to reduce risks to acceptable levels. Regular monitoring of risks is also conducted through:

- Determining the different investments limits
- Determining limits to stop losses per investment coupled with daily monitoring
- Regularly assessing the investment portfolio by an independent body (intermediary office)
- Performing sensitivity analysis to measure the extent to which these investments may be impacted in case the markets invested in drop. so as to maintain risks within levels acceptable to the Bank.

These risks are managed by the Risks Management Department in cooperation with the Treasury Department. Moreover. their recommendations are submitted to the Assets and Liabilities Management Committee.

Market	Change in Market Index	Effect on profits and losses	Effect on Equity
		JD	JD
For the Year ended 31 December 2025:			
Amman Stock Exchange	5%	234,076	2,891,625
Al-Quds Stock Exchange (Palestine)	5%	-	672,829
NEW YORK STOCK EXCHANGE	5%	-	62,394
Other Markets	5%	2,090	1,199,844

Market	Change in Market Index	Effect on profits and losses	Effect on Equity
		JD	JD
For the Year ended 31 December 2024:			
Amman Stock Exchange	5%	114,305	637,451
Al-Quds Stock Exchange (Palestine)	5%	-	734,527
NEW YORK STOCK EXCHANGE	5%	-	51,634

In case of a negative change in the index the impact will be equal to the change mentioned above but with the opposite sign.

c. Liquidity Risks

The Bank continuously expands its depositors' base and diversifies the sources of its funds with the aim of maintaining its stability. In this respect, the Bank maintains its liquidity level within risk appetite limits.

Bank's liquidity risk management policy ensures that the bank maintains liquidity limits at the corresponding banks to ensure easy access to high quality liquid assets and can be liquidated at reasonable cost and time in case of an unexpected demand.

To measure the Bank's liquidity levels, a schedule is prepared periodically to verify that liquidity is within the acceptable levels. In addition, the Legal liquidity ratio is calculated on daily basis to ensure compliance with the regulatory requirements and internal policies. Various stress scenarios' identified and measured to ensure the Bank's ability to withstand any changes that might take place in the financial markets.

The Treasury Department manages funds in line with the Bank's liquidity policy endorsed by the Assets and Liabilities Management Committee and submits regular reports to the Committee. Moreover, the Risk Management Department monitors the liquidity levels and ensures adherence to the Bank's internal policies

(45/c) Liquidity Risks:

First: The table below summarizes the distribution of (undiscounted) liabilities based on the remaining contractual maturity period on the date of the financial statements:

As of 31 December 2025:	Less than a Month	1-3 Months	3-6 Months	6 months-1 year	1-3 Years	More than 3 Years	Without Maturity	Total

45/d. Climate Change Risks

The Bank integrates climate change into its strategies through four main pillars: governance, strategy, risk management, and metrics and objectives, aiming to achieve sustainable transformation and reduce environmental impacts.

The Bank identifies two main types of risks: physical risks arising from acute and chronic climate events, and transition risks associated with moving to a low-carbon economy due to changes in policies, technology, and consumer behavior.

These risks are managed proactively using scenarios from specialized bodies, under the supervision of the Risk Committee derived from the Board of Directors.

Alongside the requirements of the Amman Stock Exchange and the Central Bank of Jordan, the bank assesses climate impacts through forward-looking analysis to comply with climate-related disclosure standards.

46. Sectoral Analysis

A. Bank Activities Information:

For management purposes. the Bank is organized into the following major business segments based on the reports used by the general manager and decision of the Bank

through the following main business sectors :

- Individual accounts: This item includes following up on individual customer's deposits and granting them credit facilities. credit cards and other services.
- Small and Medium Enterprises Accounts: This item includes following up on the client's deposits and credit facilities. Moreover. these clients are classified based on the volume of the granted deposits and facilities according to the Bank's instructions and principles and in compliance with the regulatory bodies' instructions.
- Large Companies' Accounts: This item includes following up on the client's deposits and credit facilities. 47. Capital Management

a. The capital adequacy ratio as at 31 December 2025 and 2024 has been calculated in accordance with the Basel III framework. The Bank's regulatory capital comprises Common Equity Tier 1 (CET1), Additional Tier 1 capital, and Tier 2 capital..

b. Regulatory capital requirements for common equity

The instructions of the Central Bank of Jordan require that the minimum regulatory capital adequacy ratio be no less than (12%) of risk-weighted assets, including on-balance sheet and off-balance sheet items, as well as market and operational risks. In addition, a capital conservation buffer of (2%) is required in accordance with foreign branch regulations, and an additional buffer of (0.5%) for banks classified as domestic systemically important banks (D-SIBs). This ratio represents the minimum capital adequacy requirement, and the Bank is committed at all times to maintaining a capital adequacy ratio above this minimum by an appropriate margin, in line with Basel III requirements.

c. How to Achieve Capital Management Objectives

Capital management aims at the optimal utilization of funding sources to achieve the highest possible return on capital within the approved risk limits set by the Board of Directors, while maintaining the minimum required levels in accordance with applicable laws and regulations. The Bank follows a policy focused on minimizing the cost of funds by securing low-cost funding sources, expanding its customer base, and efficiently deploying these funds in acceptable risk assets to maximize returns on capital..

d. Capital Adequacy

In addition to subscribed capital. capital includes the statutory reserve. voluntary reserve. share premium. retained earnings.

cumulative change in fair value. general banking risk reserve and treasury stocks.

The Bank is committed to applying the requirements set forth by regulators concerning capital. as follows:

1. Central Bank of Jordan instructions that capital adequacy ratio should not be less than 12% ian addition to a 2% additional
2. reserve according to the external branching instructions and an additional reserve of 0.5% for banks classified as locally systemically important banks.
3. Compliance with the minimum limit set for the paid capital of Jordanian Banks. which should not be less than JD 100 million.
4. The Bank's investments in stocks and shares should not exceed 50% of subscribed capital.
5. The ratio of credit limits «credit concentration» to regulatory capital.
6. Banks and Companies' laws related to the deduction of the legal reserve at a rate of 10% of the Bank's profit before tax.

50. Lawsuits against the Bank

The total cases filed against the Group amounted to JD 7,992,223 as of 31 December 2025 (JD 4,606,218 as of 31 December 2024), and the provisions prepared for them amounted to JD 777,095 as of 31 December 2025 (JD 1,001,213 as of 31 December 2024) and according to the estimation of the bank management and the consultant It is legal that the allocations deducted for these cases are sufficient.

51. Fair Value Hierarchy

a. The fair value of financial assets and financial liabilities of the Bank specified at fair value on an ongoing basis:

Some financial assets and liabilities of the Bank are evaluated at fair value at the end of each financial period. The following table shows the information about how to determine the fair value of these financial assets and liabilities (evaluation methods and inputs used):

Financial Assets	Fair Value		The Level of Fair Value	Evaluation Method and Inputs used	Important Intangible Inputs	Relation between the Fair Value and the Important Intangible Inputs
	31 December					
	2025	2024				
	JD	JD				
Financial Assets at Fair Value						
Financial Assets at Fair Value through Statement of Income:						
Government bonds listed on financial markets	1,941,487	2,595,510	Level 1	Quoted prices in financial markets	N/A	N/A
Corporate bonds listed on financial markets	2,446,023	1,220,338	Level 1	Quoted prices in financial markets	N/A	N/A
Corporate shares listed on financial market	4,723,314	2,286,096	Level 1	Quoted prices in financial markets	N/A	N/A
Investment funds	15,555,876	12,561,599	Level 2	The treasury manager evaluation of fair value	N/A	N/A
Total	**24,666,700**	**18,663,543**				
Financial Assets at Fair Value through Other Comprehensive Income:						
Quoted Shares in active markets	96,533,835	28,472,247	Level 1	Quoted prices in financial markets	N/A	N/A
Corporate bonds listed on financial markets	107,989,424	45,515,882	Level 1	Quoted prices in financial markets	N/A	N/A
Investment funds	46,880,054	26,360,195	level 2	The treasury manager evaluation of fair value	N/A	N/A
Unquoted Shares in active markets	56,107,222	19,367,863	Level 3	Through using equity method and based on the latest available financial information	N/A	N/A
Total	**307,510,535**	**119,716,187**				
Total Financial Assets at Fair Value	**332,177,235**	**138,379,730**				

There were no transfers between level 1 and level 2 during the year ended 31 December 2025 and 2024.

The movement financial assets classification fair value through (level 3):

	For the year ended 31 December	
	2025	2024
	JD	JD
Beginning balance	19,367,863	15,159,479
Additions during the period resulting from the acquisition	26,875,800	-
Additional	11,052,147	2,364,944
Disposal	(873,005)	(223,590)
Change in fair value	(315,583)	2,067,030
Total	**56,107,222**	**19,367,863**

b. The fair value of the financial assets and financial liabilities of the Bank non-specific fair value on an ongoing basis:

Except for what is set out in the table below. we believe that the carrying amount of financial assets and liabilities shown in the consolidated financial statements of the Bank approximates their fair value:

	31 December 2025		31 December 2024		The level of Fair Value
	Book value	Fair value	Book value	Fair value	
	JD	JD	JD	JD	
Financial Assets of Non-specified Fair Value					
Term deposits, call accounts and certificate of deposits at the Central Bank	751,100,000	751,206,812	341,100,000	341,123,901	Level 2
Current accounts and balances at Banks and Financial Institutions	982,278,364	983,838,208	505,422,079	506,003,564	Level 2
Direct credit facilities at amortized costs	6,400,854,910	6,410,030,769	4,562,816,078	4,568,788,193	Level 2
Other financial assets at amortized costs	2,449,369,056	2,491,309,354	1,855,913,452	1,884,048,905	Level 2
Total Financial Assets of Non-specified Fair Value	**10,583,602,330**	**10,636,385,143**	**7,265,251,609**	**7,299,964,563**	
Financial Liabilities of Non-specified Fair Value					
Banks' and Financial Institutions' deposits	456,084,233	457,103,101	357,199,782	359,012,968	Level 2
Customers' deposits	9,413,838,733	9,486,261,236	6,406,677,540	6,468,007,257	Level 2
Margin accounts	599,265,262	600,907,012	374,955,909	375,928,974	Level 2
Borrowed funds	494,252,372	495,592,911	220,773,527	221,164,373	Level 2
Subordinated loans	60,265,000	60,968,008	60,295,000	61,449,661	Level 2
Bonds	44,660,000	44,710,358	-	-	
Total Financial Liabilities of Non-specified Fair Value	**11,068,365,600**	**11,145,542,626**	**7,419,901,758**	**7,485,563,233**	

The fair value of the financial assets and liabilities for level 2 was determined in accordance with agreed pricing models. which reflect the credit risk of the parties dealt with.

52 – Acquisition of Invest Bank

On 25 June 2025, the General Assembly, in its Extraordinary Meeting, approval was granted to acquire 100% of the shares of Invest Bank with an amount of 125 million shares.

This was completed through an issuance in the Bank's paid-in capital by 125,203,252 shares, with the shares allocated and their ownership transferred to the shareholders of Invest Bank, each in proportion to their respective shareholding in its capital.

The procedures for registering the shares related to the capital increase of Bank al Etihad, with total of 125,203,252 shares, were completed on 3 July 2025, which resulted in increase in the Bank's paid-in capital to 325,203,252 shares.

Consequently, all assets and liabilities of Invest Bank were transferred to the accounts of the Bank, as follows:

	For the period from the acquisitiondate to 31 December 2025
	JD
Profit for the period	**11,843,913**

Purchase Price Allocation Study:

The results presented above are preliminary and will be updated upon completion of the purchase price allocation (PPA) study related to the acquisition. In accordance with IFRS 3 – Business Combinations, the Bank has a period of up to 12 months from the acquisition date to finalize the determination of fair values and complete the purchase price allocation assessment.

53. Standards Issued But Not Yet Effective

The standards and interpretations that are issued but not yet effective, up to the date of issuance of the Bank's consolidated financial statements are disclosed below. The Bank intends to adopt these standards, if applicable, when they become effective.

Amendments to the Classification and Measurement of Financial Instruments—Amendments to IFRS 9 and IFRS 7

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The amendments include:

- A clarification that a financial liability is derecognised on the 'settlement date' and introduce an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date
- Additional guidance on how the contractual cash flows for financial assets with environmental, social, and corporate governance (ESG) and similar features should be assessed
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI)

The amendments are effective for annual periods starting on or after 1 January 2026. Early adoption is permitted, with an option to early adopt the amendments for classification of financial assets and related disclosures only.

The amendments are not expected to have a material impact on the Group's consolidated financial statements.

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes, and discontinued operations, whereof the first three are new.

It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

In addition, narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

IFRS 18, and the amendments to the other standards, is effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively.

This standard will result in new presentation of the income statement with some new required totals, in addition to the disclosure of management-defined performance measures.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

IFRS 19 Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued IFRS 19, which allows eligible entities to elect to apply its reduced disclosure requirements while still applying the recognition, measurement, and presentation requirements in other IFRS accounting standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements, available for public use, which comply with IFRS accounting standards.

IFRS 19 will become effective for reporting periods beginning on or after 1 January 2027, with early application permitted.

As the Group's equity instruments are publicly traded, it is not eligible to elect to apply IFRS 19.

Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21

In November 2025, the Board issued Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21. The amendments require translation from a non-hyperinflationary functional currency into a hyperinflationary presentation currency at the closing rate.

If an entity's functional currency is the currency of a non-hyperinflationary economy, but its presentation currency is the currency of a hyperinflationary economy, its results and financial position are translated into the presentation currency by translating all amounts (i.e., assets, liabilities, equity items, income and expenses) and all comparatives at the closing rate at the date of the most recent statement of financial position.

An entity whose functional currency and presentation currency are the currency of a hyperinflationary economy, restates the comparative amounts of a foreign operation, whose functional currency is that of a non-hyperinflationary economy, by applying the general price index, in accordance with paragraph 34 of IAS 29, to the foreign operation's comparative figures.

The amendments also introduce certain additional disclosure requirements.

The amendments apply for annual reporting periods beginning on or after 1 January 2027 and earlier application is permitted.

54. Acquisition of Egyptian Arab Land Bank – Jordan

A definitive agreement was signed for the acquisition of the branches and operations of Egyptian Arab Land Bank – Jordan at the end of 2025. All necessary regulatory approvals and requirements were completed, and the agreement became effective on 2 January 2026.

55. Comparative Figures

Certain reclassifications have been made to the consolidated financial statement figures for 2024 to align with the presentation of the consolidated financial statements for 2025. These reclassifications did not have any impact on the 2024 profit or equity.
